Forgotten Founders and Other Neglected Social Theorists Christopher T. Conner, Nicholas M. Baxter, David R.

Dickens, 2019-05-14 This edited volume highlights the work of ten forgotten and neglected social theorists in the hope of reinvigorating interest in their work and their potential contributions to the analysis of contemporary social issues Each chapter includes a brief biographical sketch an overview of the selected theorist's work and significance and the relevance of their work to one or more contemporary social issues While other similar texts tend to focus primarily on intellectual biography our emphasis here is on the scholar's theories and their application to contemporary social issues We provide a contextualization of each scholar's work using present day social issues or problems Many of these individuals played a significant role in the development of sociology Our hope is to provide a resource that will help re-integrate these marginalized social theorists rescuing them from obscurity and elevating their status

Cultural Psychology of Intervention in the Globalized World Sanna Schlieve, Nandita Chaudhary, Giuseppina Marsico, 2018-06-01 The interventions have ranged between benevolent exchanges to powerful influences as well as military domination Although interpersonal and group influence has been an important domain of study in Social Psychology we propose to take a fresh look at these phenomena from the specific orientations provided by the discipline of Cultural Psychology In this perspective meaning making processes becomes a key for understanding the everyday experiences of the receivers and agents of intervention In this volume we see how attending to meaning making processes becomes crucial when researching or intervening within cultural encounters and global everyday life It is through listening to the foreign other to attend to their immediate experiences as well as exploring how meaning may be mediated and co-constructed by them in everyday life through organizational structures informal peer network traditional rituals or symbols that collaboration can be created and sustained

Revelation Stephen Trujillo, 2018-11-15 A revelation on

cosmogony quantum physics Hinduism Buddhism Tantra the Apocrypha Kabbalah the Western Mystery Tradition dreams within dreams and multiverses without end By the author of A Tale of the Grenada Raiders Metamorphosis and the forthcoming Tales of the Rangers www.magickingdomdispatch.com Magic Kingdom Dispatch Stephen Trujillo is a writer in Bangkok Wakan Tanka John Bennett, 2021-02-25 Where did we come from Why are we here Is there a god In our modern world many people yearn for answers to these most fundamental of life's questions having become disillusioned with trite explanations and troubled by narratives that deny their intuitive spirituality Beginning with some of our most ancient ancestors Wakan Tanka traces the evolution of humanity through the ages Citing paleontological and archaeological discoveries along with recent genetic evidence it recounts how mankind evolved from the earliest mammals into anatomically and behaviourally modern humans Wakan Tanka describes how human culture and spirituality evolved in concert with anatomy Showing how humankind has since very ancient times had an instinctual moral sense it discusses how our spirituality has given us an appreciation for both the aesthetic and divine aspects of life as reflected in our cultures and artistic endeavours By comparing philosophical and religious views of creation with modern scientific theory Wakan Tanka reaches the conclusion that rather than conflicting these views are remarkably similar and equally valid ways of describing the same reality Indeed our scientific knowledge and spiritual beliefs can be harmonized providing us with a deeper understanding of ourselves of creation and of life's purpose **The Perfect You** Dr. Caroline Leaf, 2017-07-04 There are a lot of personality and intelligence tests out there designed to label you and put you in a particular box But Dr Caroline Leaf says there's much more to you than a personality profile can capture In fact you cannot be categorized In this fascinating book she takes readers through seven steps to rediscover and unlock their unique design the brilliantly original way each person thinks feels relates and makes choices freeing them from comparison envy and jealousy which destroy brain tissue Readers learn to be aware of what's going on in their own minds and bodies to lean in to their own experience rather than trying to forcefully change it and to redefine what success means to them Released from the suffocating box of expectations they'll embrace their true identity and develop a clear sense of divine purpose in their lives Knowing and understanding our identity empowers our choices Unlocking one's you quotient is not optional it is essential **Edison vs. Tesla** Joel Martin, 2017-10-03 Thomas Edison closely following the alternative physics work of Albert Einstein and Max Planck convincing him that there was an entire reality unseen by the human eye This led to the last and least known of all Edison's inventions the spirit phone His former associate now bitter rival Nikola Tesla was also developing at the same time a similar mysterious device Edison vs Tesla examines their quest to talk to the dead It reveals Edison's little known near death experience formed his theory that animate life forms don't die but rather change the nature of their composition It is this foundational belief that drove him to proceed with the spirit phone Tesla monitored Edison's paranormal work with both men racing to create a device that picked up the frequencies of discarnate spirits what today is called EVP Electronic Voice

Phenomenon Both men were way ahead of their time delving into artificial intelligence and robotics Although mystery and lore surround the details of the last decade of Edison s life many skeptics have denied the existence of the mysterious spirit phone The authors have researched both Edison s and Tesla s journals as well as contemporary articles and interviews with the inventors to confirm that tests were actually done with this device They also have the full cooperation of the Charles Edison fund affording them access to rare photos and graphics to support their text Edison vs Tesla sheds light on this weird invention and demonstrates the rivalry that drove both men to new discoveries *The "Nonsense" Papers* James W. Astrada,2021-08-02 Over the past two years a pandemic has gripped the planet in fear with lockdowns restrictions and a transition into a unknown future with transhumanism at its helm While the flow of information has been heavily censored and controlled by a new fact checker system humanity seemingly is only getting one side of the story The SARS Cov2 has been manipulated by the mass media keeping people locked in their homes afraid to go out Controversial theories including this virus being imaginary and that the virus was engineered to control the world population are at the helm of the argument Part one of the third installment of the series questions the state of humanity s future and the fate of our very race with our environmental habits vaccines and their supposed purpose what it means to be human and our beliefs Has humanity reached its zenith With the 2030 agenda pushed by the United Nations and their praise for what some are calling the scamdemic plandemic as a means of starting over is humanity to begin what most are calling the Great Reset Is the next stage in our evolution dominated by RFID implanted chips vaccine passports with the promise of returning to a normal life and a biotechnology The horizon in humanity s future seems mysterious and hidden *The Shape of the Soul* Paul Marshall,2019-03-18 An essential read for any true seeker Eben Alexander MD Neurosurgeon author of Proof of Heaven and Living in a Mindful Universe When Paul Marshall began to pay attention to his dreams he could not have anticipated the transformative experience that would follow A tremendous expansion of consciousness exposed the insignificance of his everyday self but also revealed unsuspected depths of mind and hinted at a deeper self that holds the universe within In *The Shape of the Soul* Marshall now a mysticism scholar draws on personal experiences along with a wealth of religious philosophical and scientific ideas to explore this deeper self sometimes experienced in mystical and near death states as spherical in form Drawing inspiration from the philosophers Plotinus and Leibniz Marshall takes mind to be more fundamental than matter and views the basic units of nature as perceptual beings We ourselves are such beings striving for fulfilment in a long evolutionary journey of soul making Bringing together mysticism philosophy biology and even some physics *The Shape of the Soul* offers a deeply integrated vision of the self and the universe Addressing the mind body problem the origin of the world evolution reincarnation suffering and the nature of God Marshall delivers what will surely prove an intellectual classic **Sacred Soil** Robert Tindall, Frederique Apffel-Marglin, David Shearer,2017-07-18 A fascinating description of how utilizing the biochar embedded in terra preta the recently rediscovered sacred soil of the pre

Columbian peoples of the Amazon rainforest can cut our dependency on petrochemicals restore the health of our soils remove carbon from our overheating atmosphere and restore the planet to pre industrial levels of atmospheric carbon by 2050 The authors show that the rediscovery of terra preta is an opportunity to move beyond the West s tradition of plunder and genocide of the native civilizations of the Americas by offering an invitation to embrace the deeper mystery of the indigenous methods of inquiry and to participate in an animate cosmos that gave rise to such a powerful soil technology Sacred Soil in recognizing the need for biocultural regeneration takes a multi disciplinary approach to the phenomenon of biochar soils utilizing mythopoeic historical anthropological and scientific perspectives to embrace the deep past the vexed present and the prospectus for our future Coming at this crucial juncture in human history the potential resting in biochar is also an open doorway into the indigenous ways of knowing that enabled the pre Columbian Amazonian high civilizations to support a population of millions while leaving their lands more fertile than when they arose *Performing Time* Clemens Wöllner,Justin London,2023 *Performing Time* explores our experience of time in dance and music from the perspectives of both performers and audience and informed by the most recent research in dance science musicology neuroscience and psychology *How Consciousness Creates Reality* Claus Janew,2009-08-18 This is the abridged version of the book of the same title written out of the desire to examine the structure of our reality from a standpoint unbiased by established teachings be they academic scientific popular esoteric or religious in nature Claus Janew begins with seemingly simple interactions in our daily lives examines how they originate on a deeper level comes to understand the essentials of consciousness and finally recognizes that we create our reality in its entirety In the course of this quest the reader will uncover little heeded paths to accessing the subconscious other individuals and that which can be understood by the term God And the solution to the classical problem of free will constitutes the gist of the concepts thus revealed You do not need to bring previous philosophical knowledge to the reading of this text but simply an interest in fundamental interconnections a certain openness and the willingness to think along This is a treatise which explains the most fundamental results of the authors research and their respective central argument and which can serve as a stimulus for a more extensive examination of reality May it bring you thoughtful pleasure and subtle delight **The Hours of the Universe** Delio, Ilia ,2021-01-20 Drawing on work of Pierre Teilhard de Chardin and modern science author offers meditations pointing toward a new understanding of Christianity in terms of evolution [An Analysis of Sri Aurobindo's The Life Divine](#) Roy Posner,2018-01-06 Growth Online author and founder Roy Posner presents a chapter by chapter analysis of Sri Aurobindo s metaphysical treatise *The Life Divine* perhaps the most profound book ever written on the nature of spirit creation life evolution and human potential *The Brahman Equation: How the Search for a Final Theory in Physics is Leading Humanity Back to the Vedic Source of All Reality* ABHIJEET SARKAR,2025-09-05 *The Brahman Equation* How the Search for a Final Theory in Physics is Leading Humanity Back to the Vedic Source of All Reality By Abhijeet Sarkar CEO it is a key to a new paradigm It

is a bold elegant and deeply moving work that heals the centuries old schism between reason and reverence It offers a worldview that is both intellectually satisfying and spiritually liberating Are you ready to discover that the secret of the cosmos is also the secret of your own true Self The answer has been waiting for millennia It is written not just in the stars but in the equation that is you Scroll up and click Buy Now to know this book reveals how quantum physics and cosmology are converging with the Vedic concept of Brahman a singular conscious reality unveiling a universe that is both scientifically understandable and profoundly sacred **The Spiritual Journey of the Warrior** Brendan Michaels,2008
