Its Electrifying Primary Connections:

Enhancing Professional Knowledge of Pre-Service Science Teacher Education by Self-Study Research Gayle A. Buck, Valarie L. Akerson, 2016-06-22 Self study research is making an impact on the field of science education University researchers employ these methods to improve their instruction develop as instructors and ultimately impact their students learning This volume provides an introduction to self study research in science education followed by manuscripts of self studies undertaken by university faculty and those becoming university faculty members in science teacher education Chapter authors range from those new to the field to established researchers highlighting the value of self study research in science teacher education for every career rank The fifteen self studies provided in this book support and extend this contemporary work in science teacher education They and the subsequent reflections on professional knowledge are organized into four sections content courses for preservice teachers elementary methods courses secondary methods courses and preparation of future teacher educators Respondents from various locations around the globe share their reflections on these sections A culminating reflection of the findings of these studies is provided at the end of the book that provides an overview of what we have learned from these chapters as well as a reflection on the role of self study research in the future of science teacher education

It's Electrifying Australian Academy of Science, 2012 Electrical energy is part of our everyday lives at home at work and at school We use it for refrigeration machines and lighting Portable devices such as mobile phones watches and many toys rely on batteries for electrical energy Electric circuits are needed to allow energy to be transferred from a battery to light bulbs motors and buzzers where it is changed into light movement or sound The It s electrifying unit is an ideal way to link science with literacy in the classroom Students develop their understanding through hands on activities that explore the role of electrons in transferring energy in electric circuits Through investigating batteries light bulbs switches conductors and insulators they explain how battery operated devices for example a torch work P i

Science in Early Childhood Coral Campbell, Wendy Jobling, Wendy Margaret Jobling, Christine Howitt, 2015-05-04 This second edition has been substantially updated and revised to include comprehensive coverage of the birth to eight age group Drawing on the most up to date research this edition presents current issues and debates relevant to pre service teachers of early childhood science both at pre school and in the early years of schooling

Primary Connections It's Electrifying Stage 3, 2008 **It's Electrifying**, 2008 *It's Electrifying*, 2007 Title on CD Rom Science background CD Funded by the Department of Education Science and Training under the Australian Government Quality Teacher Programme Spiral bound CD Rom kept in back of book

Electrifying Anthropology Simone Abram, Brit Ross Winthereik, Thomas Yarrow, 2020-05-27 What kinds of expertise and knowledge relate to electricity and where is the space for alternative voices How can the new roles for electricity in social and cultural life be acknowledged How can we speak about it in its own right while acknowledging that electricity is not one thing This book re describes electricity and its infrastructures using insights from

anthropology and science and technology studies raising fascinating questions about the contemporary world and its future Through ethnographic studies of bulbs bicycles dams power grids and much more the contributors shed light on practices that are often overlooked showing how electricity is enacted in multiple ways Electrifying Anthropology moves beyond the idea of electricity as an immovable force and instead offers a set of potential trajectories for thinking about electricity and its effects in contemporary society With new contributions on an emerging area of research this timely collection will be of value to students and scholars of anthropology science and technology studies geography and engineering

Teaching Climate Science in the Elementary Classroom Stephanie Sisk-Hilton, 2023-12-19 Discover new ways to help elementary students engage with and understand the world around them through place based hope filled learning about the causes impacts and responses to climate change This book features foundational climate concepts easily implementable activity plans and inspiring examples of student engagement Each chapter begins with a short vignette pulled from the author s considerable teaching experience in engaging students in concepts of climate change and climate justice followed by content focused sections and recommendations for student activities and projects The author provides stories of hope filled action to invite teachers to look for and reflect on similar narratives in their own communities Sample units of study for grades K 5 show teachers how key ideas from each chapter come together into an instructional plan that incorporates the three dimensions of NGSS and can fit into the broader outline of their school year This resource is an accessible tool to support any elementary educator in building their own knowledge base and integrating the important and timely issues of climate change into their classroom

Health and Energy Platform of Action report 2020-2022: building connections for better health World Health Organization, 2024-01-29 Energy is linked to many of the sustainable development priorities including public health gender equality food security clean water education economic growth youth and women s empowerment and climate action The absence of clean and sustainable energy has a significant adverse impact on the health and livelihoods of the poorest populations Around 2 3 billion people mostly in low and middle income countries LMICs still mainly rely on inefficient and polluting fuels and stoves for daily cooking exposing them to health damaging emissions that result in millions of premature deaths each year Health and livelihood risks are greatest for women and children as they are often tasked with cooking and gathering fuel The traditional use of biomass for cooking also puts the environment and climate at risk by contributing to deforestation and greenhouse gas emissions Around 1 billion people worldwide mostly in poor and rural communities are estimated to be served by health care facilities without any electricity or reliable power supply and only one in two hospitals in sub Saharan Africa has a reliable electricity supply Without adequate and reliable power essential medical devices cannot function basic amenities remain out of reach and delivery of health care services is of substandard quality Unless rapid action is taken the world will not meet its targets under the 2030 Agenda for Sustainable Development and the Paris Agreement In November 2018 during the first World Health Organization WHO Global Conference on Air Pollution and Health Dr Tedros

Adhanom Ghebreyesus Director General of WHO announced his vision to build a Health and Energy Platform of Action HEPA to enhance multisectoral collaboration between the health and energy sectors and mobilize the political and financial commitments needed to achieve Sustainable Development Goals SDGs 3 and 7 In response WHO the United Nations Department of Economic and Social Affairs UN DESA the United Nations Development Programme UNDP and the World Bank in cooperation with the International Renewable Energy Agency IRENA and other key stakeholders launched HEPA in May 2019 with an initial focus on improving health through promoting clean fuels and technologies for cooking and accelerating access to electricity for health care facilities Following this announcement in July 2020 HEPA members worked together to develop a strategic workplan with five overarching objectives to strengthen the cooperation between the health and energy sectors and elevate energy access as a key development priority area for public health gender equity climate and sustainable development more broadly see Box 1 HEPA has gained significant momentum since its establishment in 2019 By October 2022 the platform had over 20 member organizations All members are committed to working together and synergizing efforts on the ground to accelerate universal electrification of health care facilities and clean cooking This HEPA action report summarizes the key activities and results achieved and highlights activities under each of HEPA s five objectives

Electric Power System Basics for the Nonelectrical Professional Steven W. Blume, 2016-11-21 The second edition of Steven W Blume s bestseller provides a comprehensive treatment of power technology for the non electrical engineer working in the electric power industry This book aims to give non electrical professionals a fundamental understanding of large interconnected electrical power systems better known as the Power Grid with regard to terminology electrical concepts design considerations construction practices industry standards control room operations for both normal and emergency conditions maintenance consumption telecommunications and safety The text begins with an overview of the terminology and basic electrical concepts commonly used in the industry then it examines the generation transmission and distribution of power Other topics discussed include energy management conservation of electrical energy consumption characteristics and regulatory aspects to help readers understand modern electric power systems This second edition features New sections on renewable energy regulatory changes new measures to improve system reliability and smart technologies used in the power grid system Updated practical examples photographs drawing and illustrations to help the reader gain a better understanding of the material Optional supplementary reading sections within most chapters to elaborate on certain concepts by providing additional detail or background
