Burke, 2015-12-01 From your baby s perspective choosing the right nanny is probably the most important decision a parent can ever make this book is about making the best possible choice Coming home to an abused badly injured or even deceased child is a parent s most horrific unimaginable scenario And yet it happens In 2012 two small children died while in the care of a nanny *The Nanny Time Bomb* is the most accurate and comprehensive analysis of the current crisis in child care offering case studies and practical advice to help parents make the most educated well informed decision when choosing a nanny for their child The book takes the reader through various types of nannies from graduates to undocumented workers thus allowing parents to see how the industry has evolved far past schoolgirl babysitters Setting itself apart Jacalyn S Burke s exploration of the different types of nannies offers a new perspective on child care not only for parents but also for those interested in larger sociological trends This book gives a voice to the often unheard grievances of nannies showing why they may snap explaining how to prevent tragedies and describing how parenting has evolved The author s examination of current cultural and social trends will be useful for a wide readership beyond parents **Into the Void Pacific** Andrew Shanken, 2015-01-16 Published on the occasion of the expo s 75th anniversary *Into the Void Pacific* is the first architectural history of the 1939 San Francisco World s Fair While fairs of the 1930 s turned to the future as a foil to the Great Depression the Golden Gate International Exposition conjured up geographical conceits to explore the nature of the city s place in what

organizers called Pacific Civilization Andrew Shanken adopts D H Lawrence s suggestive description of California as a way of thinking about the architecture of the Golden Gate International Exposition using the phrase void Pacific to suggest the isolation and novelty of California and its habit of looking West rather than back over its shoulder to the institutions of the East Coast and Europe The fair proposed this vision of the Pacific as an antidote to the troubled Atlantic world then descending into chaos for the second time in a generation Architects took up the theme and projected the regionalist sensibilities of Northern California onto Asian and Latin American architecture Their eclectic referential buildings drew widely on the cultural traditions of ancient Cambodia China and Mexico as well as the International Style Art Deco and the Bay Region Tradition The book explores how buildings supported the cultural and political work of the fair and fashioned a second parallel world in a moment of economic depression and international turmoil Yet it is also a tale of architectural compromise contingency and symbolism gone awry With chapters organized around the creation of Treasure Island and the key areas and pavilions of the fair this study takes a cut through the work of William Wurster Bernard Maybeck Timothy Pflueger and Arthur Brown Jr among others Shanken also looks closely at buildings as buildings analyzing them in light of local circumstances regionalist sensibilities and national and international movements at that crucial moment when modernism and the Beaux Arts intersected dynamically
