Key to the City Sara C. Bronin, 2024-10-01 An eye opening exploration of one of the little known levers that controls our world zoning codes and a call to arms for using them to improve American society at every level Zoning codes dictate how and where we can build housing factories restaurants and parks They limit how tall buildings can be and where trees can be planted They have become the most significant regulatory power of local government ultimately determining how we experience our cities Yet zoning remains invisible In *Key to the City* legal scholar and architect Sara C Bronin examines how zoning became such a prevailing force and reveals its impact and its potential for good Outdated zoning codes have maintained racial segregation prioritized cars over people and enabled great ecological harm But as Bronin argues once we recognize the power of zoning we can harness it to create the communities we desire and deserve Drawing on her own experience leading the overhaul of Hartford s zoning code and exploring the efforts of activists and city planners across the country Bronin shows how new codes are reshaping our cities from Baltimore to Chicago Las Vegas to Minneapolis and beyond In Boston a law fought for by a passionate group of organizers farmers and beekeepers is transforming the city into a haven for urban farming In Tucson
