How Ottawa Spends 2009 2010 Economic Upheaval And Political Dysfunction:

How Ottawa Spends, 2009-2010 Maslove Allan, 2009-10-01 This is the thirtieth volume in the series *How Ottawa Spends*. It is arguable that never in these years have Canadians faced such serious economic upheaval and political dysfunction as the current climate. The dramatic and seemingly sudden changes in the economy occurred simultaneously with a political drama one that was largely disassociated from the real and pressing economic challenge. Early Harper budgets delivered lower taxes for all Canadians partly through highly targeted but politically noticeable small tax breaks on textbooks for students tools for apprentices in skilled trades and public transit costs. The needs of the beleaguered average Canadian and the swing voter in the swing constituencies of an already strategized next election were a key part of Conservative agenda setting. In the 2007 budget alone there were twenty nine separate tax reductions and federal spending was projected to increase by 10 billion including a 5.7 percent increase in program spending. A small surplus of 3.3 billion was planned almost all of which would go to debt reduction. As Harper savoured his 14 October 2008 re election with a strengthened minority government although without his desired majority he and his minister of Finance already knew that his surpluses were likely gone in the face of the crashing financial sector and a looming recession. Future deficits were firmly back on the agenda. equality seeking civil society organizations This volume demonstrates conclusively that action and inaction policy change and policy drift are at the heart of growing inequality calling into question Canada's record as a kinder gentler nation

Green-lite G. Bruce Doern, Graeme Auld, Christopher Stoney, 2015-11-01 Anchored in the core literature on natural resources energy production and environmental analysis Green lite is a critical examination of Canadian environmental policy governance and politics drawing out key policy and governance patterns to show that the Canadian story is one of complexity and often weak performance Making a compelling argument for deeper historical analysis of environmental policy and situating environmental concerns within political and fiscal agendas the authors provide extended discussions on three relatively new features of environmental policy the federal cities and urban sustainability regime the federal municipal infrastructure regime and the regime of agreements with NGOs and businesses that often relegate governments to observing participants rather than being policy leaders They probe the Harper era's muzzling of environmental science and scientists Canada's oil sands energy and resource economy and the government's core Alberta and Western Canadian political base The first book to provide an integrated historical and conceptual examination of Canadian environmental policy over many decades Green lite captures complex notions of what environmental policy and green agendas seek to achieve in a business dominated economy of diverse energy producing technologies and their pollution harms and risks **Whatever Happened to the Music Teacher?** Donald J. Savoie, 2013-03-01 Thirty years ago Anglo American politicians set out to make the public sector look like the private sector These reforms continue today ultimately seeking to empower elected officials to shape policies and pushing public servants to manage operations in the same manner as their private sector counterparts In **Whatever Happened to the Music Teacher** Donald Savoie provides a nuanced account of how the Canadian federal government makes decisions Savoie argues that the traditional role of public servants advising governments on policy has been turned on its head and that evidence based policy making is no longer valued as it once was Policy making has become a matter of opinion Google searches focus groups and public opinion surveys where a well connected lobbyist can provide any answers politicians wish to hear As a result public servants have lost their way and are uncertain about how they should assess management performance how they should generate policy advice how they should work with their political leaders and how they should speak truth to political power even within their own departments Savoie demonstrates how recent management reforms in government have caused a steep rise in the overhead cost of government as well as how the notion that public administration could be made to operate like the private sector has been misguided and costly to taxpayers Abandoning textbook discussions of government and public service **Whatever Happened to the Music Teacher** Is a realistic portrayal of how policy decisions are made and how actors and institutions interact with one another and exposes the complexities contradictions present in Canadian politics and governance
