*China's Quest for Political Legitimacy* Baogang Guo, 2010-09-23 This book examines the new equity enhancing politics in China in the context of Chinese traditional cognitive patterns of political legitimacy and its implication for Chinese political development in the near future Based on an analysis of the new governing philosophy the generation of political elite and a new set of public policies the book reaffirms the emergence of a new Chinese polity that infuses one party rule with limited electoral and deliberative democracies Unlike many scholars who perceive the contemporary Chinese history as a constant search for democracy this book takes a very different approach It asserts that the enduring question in political development in China today is no different from what was sought after throughout Chinese history namely the constant search for political legitimacy Even though the quest for democracy is instrumental to that end it may not ultimately

lead to the embrace of a full fledged liberal democracy The new politics is not only a rationalization of the efficiency based development but also a major paradigm shift in China s developmental strategy      *The Political Economy of Russia* Neil Robinson,2012-07-13 This timely book explores Russia s political development since the collapse of the USSR and how inextricably it has been bound up with economic change Tracing the evolution of Russia s political economy leading scholars consider how it may continue to develop going forward They assess the historical legacies of the Soviet period showing how despite policies implemented after the USSR dissolved in 1991 there are ongoing bitter battles over property and state revenues over land and over welfare The book puts these domestic issues in international and comparative perspective by considering Russia s position in the global economy and its growing role as a major energy producer Focusing especially on the nature and future of Russian capitalism the contributors weigh the political problems that confront Russia in its ongoing struggle to modernize and develop its economy Contributions by Andrew Barnes Paul T Christensen Linda J Cook Gerald M Easter Neil Robinson Richard Sakwa and Stephen K Wegren
