Hawks Aloft The Story Of Hawk Mountain:

HAWKS ALOFT: THE STORY OF HAWK MOUNTAIN. Maurice Broun, 1950 *Hawks Aloft: the Story of Hawk Mountain* Maurice Broun, 1949 *Gatherings of Angels* Kenneth P. Able, 1999 The migration of birds has forever amazed and confounded onlookers How do birds find their way to their destinations How do they withstand the dangers and rigors of long distance flight The survival of migrant birds is increasingly threatened by environmental degradation and manmade hazards their protection is more critical than ever *Gatherings of Angels* offers first hand accounts by leading experts who convey the beauty and excitement of migration while communicating important messages about avian conservation The book features twenty four pages of stunning color photographs with additional black and white photographs throughout Two chapters of background information on migration precede chapters that focus on different species or groups of birds and the localities essential to their survival from the spring flights of songbirds across the Gulf of Mexico to the massing of sandhill cranes on the Platte River The authors discuss the timing of migrant travel the routes followed and the concentration of birds in stop over sites locations that must be preserved if they are to have secure resting spots with fresh water and ample food to fuel their journey **Rosalie Edge, Hawk of Mercy** Dyana Z. Furmanský, 2010 Rosalie Edge 1877 1962 was the first American woman to achieve national renown as a conservationist Dyana Z Furmanský draws on Edge s personal papers and on interviews with family members and associates to portray an implacable indomitable personality whose activism earned her the names Joan of Arc and hellcat A progressive New York socialite and veteran suffragist Edge did not join the conservation movement until her early fifties Nonetheless her legacy of achievements called widespread and monumental by the *New Yorker* forms a crucial link between the eras defined by John Muir and Rachel Carson An early voice against the indiscriminate use of toxins and pesticides Edge reported evidence about the dangers of DDT fourteen years before Carson s *Silent Spring* was published Today Edge is most widely remembered for establishing Hawk Mountain Sanctuary the world s first refuge for birds of prey Founded in 1934 and located in eastern Pennsylvania Hawk Mountain was cited in *Silent Spring* as an especially significant source of data In 1930 Edge formed the militant Emergency Conservation Committee which not only railed against the complacency of the Bureau of Biological Survey Audubon Society U S Forest Service and other stewardship organizations but also exposed the complicity of some in the squandering of our natural heritage Edge played key roles in the establishment of Olympic and Kings Canyon National Parks and the expansion of Yosemite and Sequoia National Parks Filled with new insights into a tumultuous period in American conservation this is the life story of an unforgettable individual whose work influenced the first generation of environmentalists including the founders of the Wilderness Society Nature Conservancy and Environmental Defense Fund **How to Spot Hawks and Eagles** Clay Sutton, Patricia Sutton, 1996 Hawk and eagle watching is an increasingly popular birding activity Special knowledge is required however and in this lavishly photographed full color book naturalists authors Clay and Patricia Sutton provide all

the information readers need to know no matter where they live in the United States and Canada Full color photos throughout

Nature's Ghosts Mark V. Barrow, 2024-05-31 The rapid growth of the American environmental movement in recent decades obscures the fact that long before the first Earth Day and the passage of the Endangered Species Act naturalists and concerned citizens recognized and worried about the problem of human caused extinction As Mark V Barrow reveals in *Nature's Ghosts* the threat of species loss has haunted Americans since the early days of the republic From Thomas Jefferson's day when the fossil remains of such fantastic lost animals as the mastodon and the woolly mammoth were first reconstructed through the pioneering conservation efforts of early naturalists like John James Audubon and John Muir Barrow shows how Americans came to understand that it was not only possible for entire species to die out but that humans themselves could be responsible for their extinction With the destruction of the passenger pigeon and the precipitous decline of the bison professional scientists and wildlife enthusiasts alike began to understand that even very common species were not safe from the juggernaut of modern industrial society That realization spawned public education and legislative campaigns that laid the foundation for the modern environmental movement and the preservation of such iconic creatures as the bald eagle the California condor and the whooping crane A sweeping beautifully illustrated historical narrative that unites the fascinating stories of endangered animals and the dedicated individuals who have studied and struggled to protect them *Nature's Ghosts* offers an unprecedented view of what we've lost and a stark reminder of the hard work of preservation still ahead

Birds of the Mid-Atlantic Region and where to Find Them John H. Rappole, 2002 A noted ornithologist with Smithsonian makes bird identification easy in the Mid Atlantic Region with extensive information about every species and a full color photo of each 387 color photos 346 maps

Special Bibliography Series, 1957 **Special Bibliography Series**

United States Air Force Academy. Library, 1976 **Biographical Dictionary of American and Canadian Naturalists and Environmentalists** George A. Cevalasco, Lorne Hammond, Richard Harmond, Keir B. Sterling, 1997-12-09 Casting a wide net this volume provides personal and professional information on some 445 American and Canadian naturalists and environmentalists who lived from the late 15th century to the late 20th century It includes explorers who published works on the natural history of North America conservationists ecologists environmentalists wildlife management specialists park planners national park administrators zoologists botanists natural historians geographers geologists academics museum scientists and administrators military personnel travellers government officials political figures and writers and artists concerned with the environment Some of the subjects are well known The accomplishments of others are little known Each entry contains a succinct but careful evaluation of the subject's career and contributions Entries also include up to date bibliographies and information concerning manuscript sources

The Lehigh Valley: A Natural and Environmental History, Comprising approximately 730 square miles and over half a million residents the Lehigh Valley is the third largest metropolitan area in Pennsylvania encompassing the cities of Allentown Bethlehem and Easton Much is known about the

industrial history of the valley home to Bethlehem Steel Mack Trucks and Crayola crayons But few have discovered the valley's natural history the endless Blue Mountain the spectacular raptor migrations the wetlands and watercourses The Lehigh Valley explores the land and the natural forces and human history that have altered it From boulder fields to water gaps from sinkholes to limestone caves the valley has long had a powerful influence on the lives of its residents and the people have had a similarly powerful effect on the valley the text features brief profiles of some of the people who have shaped the environmental history of the area The authors also include directions to historical and natural sites and the book's illustrations aid visitors and naturalists in identifying the region's abundance of flora and fauna The Lehigh Valley is a unique combination of narrative natural history identification handbook and travel and hiking guide Mountain laurel red tailed hawks dusky salamanders The Lehigh Valley not only shows us what resides in this beautiful and bountiful valley but also explains why This illustrated guide surveys the valley's ecology geology history and agriculture and is complemented by maps and drawings of the area's plant and animal life The Lehigh Valley will appeal to area residents amateur naturalists and Pennsylvania visitors with an interest in natural history Falconry, 1967 **Wildlife Abstracts** U.S. Fish and Wildlife Service, 1954 Falconry, Emma Ford, 1998 *Wildlife Research and Management Leaflet*, 1960 *Wildlife Leaflet*, 1948

In Hovering Flight Joyce Hinnefeld, 2009-09-01 At 34 Scarlet Kavanagh has the kind of homecoming no child wishes a visit back to family and dear friends for the gentle passing of her mother Addie a famous bird artist and an even more infamous environmental activist Though Addie and her husband ornithologist Tom Kavanagh have made their life in southeastern Pennsylvania Addie has chosen to die at the New Jersey home of her dearest friend Cora This is because the Kavanagh's ramshackle cottage is filled with too much history and because in the last ten years or so and for reasons that are not entirely clear even bird song has seemed to make Addie angry or sad or both Now in their final moments together Scarlet hopes to put to rest the last tensions that have marked their relationship Through tender conversations with Cora and Lou another of Addie's dear friends Scarlet slowly comes to peace with her mother's complicated life But can she do the same with her own Scarlet has carried a secret into these foggy days a secret for Addie one that involves Cora too In its structure and style this novel follows in the tradition of writers like Virginia Woolf Harriet Doerr and Carol Shields musical and dramatic with myriad stories and voices But the evocative language of this soaring novel is Hinnefeld's own The Birds of Pennsylvania Gerald M. McWilliams, Daniel W. Brauning, 2018-09-05 From Eared Grebes Tundra Swans and Peregrine Falcons to Lesser Yellowlegs and Snowy Owls Pennsylvania is home to a magnificent array of birds In the first comprehensive summary and analysis in over a century of the birds of that state Gerald M McWilliams and Daniel W Brauning provide a wealth of information for both the professional ornithologist and the amateur birder This book treats all 428 species seen in the state including breeding and wintering birds migrants and vagrants Each entry provides the general status of a species the locations where it is most commonly found its natural habitat migratory patterns breeding habits and seasonal status and

distribution and a summary of the bird s history in Pennsylvania With clear descriptions of physiographic regions as well as 44 breeding distribution maps for the most commonly seen birds and 67 photographs of many rare and hard to find species this volume is an indispensable resource about Pennsylvania s bird life Birds of Prey José Hernán Sarasola, Juan Manuel Grande, Juan José Negro, 2018-06-30 This book will provide the state of the art on most of the topics involved in the ecology and conservation of birds of prey With chapters authored by the most recognized and prestigious researchers on each of the fields this book will become an authorized reference volume for raptor biologists and researchers around the world

Marsh Meadow Mountain John Harding, Carol Decker, 2011 A combination tour guide and ecological primer of the Delaware Valley
