**Trust, Tourism Development and Planning** Robin Nunkoo,Stephen L.J. Smith,2014-08-07 The dynamics of trust and distrust are central to understanding modern society social relations and development processes However numerous studies suggest that societal trust and citizen s trust in government and its institutions are on the decline challenging the legitimacy of government and leading to an undemocratic and unsustainable form of development Recognizing its importance the authors for the first time situate trust within the context of tourism development and planning This volume discusses trust in tourism from different yet intrinsically connected perspectives Chapters review how diminishing societal trust may have adversely affected tourism planning systems the role of trust in good tourism governance and sustainable tourism how trust can be used as a facilitator of participatory tourism planning political trust in tourism institutions power and how tourism development can be a basis for trust creation among society members by using social capital theory In addition a final section on Researching Trust in Tourism Development means that readers are not only provided a thorough theoretical framework

on trust and an understanding of its importance for sustainable tourism and good governance of the sector but also methodological aspects of research on trust in the context of tourism development and planning This significant volume is valuable reading for students academics and researchers interested in tourism development and planning The Decision to Trust Robert F. Hurley, 2011-10-25 A proven model to create high performing high trust organizations Globally there has been a decline in trust over the past few decades and only a third of Americans believe they can trust the government big business and large institutions In The Decision to Trust Robert Hurley explains how this new culture of cynicism and distrust creates many problems and why it is almost impossible to manage an organization well if its people do not trust one another High performing world class companies are almost always high trust environments Without this elusive important ingredient companies cannot attract or retain top talent In this book Hurley reveals a new model to measure and repair trust with colleagues managers and employees Outlines a proven Decision to Trust Model DTM of ten factors that establish whether or not one party will trust the other Filled with original examples from Daimler PriceWaterhouse Coopers Goldman Sachs Microsoft QuikTrip General Electric Procter and Gamble AzKoNobel Johnson and Johnson Whole Foods and Zappos Reveals how leaders in Asia Europe and North America have used the DTM to build high trust organizations Covering trust building in teams across functions within organizations and across national cultures The Decision to Trust shows how any organization can improve trust and the bottom line *The Moral Foundation of Economic Behavior* David C. Rose, 2011-11-25 It then identifies specific characteristics that moral beliefs must have for the people who possess them to be regarded as trustworthy **Trust, Control, and the Economics of Governance** Philipp Herold, 2019-06-05 In today's world we cooperate across legal and cultural systems in order to create value However this increases volatility uncertainty complexity and ambiguity as challenges for societies politics and business This has made governance a scarce resource It thus is inevitable that we understand the means of governance available to us and are able to economize on them Trends like the increasing role of product labels and a certification industry as well as political movements towards nationalism and conservatism may be seen as reaction to disappointments from excessive cooperation To avoid failures of cooperation governance is important control through e.g. contracts is limited and in governance economics trust is widely advertised without much guidance on its preconditions or limits This book draws on the rich insight from research on trust and control and accommodates the key results for governance considerations in an institutional economics framework It provides a view on the limits of cooperation from the required degree of governance which can be achieved through extrinsic motivation or building on intrinsic motivation Trust Control Economics thus inform a more realistic expectation about the net value added from cooperation by providing a balanced view including the cost of governance It then becomes clear how complex cooperation is about governance accretion where limited trustworthiness is substituted by control and these control instances need to be governed in turn Trust Control and the Economics of Governance is a highly necessary development of

institutional economics to reflect progress made in trust research and is a relevant addition for practitioners to better understand the role of trust in the governance of contemporary cooperation structures It will be of interest to researchers academics and students in the fields of economics and business management institutional economics and business ethics Note that this work is the first of its kind that explicitly reflects on the societal realities how these drive the assumption setting process and how these assumptions influence the theory outcome      *The Fear of Erring* Ingo Rohrer, 2024-10-29 The Fear of Erring a combination of thick ethnography and an ethnopoetic storyline illustrates how mistrust ignorance and imagination govern the everyday work of personnel in Argentina s criminal justice system The book shows that Argentina s justice system faces public suspicion and a tense atmosphere of competition and mutual mistrust among employees It provides evidence of widespread fear among legal professionals of being deceived and making erroneous decisions based on manipulated information Rational methods of generating knowledge often hit their limits confronting employees with impenetrable ignorance The detailed description of bureaucratic life demonstrates that legal professionals resort to imagination and speculation yielding insights into their moral positioning By focusing on these imaginaries the book reveals unnoticed routines and functions of the justice system that shape legal processes decision making and the institution s image The book s discussion on mistrust ignorance and imagination extends beyond Argentina addressing key questions about social cohesion knowledge bases and perspectives on the past and future in current social and global debates      *Measuring Electronic Word-of-Mouth Effectiveness* Wolfgang Weitzl, 2016-10-04 Wolfgang Weitzl introduces a novel perspective for measuring consumer trust in eWOM by applying a rigid scale development process In doing so the research aims to set new methodical standards for developing reliable valid and practicable research instruments Most importantly however the research offers valuable insights into the nature and role of consumer initiated vs marketer initiated online communication in an intercultural context by conducting a series of qualitative and quantitative surveys using samples from three countries

*Trustworthy Open Self-Organising Systems* Wolfgang Reif, Gerrit Anders, Hella Seebach, Jan-Philipp Steghöfer, Elisabeth André, Jörg Hähner, Christian Müller-Schloer, Theo Ungerer, 2016-06-20 This book treats the computational use of social concepts as the focal point for the realisation of a novel class of socio technical systems comprising smart grids public display environments and grid computing These systems are composed of technical and human constituents that interact with each other in an open environment Heterogeneity large scale and uncertainty in the behaviour of the constituents and the environment are the rule rather than the exception Ensuring the trustworthiness of such systems allows their technical constituents to interact with each other in a reliable secure and predictable way while their human users are able to understand and control them Trustworthy Open Self Organising Systems contains a wealth of knowledge from trustworthy self organisation mechanisms to trust models methods to measure a user s trust in a system a discussion of social concepts beyond trust and insights into the impact open self organising systems will have on society      *The Whistleblowing Guide*

Kate Kenny, Wim Vandekerckhove, Marianna Fotaki, 2019-04-25 Choose the best speak up arrangements for your organisation The last five years have seen dramatic and fundamental changes in whistleblower procedures for organisations Prompted by a spate of important public disclosures organizations are now mandated by law to implement effective arrangements enabling employees to speak up about perceived wrongdoing Currently few resources exist to help with this To help fill the gap The Whistleblowing Guide examines the opportunities and challenges associated with different types of whistleblowing and speak up arrangements making recommendations based on best practices you can trust Identifies the major organisational structural and cultural obstacles to speaking up through speak up arrangements Proposes effective whistleblowing and speak up arrangements Explains the specific policy and legislation requirements that can promote or impede the effective implementation of speak up arrangements and how these can be translated into commercial and public organizations across sectors and cultures Makes a clear distinction between internal and external reporting arrangements The Whistleblowing Guide offers conceptual clarification about these key issues including a focus on internal and external speak up procedures organisational response and communication impartiality and trust *Cultural Values, Institutions, and Trust* Seung Hyun Kim, Sangmook Kim, 2023-03-03 Using experimental surveys as a primary source Kim and Kim compare a wide range of developed countries to assess the determinants of generalized social trust With data from Belgium France Italy Japan Singapore South Korea the Netherlands and the United States Kim and Kim present a detailed picture of trust at the individual level across different ethnic groups and across different regions with economic and cultural distinctions They focus on a range of concepts including generalized trust and familism causal relationships among cultural values particularized trust and institutional trust at the individual level and relationships between culture wealth and governance at the macro level In doing so they consolidate substantial quantitative data with rigorous theoretical analysis and advance our understanding of social trust and prosociality in general A valuable resource for researchers and advanced students in political science sociology and social psychology around the world Trust and Market Institutions in Africa Kingsley Obi Omeihe, 2023-04-08 This book places special focus on the importance of trust building particularly in economies where formal legal arrangements are lacking Taking the case of Africa the author provides a framework of how indigenous institutions specify and define the rules thereby allowing entrepreneurship to thrive In particular the book delves into the distinct evidence of institutional rivalry within Africa where competing institutions co exist leading to the emergence of dominant hybrid institutional forms By placing enforcements at the heart of the issue the author makes a convincing case for trust in a range of indigenous institutional arrangements Based on an investigation of entrepreneurs operating across West Africa the book explores how indigenous arrangements are sufficient in enforcing credible commitments to agreements In the process the author argues that trust is essential in stimulating entrepreneurial incentives in Africa The book brings the real world situation of local actors in live situations that almost every African entrepreneur can identify with In a bold new step the book

attempts to show how African entrepreneurs have been able to respond to the specific socio economic challenges of their environment and raises questions about the role of alternative indigenous institutions For those interested in African studies the book s chapters and readings capture fresh insights and renewed enthusiasm for African entrepreneurship

**Trust, Organizations and Social Interaction** Søren Jagd, Lars Fuglsang, 2016-05-27 Trust Organizations and Social Interaction aims to promote new knowledge about trust in an organizational context The book provides case analysis of how trust is formed through processes of social interaction in which actors observe reflect upon and make sense of trust behaviour and its meaning in an organizational and social environment It greatly contributes to clarifying what a process view may mean in trust research and to the understanding how social interaction processes affect trust The contributing authors demonstrate how trust and distrust are produced and reproduced in a complex interplay with social processes and practices Instead of asking how trust may be measured or how trust is a resource for managers they explore how trust develops and how managers become intertwined with and caught up in trust processes This enlightening empirical analysis of trust and its relationship with organizational processes is a vital resource for students academics and scholars of organization management organizational behaviour and change HRM and learning Contributors include J Allwood N Berbyuk Lindström M Bosse M B Ellingsen B Espedal M Frederiksen L Fuglsang A H Gausdal K Grønhaug U K Hansen M Ikonen S Jagd S T Johansen I L Johansson K Malkamäki K Mogensen L Nislund M Neisig K A Perry M A Rasmussen T Savolainen M Selart A Sørard N Thygesen S Vallentin
