Military Medicine in Iraq and Afghanistan Ian Greaves, 2018-09-03 Many if not most of the recent improvements in trauma care in civilian practice have developed from military experience The British Defence Medical Services have been recognised as providers of exemplary health care Although there will be an emphasis on trauma this book also captures lessons from internal medicine and infectious disease ethics for example dealing with detainees a particularly controversial subject human factors mental health issues and rehabilitation Military Medicine provides the evidence and context for these innovations and its unique and important account will be of interest to both military and civilian practitioners alike **The**

Yin-Yang Military Jacqueline Heeren-Bogers, René Moelker, Esmeralda Kleinreesink, Jan Van der Meulen, Joseph Soeters, Robert Beeres, 2020-09-07 This book examines change processes and the challenge of ambidexterity in military organizations It discusses how military organizations can better adapt to the complex and at times chaotic environments they operate in by developing organizational ambidexterity The authors identify various multiple tasks and functions of military organizations that require multi dimensional and often contradictory operational technological cultural and social skills In analogy to the often opposed functions performed by the right and left hand of the body modern military organizations are no longer one dimensional fighting machines but characterized by a duality of tasks such as fighting and peacekeeping which often make part and parcel of one and the same mission The military is both a hot and a cold organization a crisis management organization and a bureaucracy As such the book argues that these dualities are not necessarily opposed but can serve as complementary forces like the yin and yang to better the overall performance of these organizations As a consequence ambidextrous organizations excel at complex tasking and are adaptable to new challenges Divided into four parts 1 structures and networks 2 cultural issues 3 tasks and roles 4 nations and allies it appeals to scholars of military studies and organization studies as well as professionals working for governmental or military organizations **The**

not heard Every Tuesday evening their Paw Paw would bring two of his sons with him to play Pinochle with their dad The siblings respected his wishes and beliefs So they sat with their backs up against the wall their legs laying flat on the floor under their chairs very small area They had a school tablet and 2 pencils and wrote notes to each other making fun of their conversations They had more fun choking back laughter than the card players Evidently it was at that time that Mr Kleier got the itch to write stories In 2007 he wrote a book about his three brothers growing up in Schnitzelburg a town with a very heavy population of German immigrants Mr Kleier befriended a historian professor at the University of Louisville The professor helped him with the history of Schnitzelburg and told Mr Kleier to let him see the finished copy of the book The Four Kleier Boys of Schnitzelburg That book a hardback coffee table book is now sitting on the shelf at the Special Records and Archives of the University of Louisville s Ecstrum Library Mr Kleier then contacted the powers at The Louisville Free Public Library A copy of that same book is now sitting on a shelf at The Louisville Free Public Library In 2018 Mr Kleier wrote another book What has happened to MY world living in Schnitzelburg *Christ for Life* Scott Ballentyne,2016-01-03 Christ For Life cries out that there is a God and judgment time could be close at hand The world will not end tomorrow or even in the next twenty years but it will end Scott Ballentyne shows us that all the dominos are in place and explains how in our lifetime the first scroll could be opened leading to the domino effect that will lead to the end of days He walks us through each of the climatic events that are found in the Bible giving them his own story as to how it will all play out One thing is for sure that once the first domino falls they all will fall Still many people choose to live on the sidelines of life doing nothing but picking dandelions as the battle rages on between Heaven and Hell God assures us that those will be the first to have a spot reserved in Hell Christ for Life will make you want to get off of the sidelines and pick a side to fight for *Religion and American Cultures* Gary Laderman,Luis León,2014-12-17 This four volume work provides a detailed multicultural survey of established as well as new American religions and investigates the fascinating interactions between religion and ethnicity gender politics regionalism ethics and popular culture This revised and expanded edition of Religion and American Cultures Tradition Diversity and Popular Expression presents more than 140 essays that address contemporary spiritual practice and culture with a historical perspective The entries cover virtually every religion in modern day America as well as the role of religion in various aspects of U S culture Readers will discover that Americans aren t largely Protestant Catholic or Jewish anymore and that the number of popular religious identities is far greater than many would imagine And although most Americans believe in a higher power the fastest growing identity in the United States is the nones those Americans who elect none when asked about their religious identity thereby demonstrating how many individuals see their spirituality as something not easily defined or categorized The first volume explores America s multicultural communities and their religious practices covering the range of different religions among Anglo Americans and Euro Americans as well as spirituality among Latino African American Native American and Asian American communities The second volume focuses on

cultural aspects of religions addressing topics such as film Generation X public sacred spaces sexuality and new religious expressions The new third volume expands the range of topics covered with in depth essays on additional topics such as interfaith families religion in prisons belief in the paranormal and religion after September 11 2001 The fourth volume is devoted to complementary primary source documents

Defending Complexity Eleanor Heartney,2006 One of the most damning charges that can be leveled against artists curators and critics these days is that they are reducing art to politics The idea has taken hold that politics is like a virus sucking all the aesthetic sophistication beauty and formal intelligence out of an art work and leaving behind only an empty husk of tired propaganda This book looks at art and politics from a variety of standpoints among them the failures and successes of art committed to social change the intersections between art and religion globalism and economics the dangers posed by paranoia and censorship to our vision of free expression and the new urgency of these issues in a post 9 11 world

Self-Destruction Peter Brownlowe,2005-12 Not since Jimmy the Greek's statement on race has there been a book this edgy This book says what everyone would like to say but are scared to say Straight out of the projects of Bronx New York this author has traveled down many roads and has experienced many of the things that most will not have had the opportunity to do He has taken some of those thoughts and experiences and put it all in this book in order to expose some of the problems and feelings that he believes is plaguing our country An ex military officer and police officer he recently returned from the war in Iraq and tells us what he really thinks about the war and our current administration He talks about his passion for a crimeless society and holds no punches when talking about crimes and punishment which he believes is one of the most important issues of our time He describes some of the troubles that are in the African American communities and the daunting and somber short and long term effects it is having on his people and society This book will undoubtedly raise some eyebrows and awareness and create a discussion among many

1984 Redux Andrew Curtiss,2011 July 2009 Andrew Curtiss received a Chain Mail in his E Mail box The Message was sent to him from a former colleague he served with in the US Army Special Forces at Fort Bragg North Carolina The subject line of the message read Congratulations you made the terrorist watch list The content suggested

that the Department of Homeland Security had labeled millions of Americans who are Constitutionalists Pro Life of Christian faith voters for rightwing politics are combat veterans and more as potential domestic terrorists After researching the matter Andrew found that the DHS did in fact publish such a report that was meant to be confidential for law enforcement only The report was published April 7 2009 It was during Andrew's research into the matter that he realized the Fundamental Transformation of America as promised by Barrack Obama was indeed transforming America into something much like Oceania in George Orwell's 1984 1984 Redux digs deep into the issues facing Americans today as America Fundamentally Transforms Curtiss draws the comparison of where Obama and his leftist handlers and drones want to take America as part of this transformation to the extreme Socialist Oligarchy depicted in Orwell's 1984 Supported by scores of references and facts one might be surprised to see how close to Orwell's nightmarish depiction America is headed 1984 Redux is not only a wakeup call to America but the world as to what could be if the most influential nation in the world and last hope for freedom falls to the left
