Beyond Constraint Shona N. Jackson,2024-10-11 In Beyond Constraint Shona N Jackson offers a new approach to labour and its analysis by demonstrating the fundamental relation between black and Indigenous People's sovereign free and coerced labour in the Americas Through the writings of Cedric Robinson Walter Rodney C L R James and Sylvia Wynter Jackson confronts the elision of Indigenous People's labour in the black radical tradition She argues that this elision is an effect of the structural relation of antiblackness to anti indigeneity through which native and black bodies are arranged on either side of a split between unproductive labour and productive work necessary for capital accumulation and for how we read capital in political

economic critique This division between labour and work forces the radical tradition to sustain the break between black and Indigenous peoples as part of its critical strategies of liberation To address this impasse Jackson reads the tradition against the grain for openings to indigeneity and a method for recovering lost labours *Flyboy 2* Greg Tate,2016-08-04 Since launching his career at the Village Voice in the early 1980s Greg Tate has been one of the premiere critical voices on contemporary Black music art literature film and politics *Flyboy 2* provides a panoramic view of the past thirty years of Tate s influential work Whether interviewing Miles Davis or Ice Cube reviewing an Azealia Banks mixtape or Suzan Lori Parks s *Topdog Underdog* discussing visual artist Kara Walker or writer Clarence Major or analyzing the ties between Afro futurism Black feminism and social movements Tate s resounding critical insights illustrate how race gender and class become manifest in American popular culture Above all Tate demonstrates through his signature mix of vernacular poetics and cultural theory and criticism why visionary Black artists intellectuals aesthetics philosophies and politics matter to twenty first century America *The Forge of Vision* David Morgan,2015-10-20 Religions teach their adherents how to see and feel at the same time so learning to see is not a disembodied process but one hammered out on the forge of human need social relations and material practice Therefore religions may be studied through the lens of salient visual themes This book tells a history of Catholic and Protestant Christianity since the sixteenth century by selecting visual themes that have shaped the development of the religion throughout the modern era Chapters examine a variety of visual practices including imagination envisioning nationhood the likeness of Jesus modern art as a spiritual quest the material life of words and the importance of images for education devotion worship and domestic life Provided by publisher **The Story Quilts of Yvonne Wells** Stacy I.
