Maatschappij-Belangen, 1907 **The Lion and the Gadfly** Paul van der Veur, 2021-12-28 This political biography reveals the turbulent life of Ernest François Eugène Douwes Dekker son of a Dutch father and a German Javanese mother born on Java in 1879 Vignettes flow in novel like fashion from the battle fields of South Africa and internment camp in Sri Lanka to a career in journalism in Java Radical thoughts then enter Douwes Dekker's mind such as demands for racial equality and national independence These made him write presciently that this road might take him to the executioner's hand or to the victory of revolution In exile from 1913 on his bravado allowed him to enter a doctoral program at the University of Zurich but also to entanglement with Indian revolutionaries operating from Berlin Returning to Java at the end of World War I he once again propagated the virtues of nationalism but soon was forced to relinquish his efforts and start a teaching career Even here constant surveillance and eventual internment in Surinam were his lot Within a decade the Republic of Indonesia had been proclaimed and Douwes Dekker emerged to acclaim as a close friend and political adviser to President Soekarno

Radical State Abigail R. Esman, 2010-05-20 This insightful on the ground narrative looks at how radical Islam is affecting our society and how our own response is endangering the very democratic values we have hoped to spread around the world and preserve at home In *Radical State How Jihad Is Winning Over Democracy in the West* author Abigail R Esman argues that in large measure it is actually jihad which has emerged victorious over democracy not only because of the actions of Muslim terrorists but because of our own response to extremist Islam in the West With the best of intentions Western European countries have permitted antidemocratic ultraconservative Islamic beliefs and traditions to flourish in their societies as they ve responded to the influx of Muslim immigrants to their shores largely as a result of the guest worker programs which began in the 1960s and 1970s across Europe But this multicultural approach has only backfired creating cultural wars in which even the most intolerant and undemocratic of belief systems and values have been permitted as governments have turned a blind eye to such atrocities as honor killings anti-Semitism the spread of literature extolling violence and calls for the destruction of the democratic state Esman focuses her narrative on the Netherlands oft regarded as the most free stable and tolerant nation in the West the paragon of democracy and tolerance Using Holland as an example she demonstrates the collapse of democratic values that has occurred in other Western countries including America as we struggle against radical Islam In doing so she shows how the Western response to the threat of radicalization has at times gone to dangerous extremes counterbalancing the multiculturalists indulgence of radical Islam with the creation of restrictive nearly totalitarian laws and measures that are as destructive and toxic to our future to free thought free speech and equal rights *Radical State* uniquely articulates the dissolution of democratic values that have resulted from the actions of both left and right wing approaches to the problem More importantly the book strives to resolve the critical question of what went wrong because to set things right again requires understanding how it all broke apart and we must set it right or jihad s victory over democracy will be complete and sooner than we may realize , *Current List of Medical Literature* ,1949 Includes section Recent book acquisitions varies Recent United States publications formerly published separately by the U S Army Medical Library

International Standardisation of Good Corporate Governance L. van den Berghe, 2012-12-06 In *International Standardisation of Good Corporate Governance Best Practices for the Board of Directors* the Academy of Directors AoD presents a multidisciplinary approach for the governance of a company The AoD also aims to use the interaction between the academic and the business world to change the environment in which companies work This task is realised in different ways by conducting applied scientific research creating a large pool of professional experience and networking within the AoD confronting these research results with the practical experience of the members publishing these results and organising training programmes The AoD therefore collaborates very closely with the academic world The Vlerick School of Management was the co founder of the AoD together with a great number of national and international business

partners The foundation of the AoD goes back to the initiative of its president Mr L H Verbeke Loeff Claey's Verbeke He was convinced that the increasing international interest in corporate governance would also affect Belgian companies but that there was a need for an indigenous coherent view of corporate governance Being at the cross roads of different cultures and languages and at the same time being a very open economy Belgium could not simply copy another country's code on good corporate governance Therefore the initiative was taken to set up a broad international overview of the best practices for the board of directors which is presented in this volume This analysis is not only oriented towards the famous codes but aims to highlight as well the practical applications and problems faced in implementing these suggestions Consequently special attention is given to the best practices for family businesses and medium sized companies **Nederlandsche**
