Win the Green Card Lottery! the Complete Do-It-Yourself Guide to the USA Diversity Visa Lottery, 2005

Edition Marybeth Rael, J Stephen Wilson, 2005-06-30 The diversity visa lottery is a complex process that can make or break a family's entry into the United States. Each year millions apply for a green card but many fail because they do not follow the ever-changing requirements or have prior knowledge of the rules. With this in mind, Marybeth Rael and J Stephen Wilson developed *Win the Green Card Lottery: The COMPLETE Do It Yourself Guide*. Edited by James T Daly, Attorney At Law, the 2005 edition for DV 2007 outlines the entire procedure from entering the lottery to obtaining a permanent resident visa. They also offer the only independent review of lottery services for those who need third party assistance. Now in its fourth year, this inexpensive guide provides over 20 crucial tips and essential guidelines to help eliminate common mistakes throughout the process, plus an entire chapter devoted to lottery winners. With these easy-to-read instructions, entrants will submit photographs that meet current State Department requirements, understand the latest lottery rules to easily register themselves online, comprehend instructions for registering family members, determine qualifications for alternate state chargeability, recognize why lottery entrants are disqualified, enter multiple applications where instructed, avoid costly pitfalls that can prevent you from obtaining a visa, know what to do if out of status and win the lottery, identify other ways to get a green card, pass the visa interview, and much more. Author Marybeth Rael wrote *Win the Green Card Lottery* based on her experience with the American Green Card Lottery Network, a lottery service she established to help prospective immigrants prepare diversity visa applications. She also wrote the first book dedicated to the visa lottery, published by Self Counsel Press in 2002. J Stephen Wilson is the co-author, publisher, and owner of mygreencard.com, a leading green card lottery informational site featuring weekly immigration news and immigration books, reports, and related publications. Editor James T Daly is a practicing immigration attorney specializing in visa and other immigration matters. His firm, Daly Law Office, is located in Santa Barbara, California. Jim is a member of the American Immigration Lawyers Association.

Modernisation of e-Judiciary in India DR. K.V. SREENIVASAN, In modern computer era we have computerised everything including the medical profession but why we have not updated our Indian judiciary system alone so far into digital model. Even after the Supreme Court of India had set up a special committee and the committee had given its recommendations during the year 2005 itself and the government also spent during 2011-2015 Rs 640 crs for phase I and Rs 1078 crs for computerisation for creating infra for implementation of e-courting system out of total financial outlay of Rs 1630 crs allocated money for this. But why it had not been fully implemented is the million dollar questions raised by the public. Whether it is because of self interest of the Judiciary or the advocates or court administration in spite of more than 320 crores are pending before all Indian Courts for decades together. Failure of our part to digitalisation of the court cases records and procedure so far the judicial industry is very much affected due to this corona lockdown period. It is a major setback for judiciary since the justice delayed means justice denied. How long our judiciary will keep silent for not opening the courts due to corona like virus effect God only knows the fact. Among the four pillars of our Constitution except Judiciary all the three viz Government Administration and Press are being working for 24X7 but judiciary is closed its office. In order to overcome this situation I bought up this book *E Courting and Modernisation of e judiciary in India* which includes the e filing procedure before SC HCs and District courts and SC guidelines regarding the implementation of the e courting system etc for the benefit of Legal fraternity to switch over immediately in to digital courting and to reduce the pending cases and provide quick justice to our needy poor in time and render them quick justice. Why online marketing is such a powerful tool to promote your business. Marcelo Gameiro, A school of thought advocates that the quality of the products and services offered is the most singular

factor necessary for a business to advance its prospects The proponents of this approach believe that once the quality of goods and services is top notch the client will be happy They advocate that a satisfied customer will return to order for more of such services or goods While that may be true a novel emerging approach notes that although the quality of products and services is crucial it is not enough to keep a business floating A business grows develops and becomes profitable as its revenue base expands A satisfied customer will come back but with marketing strategies in place one happy customer can reach and persuade 50 others Thus excellent quality must go hand in hand with an efficient marketing system to boost a business by creating a wide range of customer outreach In this book you can find the best guide to take advantage of one of the most efficient and cheaper ways of doing marketing today Why marketing is the heart of your business and where is the best vehicle to do marketing today Why online marketing is the most efficient way of doing marketing today Why online marketing efforts last longer than others methods How can you put your business online for free and other methods too
