design of this book is structured to present novel insights that explain the theoretical linkages among organizational factors in hotels. Managerial applications that may also support organizational performance are proposed here. My contribution to the hotel management literature lies in presenting theoretical linkages that incorporate the organizational factors that may impact organizational performance in hotels. The findings in this book are based upon previous industry researches. This book also has several implications for research. First, given the emphasis in the literature on hotel leadership and hotel knowledge management as two significant indicators for organizational performance, this book adds to a relatively small body of the hotel management literature. Second, this book advances the current literature on hotel leadership development by offering novel insights into how hotel leaders can prepare hotels for the new normal. Particularly, I argue that hotel leaders are those hotel managers or owners who effectively exert effective changes within hotels. Drawing from the current organizational theories, this book suggests new insights to identify hotel leadership as a primary driver which influences hotels' organizational resources. The review of the prior industry research findings reveals that hotel leaders leverage sizable effects on workplace design. In particular, these findings provide evidence that hotel leadership is behind the kind of workplace which has been designed in hotels. Third, this book contributes to research on hotel change management through articulating the impacts of hotel leadership on organizational design.

**The 2014 Smart Decision Guide to Hotel Property Management Systems** Riddhi Maniar, Hotels, resorts and other lodging properties consist of a diversity of operations, all of which need to run like a well-oiled machine. This means enabling, administering, tracking and measuring the constant flow of activities in the front office, the bookings and reservations departments and the concierge and guest services, housekeeping and banquet management departments. Other crucial functions that need to be managed and monitored in an integrated manner include inventory maintenance and security.

**Handbook of Research on Sustainable Tourism and Hotel Operations in Global Hypercompetition** Sezerel, Hakan, Christiansen, Bryan, 2022-10-07 To compete effectively today and remain sustainable over the long term, business organizations must create flexible means of generating competitive advantage given the hypercompetitive nature of the global marketplace in all industries, including tourism. The COVID-19 pandemic has exacerbated the situation, thus requiring the tourism industry to reassess itself and realign operations with global and local realities. The Handbook of Research on Sustainable Tourism and Hotel Operations in Global Hypercompetition examines various aspects of the hospitality, recreation and tourism industries. It contributes empirical research, theoretical development and current best practices to the field. Covering topics such as sustainable medical tourism, technology acceptance model and cultural tourism, this major reference work is an essential resource for community leaders, business executives and managers, government officials, librarians, students and faculty of higher education, researchers and academicians.
