How Color Bilingual Malay English:

Cognitive Processing in Bilinguals R.J. Harris,1992-01-23 This collection of 33 papers represents the most current thinking and research on the study of cognitive processing in bilingual individuals. The contributors include well known figures in the field and promising new scholars representing four continents and work in dozens of languages. Instead of the social, political or educational implications of bilingualism, the focus is on how bilingual people, mostly adults, think and process language.

An Education System Worthy of Malaysia M. Bakri Musa,2003-01-22 Malaysia's highly centralized and tightly controlled system of education fails in educating and integrating the young. It is also ill suited for a plural society. Instead of the present rigid and uniform system, the writer calls for one that is flexible and diverse but with a core of commonality. There should also be private sector participation to provide competition and spur innovation. Achieving this requires radically changing the ministry of education from one obsessed with strict top down command to a more democratized model with power and responsibilities delegated to the periphery. The minister is less a drill sergeant barking out orders to his raw recruits but more of a symphony conductor coaxing the best out of his skilled musicians. The reforms suggested here will make Malaysians fluently bilingual in Malay and English, science literate and mathematically competent as well as foster a common Malaysian identity.

Malaysian Literature in English Mohammad A. Quayum,2020-05-15 This collection of essays brings together work by some of the most internationally acclaimed critics of Malaysian literature in English from different parts of the world including Australia, Canada, Japan, Malaysia, Singapore and the US. It investigates the works of major writers of the tradition in the genres of drama, fiction and poetry from its beginnings to the present, focusing mainly on thematic and stylistic trends. The book pays particular attention to issues such as gender, ethnicity, nationalism, multiculturalism, diaspora, hybridity and transnationalism, which are central to the creativity and imagination of these writers. The chapters collectively address the challenges and achievements of writers in the English language in a country where English first introduced by the colonisers has experienced a mixed fate of ups and downs in the post independence period due to the changing and sometimes strikingly different policies adopted by the government. The book will be of interest to readers and researchers of Malaysian literature, Southeast Asian studies and postcolonial literatures.

The Oxford Handbook of Southeast Asian Englishes Andrew J. Moody,2024 This volume describes both the history and the contemporary forms, functions and status of English in Southeast Asia. The chapters provide a comprehensive overview of current research on a wide range of topics addressing the impact of English as a language of globalization and exploring new approaches to the spread of English in the region.

The Bilingual Mental Lexicon Aneta Pavlenko,2009-01-22 How are words organized in the bilingual mind? How are they linked to concepts? How do bi and multilinguals process words in their multiple languages? Contributions to this volume offer up to date answers to these questions and provide a detailed introduction to interdisciplinary approaches used to investigate the bilingual lexicon.

How Languages Work Carol Genetti,2014-01-23 A new and exciting introduction to

linguistics this textbook presents language in all its amazing complexity while guiding students gently through the basics. Students emerge with an appreciation of the diversity of the world's languages as well as a deeper understanding of the structure of human language, the ways it is used and its broader social and cultural context. Chapters introducing the nuts and bolts of language study (phonology, syntax, meaning) are combined with those on the functions of language (discourse, prosody, pragmatics) and language contact, helping students gain a better grasp of how language works in the real world. A rich set of language profiles help students explore the world's linguistic diversity, identify similarities and differences between languages and encourages them to apply concepts from earlier chapter material. A range of carefully designed pedagogical features encourage student engagement, adopting a step-by-step approach and using study questions and case studies.

Linguistic Landscapes in South-East Asia Seyed Hadi Mirvahedi, 2022-05-17. Anchored within current issues and debates in the field of Linguistic Landscape (LL) scholarship, this edited volume is concerned with politics of language and the semiotic construction of space in multilingual and multi-ethnic Asian countries. Spanning Malaysia, Singapore, Vietnam, Indonesia, the Philippines, Hong Kong, Taiwan and China, the chapters explore how different individuals and collectivities use semiotic resources in different spaces (schools, airports, streets and shops) as well as online platforms to reinforce or contest existing social structures, bearing strong implications for language maintenance and cultural revitalization, construction of ethnolinguistic and national identities and socioeconomic mobility. Part I looks into how globalization and its accompanying forces and influences, such as the importance of English in socioeconomic mobility, come into contact with local Asian cultures and languages. Part II examines minority languages demographically and socio-politically established in the countries, shedding light on the role of LL that plays in both their minorization and revitalization processes. Part III investigates how LL is utilized as a site for constructing identities to pursue socioeconomic, political and cultural goals. It is within this perspective that the presence and salience of English in the LL of the countries, along with the use of the Asian languages, is analyzed and understood, shedding light on how Asian heritage languages and cultures are preserved and/or certain identities in the times of political unrest or economic development are expressed. This fascinating insight into linguistic landscapes in Asia will be of interest to researchers, students and policy makers in sociolinguistics and applied linguistics anywhere in the world.

Foundations of Bilingual Education and Bilingualism Colin Baker, 2006-01-01. Written as an introductory text from a cross-disciplinary perspective, this book covers individual and societal concepts in minority and majority languages.
