Housing Inequality In Chinese Cities Routledge Contemporary China Series:

Housing Inequality in Chinese Cities Youqin Huang, Si-ming Li, 2014-03-05 In recent decades Chinese cities have experienced profound social economic and spatial transformations In particular Chinese cities have witnessed the largest housing boom in history and unprecedented housing privatization China now is a country of homeowners with more than 70 per cent of urban residents owning homes higher than many developed countries This book shows how China's spectacular housing success is not shared by all social groups with rapidly rising housing inequality and residential segregation increasingly prevalent in previously homogeneous Chinese cities It focuses on the two extremes of the residential landscape and reveals the stark contrast between low income households who live in shacks in so called urban villages and the nouveaux riches who live in exclusive gated villa communities Over four parts the contributors look at the degree to which inequality affects Chinese cities and the extent of residential differentiation housing for the urban poor and in particular housing for migrants from rural China housing for the rapidly expanding Chinese middle class and the new rich and finally governance in residential neighbourhoods **Housing Inequality in Chinese Cities** presents theoretically informed and empirically grounded research into the polarized residential landscape in Chinese cities and as such will be of great interest to students and scholars of Chinese studies urban geography urban sociology and urban studies **China's Urban**

Revolution Austin Williams, 2017-10-19 By 2025 China will have built fifteen new supercities each with 25 million inhabitants It will have created 250 Eco cities as well clean green car free people friendly high tech urban centres From the edge of an impending eco catastrophe we are arguably witnessing history's greatest environmental turnaround an urban experiment that may provide valuable lessons for cities worldwide Whether or not we choose to believe the hype there is little doubt that this is an experiment that needs unpicking understanding and learning from Austin Williams The Architectural Review's China correspondent explores the progress and perils of China's vast eco city program describing the complexities which emerge in the race to balance the environment with industrialisation quality with quantity and the liberty of the individual with the authority of the Chinese state Lifting the lid on the economic and social realities of the Chinese blueprint for eco modernisation Williams tells the story of China's rise and reveals the pragmatic political and economic motives that lurk behind the successes and failures of its eco cities Will these new kinds of urban developments be good humane healthy places Can China find a third way in which humanity nature economic growth and sustainability are reconciled And what lessons can we learn for our own vision of the urban future This is a timely and readable account which explores a range of themes environmental political cultural and architectural to show how the eco city program sheds fascinating light on contemporary Chinese society and provides a lens through which to view the politics of sustainability closer to home **Masculinity, Marriage and Rural Men in Urban China** Sarah Gosper, 2024-12-31 This book explores

the conjuncture and interrelationship between three so called crises facing Chinese society a crisis of marriage a crisis of

masculinity and a crisis of mobility Based on sustained ethnographic research on unmarried lower class rural men from two distinct social and class categories namely migrant workers employed in the food delivery and express mail delivery industries and tertiary educated white collar professionals the book reveals how the increasing socio economic precarity of rural men and their largely unrealised desires to marry and have children demonstrates a fundamental reconfiguration of Chinese masculinity and mobility in urban China and the social impact on central Chinese institutions The book also reveals the futile efforts to fulfil hegemonic models of masculinity in contemporary China and addresses the heterogeneity of unmarried lower class rural men as they navigate marriage manhood and mobility Exploring gender relations in China and contributing to global studies of heterosexual masculinities this book will appeal to students and scholars of Chinese culture and society gender studies and social anthropology

From Village Commons to Public Goods Anne-Christine Trémon, 2023-06-09 Illuminating the complex processes of China's uneven urbanization through the lens of the transition from village commons to public goods this book is set in three urbanized villages in Shenzhen Chengdu and Xi'an which have experienced similar demographic explosions and dramatic changes to their landscapes the livelihoods of its inhabitants and the power structures governing their residents Graduated provision is the delivery of public goods informed by the teleological ideology of urbanization and by neoliberalism with Chinese characteristics and has been employed as an answer to the challenges of making public goods such as welfare provisions public parks education and senior care equally accessible to all in recently urbanized communities

China's Geography Gregory Veeck, Clifton W. Teacher Management in China Eva Huang, John Benson, Ying Zhu, 2016-03-17 Education has long been highly valued in China and continues to be highly valued both by the state which appreciates the value of education for maintaining China's economic rise and by parents who affected by the One Child Policy devote a large proportion of their incomes to their one child's education This book explores current systems of teacher management in China and assesses their effectiveness It charts the development of China's education system outlines present day human resource management methods in Chinese schools including practices for recruitment and selection training and development performance appraisal and rewards both pay and non financial rewards and describes recent changes and innovations The book concludes that a high performance work system enhanced by traditional paternalistic humanised management and by pragmatism predominates with important consequences for teachers jobs and performance and for the quality of students school life **A Research Agenda for Cities** John Rennie

Short, 2017-03-31 Elgar Research Agendas outline the future of research in a given area Leading scholars are given the space to explore their subject in provocative ways and map out the potential directions of travel They are relevant but also visionary This book provides a critical assessment of key areas of urban scholarship In twelve stimulating chapters expert contributors examine a range of important pressing topics from sustainability and gentrification to feminist interventions and globalization to security and food issues Six more regionally informed expert reviews examine recent urban research in sub Saharan Africa South America East Asia the Middle East Australia and Eastern Europe The chapters provide polemical assessments and signposts for future research The book will be an indispensable and accessible guide to urban research across the globe

Confronting the Challenges of Urbanization in China Zai Liang, Steven F. Messner, Youqin Huang, Cheng Chen, 2016-08-05 Since the late 1970s China has experienced an unprecedented pace of urbanization In 1978 only 17.8% of the population resided in urban areas but by 2013 the level of urbanization had reached 53.8% During the same period China

also enjoyed spectacular economic growth China had become the second largest economy in the world by 2012 just behind the United States Despite China's highly acclaimed achievements in urbanization and its economic miracle urban China confronts a set of significant challenges This book provides theoretically informed and empirically rich analyses of some of the key challenges facing China's urbanization The first part deals with new patterns of urbanization focusing on comprehensive measures and environmental dimensions of urbanization The second part of the book focuses on several aspects related to migrants in cities migrant entrepreneurship return migration and local people's attitudes toward migrants The final section examines two key issues important for migrants urban local residents and policy makers that have become quite contentious in China today housing and urban health care This collection presents original cutting edge research on some of the most pressing challenges confronting contemporary urban China conducted by researchers from multiple social science disciplines It will appeal to scholars and advanced students of urban studies and China studies as well as those in sociology anthropology geography and political science

Shanghai Mundane Lei Ping, 2025-09-18 This book offers a new critical intervention into the studies of the paradox of Chinese socialism Centering on the unremovable Shanghai bourgeoisie and middle class the book brilliantly discovers Chinese society's persistent aspiration to bourgeois lifestyle and remarkable resistance to socialist ideology from the Mao era to the Xi era *Shanghai Mundane* offers a new critical intervention into the studies of the paradox of Chinese socialism Through the lens of contested state society relations the book challenges conventional China Studies by repositioning Shanghai as the key to decode the protracted ideological warfare between socialism and capitalism Based on significant archival ethnographic and theoretical evidence unearthed from the distinct cases of Shanghai bourgeoisie and middle class Lei Ping discovers the city's persistent aspiration to bourgeois lifestyle and remarkable resistance to socialist ideology throughout the entire history of the People's Republic of China Ping argues that despite the socialist remolding of capitalist industry and commerce the post 1949 Chinese state failed to eradicate bourgeois heritage in the domain of everyday life in the Mao era which ironically contributed to its controversial policy reversals in the post Mao era from Deng to Xi What lies at the heart of the major intellectual conundrum namely the survival and revival of bourgeois sentiments is what Ping calls the unremovable Shanghai mundane This captivating and provocative account sheds new light on understanding the larger questions as to the crisis ridden practices of Chinese socialism and the raison d'être of the Chinese Communist Party in the twenty first century

The Socio-spatial Design of Community and Governance Sam Jacoby, Jingru (Cyan) Cheng, 2021-01-18 This book proposes a new interdisciplinary understanding of urban design in China based on a study of the transformative effects of socio spatial design and planning on communities and their governance This is framed by an examination of the social projects spaces and realities that have shaped three contexts critical to the understanding of urban design problems in China the histories of collective forms and collective spaces such as that of the urban danwei work unit which inform current community building and planning socio spatial changes in urban and rural

development and disparate practices of spatialised governmentality These contexts and an attendant transformation from planning to design and from government to governance define the current urban design challenges found in the dominant urban xiaoqu small district and shequ community development model Examining the histories transformations and practices that have shaped socio spatial epistemologies and experiences in China including a specific sense of community and place that is rather based on a concrete collective than abstract public space and underpinned by socialised governance this book brings together a diverse range of observations thoughts analyses and projects by urban researchers and practitioners Thereby discussing emerging interdisciplinary urban design practices in China this book offers a valuable resource for all academics practitioners and stakeholders with an interest in socio spatial design and development **China's Unruly**

Journalists Jonathan Hassid, 2015-12-22 Despite operating in one of the most tightly controlled media environments in the world Chinese journalists sometimes take extraordinary risks braving the perils of job loss or imprisonment to report sensitive stories As a result a group of journalists stands at the forefront of some of China's most dramatic social and political changes This book is the first to systematically explore why some Chinese journalists decide to challenge Communist Party power holders and the censorship system Based on 18 months of fieldwork interviews with over 70 Chinese journalists and academics and analysis of nearly 20 000 Chinese newspaper articles it investigates the motivation behind news workers who often brave the perils of challenging an authoritarian system Rather than being driven by commercial pressures or financial inducements the book suggests that many aggressive journalists push the limits of acceptable coverage because of their sense of public spirit and their professional role orientation It argues that ultimately these advocate journalists matter because they challenge specific policies and are changing China one article at a time By investigating these path breaking journalists the book engages with literature across the social sciences on contentious politics and social movements political communication media theory and the sociology of professions Therefore it will be of great interest to students and scholars of Chinese Studies Politics and Media Studies **Disability Policy in China**

Xiaoyuan Shang, Karen R. Fisher, 2015-12-14 Without access to a public social welfare system in parts of China some families face invidious decisions about the lives of their children with disabilities In other places children with disabilities can now expect to participate in their families and communities with the same aspirations as other children Understanding how Chinese policy has changed in the places that have addressed these stark situations is vital for the rights of the children and their families who still struggle to find the support they need This book examines family experiences of child disability policy in China and is the first to compile research on this area It applies a child disability rights framework in four domains care and protection economic security development and participation to investigate families experiences of the effectiveness of support to fulfil their children's rights Questioning how families experience the interrelationships between these rights it also considers what the further implications of the policy are It includes vivid case studies of families experiences and combines these with national data to

draw out the likely future policy directions to which the Chinese government has said it is committed Bringing together a wealth of statistical and qualitative data on children with disabilities this book will be of great interest to students and scholars of Chinese social welfare social policy society and children s studies as well as policy makers and NGOs alike

Forecasting China's Future Roger Irvine, 2015-06-26 China s future development is likely to have a huge impact on twenty first century global outcomes It is therefore surprising that thus far so little attention has been given to comparing and evaluating expert forecasts of China s future in the post Mao era This book presents an illuminating and comprehensive summary record of contrasting and competing expert forecasts and judgements about the major issues confronting China within four principal domains political economic environmental and international After considering the principal forecasting methods available to experts the author comments critically on the degree of success achieved in using those methods and emphasises the confusion created by the polarisation of opinion and by the failure of many experts to accept the high degree of uncertainty that characterises most of the key issues The book recommends a new approach based on the study of a hierarchy of critical uncertainties and on continuing analysis of opposing expert opinions about these uncertainties It emphasises the potential for both positive and negative outcomes for these critical uncertainties and the importance of maximising the potential for positive outcomes through improved analytical and policy frameworks Providing insights for specialists and non specialists into the most critical issues that will determine China s future direction this book will be of particular interest to students and scholars of political economic environmental and international relations issues in China and Asia as well as to readers in business and government

Incentives for Innovation in China Xuedong Ding, Jun Li, 2015-02-11 In the past three decades China has successfully transformed itself from an extremely poor economy to the world s second largest economy The country s phenomenal economic growth has been sustained primarily by its rapid and continuous industrialization Currently industry accounts for nearly two fifths of China s gross domestic product and since 2009 China has been the world s largest exporter of manufactured products This book explores the question of how far this industrial growth has been the product of government policies It discusses how government policies and their priorities have developed and evolved examines how industrial policies are linked to policies in other areas such as trade technology and regional development and assesses how new policy initiatives are encouraging China s increasing success in new technology intensive industries It also demonstrates how China s industrial policies are linked to development of industrial clusters and regions

China's Military Procurement in the Reform Era Yoram Evron, 2015-06-26 The decisions that shape the policy of weapons procurement are an important area of national security policy This is all the more true for China which during recent decades has vacillated between different sources and directions of military build up This book explores the politics of military procurement in China under the successive leaderships of Deng Xiaoping Jiang Zemin and Hu Jintao It shows how China s political and military leaders have sought to adjust military procurement policy to meet China s strategic objectives

to relate it to non military needs to strike a balance between the import of weapons and indigenous production and to determine the connections between hardware and other components of military power Exploring in detail five major shifts in the nation s military procurement it traces the considerations and negotiations among China s civilian and military leaderships By doing so it offers both a conceptual framework and empirical grounds for evaluating the factors that shape China s military procurement directions as well as their limitations prospects and operational implications As the first book to study comprehensively and systematically the attributes shaping China s military procurement it will be of great interest to students and scholars of Chinese politics Chinese history and military and strategic studies

Social Entrepreneurship in the Greater China Region Yanto Chandra,Linda Wong,2016-03-31 This book offers the first exploration into the development of social enterprises in the Greater China region consisting of Hong Kong Macau Taiwan and Mainland China By drawing on the research and experience of over a dozen scholars and practitioners from across the area it offers a picture of how a strong State can play an important role as a catalyst in developing the social entrepreneurship sector particularly by legitimizing it It delves into the role and impact of institutions and policy on the development of social enterprises and explains how micro and macro factors might interact in influencing social entrepreneurship Structured in two parts policy and cases it reveals the historical development of the Social enterprises sector in the Chinese context and then illustrates this using cases studies Providing an alternative view of social entrepreneurship by highlighting the importance of context in this new sector the book questions whether or not social entrepreneurship is preferable to more conventional models of development Sparking new interest and offering fresh insight into social entrepreneurship in the Greater China region this book will be useful to students and scholars of Chinese Studies Business Studies and Sociology

Party Hegemony and Entrepreneurial Power in China Elena Meyer-Clement,2015-09-16 Economic liberalisation processes and the rapid development of the private sector are widely visible signs of over thirty years of reform policies in the People s Republic of China Nevertheless the Chinese Communist Party CCP has managed to preserve the basic political institutions of the Leninist Party state including its own unrestrained position of political power Against this background this book investigates the interrelationship between processes of marketisation and commercialisation and the stability of the CCP regime The aim of the book is to complement existing literature on adaptive governance in China and on the reasons for the CCP regime s relative stability while providing new information about the relationship between the Chinese party state and private entrepreneurs Taking case studies from the film and music industries the book gives a detailed account of the political and economic history of these industries in China with special attention given to the role played by private production companies as intermediaries between artistic creation political and ideological constraints and the market A historical institutionalist approach is employed to trace the effect of Chinese policies on popular culture and the institutions of administrative economic political and ideological control over the film and music industries back to the 1950s revealing the mechanisms and

prospects of CCP hegemony in the cultural sector Examining the effects of the marketisation and commercialisation processes on the communist regime and vice versa this book also offers a fresh perspective on the origins of today s Chinese popular cultural mainstream It will therefore be of great interest to students and scholars of Chinese politics Chinese culture and media and Chinese government business relations

Local Governance Innovation in China Jessica C. Teets, William Hurst, 2014-10-30 Despite a centralized formal structure Chinese politics and policy making have long been marked by substantial degrees of regional and local variation and experimentation These trends have if anything intensified as China s reform matures Though often remarked upon the politics of policy formation diffusion and implementation at the subnational level have not previously been comprehensively described let alone satisfactorily explained Based on extensive fieldwork this book explores how policies diffuse across China today the mechanisms through which local governments actually arrive at specific solutions and the implications for China s political development and stability in the years ahead The chapters examine how local level institutions solve governance challenges such as rural development enterprise reform and social service provision Focusing on diverse policy areas that include land use state owned enterprise reform and house churches the contributors all address the same overarching question how do local policymakers innovate in each issue area to address a governance challenges and how if at all do these innovations diffuse into national politics As a study of local governance in China today this book will appeal to both students and scholars of Chinese politics comparative politics governance and development studies and also to policy makers interested in authoritarianism and governance
