**Houdini, Tarzan, and the Perfect Man** John F. Kasson, 2002-07-02 A remarkable new work from one of our premier historians In his exciting new book John F Kasson examines the signs of crisis in American life a century ago signs that new forces of modernity were affecting men s sense of who and what they really were When the Prussian born Eugene Sandow an international vaudeville star and bodybuilder toured the United States in the 1890s Florenz Ziegfeld cannily presented him as the Perfect Man representing both an ancient ideal of manhood and a modern commodity extolling self development and self fulfillment Then when Edgar Rice Burroughs s Tarzan swung down a vine into the public eye in 1912 the fantasy of a perfect white Anglo Saxon male was taken further escaping the confines of civilization but reasserting its values beating his chest and bellowing his triumph to the world With Harry Houdini the dream of escape was literally embodied in spectacular performances in which he triumphed over every kind of threat to masculine integrity bondage imprisonment insanity and death Kasson s liberally illustrated and persuasively argued study analyzes the themes linking these figures and places them in their rich historical and cultural context Concern with the white male body with exhibiting it and with the perils to it reached a climax in World War I he suggests and continues with us today

Psychoanalysis in Asia Alf Gerlach, Maria Teresa Savio Hooke, Sverre Varvin, 2018-04-27 The world is looking East Whilst in the West psychoanalysis is fighting to maintain its position among the other therapies in a society which has less time for introspection and self reflective thought in Asia a new frontier is opening up we are witnessing a surge of interest for psychoanalysis among the mental health professionals and among the younger generations interest which is articulated and nuanced differently in the different Asian countries In Asia and particularly in India Japan South Korea Taiwan and China the development of psychoanalysis reflects separate socio political historical contexts each with a rich cultural texture and fuelled by the interest of a new generation of mental health professionals for psychoanalysis as a therapeutic method

**Performing Dark Arts** Michael Mangan, 2007-08-01 Magic and conjuring inhabit the boundaries and the borderlands of performance The conjuror s act of demonstrating the apparently impossible the uncanny the marvellous or the grotesque

challenges the spectator's sense of reality. It brings him or her up against their own assumptions about how the world works at its most extreme: it asks the spectator to re-evaluate his or her sense of the limits of the human. Performing Dark Arts is an exploration of the paradox of the conjuror, the actor who pretends to be a magician. It aims to illuminate the history of conjuring by examining it in the context of performance studies and to throw light on aspects of performance studies by testing them against the art of conjuring. The book examines not only the performances of individual magicians from Dedi to David Blaine but also the broader cultural contexts in which their performances were received and the meanings which they have attracted.

Disappearing Tricks Matthew Solomon, 2010. An anti-spiritualist medium, stage magic and the beginnings of cinema. The death of magic, presentational performance and early film. Behind the curtain. M. L. S. at the Theatre. Robert Houdin. Up to date magic, theatrical conjuring and the trick film. Houdini's actuality, magic escaping the ghost house with moving pictures. Lost in transition, sensational fiction and the limits of narrative integration. Epilogue.

Crescendo of the Virtuoso Paul Metzner, 2024-06-04. During the Age of Revolution, Paris came alive with wildly popular virtuoso performances. Whether the performers were musicians or chefs, chess players or detectives, these virtuosos transformed their technical skills into dramatic spectacles, presenting the marvelous and the outré for spellbound audiences. Who these characters were, how they attained their fame, and why Paris became the focal point of their activities is the subject of Paul Metzner's absorbing study. Covering the years 1775 to 1850, Metzner describes the careers of a handful of virtuosos: chess masters who played several games at once; a chef who sculpted hundreds of four-foot-tall architectural fantasies in sugar; the first police detective whose memoirs inspired the invention of the detective story; a violinist who played whole pieces on a single string. He examines these virtuosos as a group in the context of the society that was then the capital of Western civilization.
