**Historia general de las drogas I y II + Aprendiendo de las drogas** Antonio Escohotado, 2017-11-20 El ser requiere cosas del mundo pero no entra en relación con sus penurias sino a través del siervo que se ocupa de transformarlo antes El psiquismo humano depende de aportaciones externas pero no toca esas materias sino a través del cuerpo que las metaboliza previamente Con todo algunas moléculas no se transforman en nutrición y provocan de modo directo un tono anímico Desde ojos cartesianos son modalidades de cosa extensa que incumplen la regla e influyen sobre la cosa pensante A caballo entre lo material y lo inmaterial lo milagroso y lo prosaico por el juego de un mecanismo puramente químico ciertas sustancias permiten al hombre dar a las sensaciones ordinarias de la vida y a su manera de querer y pensar una forma desacostumbrada Aunque el efecto solo resulte parcial y pasajero engañoso aunque nada sea gratis la posibilidad de afectar el ánimo con un trozo de cosa tangible asegura ampliamente su propia perpetuación Para los seres humanos comer dormir moverse y hacer cosas semejantes resulta inesencial cuando no imposible en estados como el duelo por la pérdida de un ser querido el temor intenso la sensación de fracaso y hasta la simple curiosidad En ello se manifiesta la superioridad del espíritu sobre sus condiciones de existencia y en poder afectar los ánimos mismos reside lo esencial de algunos fármacos potenciando momentáneamente la serenidad la energía y la percepción permiten reducir del mismo modo la aflicción la apatía y la rutina psíquica Esto explica que desde el origen de los tiempos se hayan considerado un don divino de naturaleza fundamentalmente mágica
