American Hauntings Robert E. Bartholomew, Joe Nickell, 2015-06-19 This work provides an accurate in depth examination and scientific evaluation of the most famous hauntings in American history as depicted in popular films and television programs Neither a debunking book nor one written for the true believer in the paranormal *American Hauntings* objectively scrutinizes the historic evidence behind such hugely popular films as *The Exorcist* *The Amityville Horror* *An American Haunting* *The Conjuring* and *The Haunting in Connecticut* to ascertain the accuracy of these entertainment depictions of true life hauntings The authors then compare these popular culture accounts against the alleged real life encounters and impartially weigh the evidence to assess whether each incident actually took place Written by highly credentialed recognized authorities on the paranormal and social psychology this book contains meticulously documented science based information written for a broad audience from middle and high school students and those taking introductory courses at a university level to general readers There is no other work that provides as careful and unbiased an evaluation of the most famous hauntings in American history The book also examines the reliability of popular television shows such as *Unsolved Mysteries* and *Paranormal Witness*

The Conjuring Kevin J. Wetmore Jr., 2021-07-01 In 2013 an apparently simple back to basics scary movie transformed horror cinema for the rest of the decade Based on the allegedly true story of the Perron family haunting and subsequent investigation by ghost hunters Ed and Lorraine Warren *The Conjuring* has to date spawned six sequels and prequels making up a *Conjuring* universe that has taken over a billion dollars around the world The New York Times called *The Conjuring* a fantastically effective haunted house movie which following his earlier film *Insidious* established director James Wan as a force in horror cinema In this *Devil's Advocates* horror scholar Kevin Wetmore examines what elements in the film are truly terrifying how the filmmakers claims of being based on a true story hold up against the actual history of the haunting and the Warrens and the relationship between *The Conjuring* and the many films in its universe Along the way this book also considers how games toys and dolls play an important role in the series offers a critique of gender roles in the films and asks the question what is actually conjured in *The Conjuring* The delightful result is an in depth close reading of a film that uses standard horror tropes

masterfully to create a truly scary film Appletons' Annual Cyclopaedia and Register of Important Events ,1875
