*Journeys toward Narrative Preaching* Wayne Bradley Robinson, 2007-02-21 This volume is the outcome of the work of six members of the Narrative and Imagination working group of the Academy of Homiletics We hope that this volume will encourage those who have not tried narrative preaching to do so especially since we present a variety of models of how to do narrative preaching and show how each of us moved toward the particular model we present We also hope that this volume will contribute to the development of the discipline of narrative preaching When done well narrative preaching has the power to effect the kind of transformation in people s lives which we all hope for when we as vehicles attempt to communicate the good news This is so in part because narrative preaching both reflects and impacts on the narrative quality of life as we live it We recognize ourselves in narratives and we can imagine ourselves changed through narrative in a way that does not often happen through other means of preaching from the Introduction Contributors Robert G Hughes Eugene L Lowry Wayne Bradley Robinson Lucy Rose Richard L Thulin Michael E Williams

**Images of Montenegro in Anglo-American Creative Writing and Film** Neil Diamond, Marija Knežević, 2017-01-06 This book observes images of Montenegro in Anglo American creative writing and films from the late eighteenth century until 2016 Like the Balkans as a whole Montenegro usually reappeared in the West's consciousness with the outbreak of wars but remained marginalized on the larger Balkan map because of its peripheral political influence and therefore remained little known In the past Montenegro was experienced as almost unapproachable barren and wild Its people like their mountains were seen as massive and fierce while their primitivism equally delighted and repulsed visitors Even today when one searches the Internet for Montenegro one finds titles mostly containing modifiers circling around undiscovered magical and mysterious The book follows these vignettes chronologically to point out how the rhetoric they share dangerously builds a caricature of the country However they also provide a very lively mosaic of landscapes history people their costumes houses and everyday life which are sometimes distorted No one can claim that these descriptions were not influenced by the ideologies the travellers inherited at home and were not filtered through their own cultural grids but significantly they evoke places that are now forever lost destroyed in wars by earthquakes faulty development planning or simply by time *Dwight's Journal of Music*, 1880
