¹ To address the issue, the authors first tested the model with the same dependent variable as in the previous study, the number of employees. The results were similar to those reported in the previous study.

As noted earlier, the 2004 election was a watershed year for the U.S. health insurance industry. The election resulted in a change of control of the White House, and the passage of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (MMA). The MMA was a landmark piece of legislation that provided for a new Medicare drug benefit, and it also included provisions that would affect the private health insurance market. The MMA was a significant step in the effort to reform the Medicare program, and it was a major victory for the health insurance industry.
