Right-Wing Culture in Contemporary Capitalism Mathias Nilges,2019-12-12 Commentators across the political spectrum have argued that the future has been absorbed by an ever expanding present to which we cannot imagine alternatives The notion that we have lost the ability to imagine change culturally socially and politically has become one of the defining problems of our time But what is the difference between the populist narratives of those who promise to solve this problem by returning us to a glorious past and those who promise to lead us into a glorious future Often this book argues not very much at all Revealing neo authoritarianism and capitalist hyper innovation as two sides of the same coin Mathias Nilges shows that today s reactionaries and futurists both harness and profit from the same temporal crises of our present Looking to design popular culture literature and recent theoretical and political discussions Nilges offers ways of understanding the re emergence of familiar and disturbing forms of right wing politics and culture authoritarianism paternalism fascism not as historical repetition but as dangerous consequences of the contradictions of capitalism today Using critical theory in particular the work of Ernst Bloch this book recovers a politics and culture of hope which it locates beyond a future that is colonized by capitalism and a past that becomes the mystical playground for the new Right in that which was never allowed to be and thus demands realization *The Money Market Review* ,1887 **The Pharmaceutical Era** ,1894 **Report from the Committee Appointed to Investigate and Report Upon the Capital Account of the Railways and Tramways of New South Wales** New South Wales.
