Class Acts Mary Rizzo, 2015-08-01 *Class Acts* explores the development of lifestyle marketing from the 1960s to the 1990s. During this time young men began manipulating their identities by taking on the mannerisms, culture, and fashion of the working class and poor. These style choices had contradictory meanings. At once they were acts of rebellion by middleclass young men against their social stratum and its rules of masculinity and also examples of the privilege that allowed them to try on different identities for amusement or as a rite of passage. Starting in the 1960s, advertisers and marketers looking for new ways to appeal to young people seized on the idea of identity as a choice, creating the field of lifestyle marketing. Mary Rizzo traces the development of the concept of lifestyle marketing, showing how marketers disconnected class identity from material reality, focusing instead on a person's attitudes, opinions, and behaviors. The book includes discussions of the rebel of the 1950s, the hippie of the 1960s, the white suburban hip hop fan of the 1980s, and the poverty chic of the 1990s. *Class Acts* illuminates how the concept of lifestyle, particularly as expressed through fashion, has disconnected social class from its material reality and diffused social critique into the opportunity to simply buy another identity. The book will appeal to scholars and other readers who are interested in American cultural history, youth culture, fashion, and style.

Staging Rebellion in the Musical, Hair Sarah Elisabeth Browne, 2022-08-05 This volume provides a comprehensive survey of the musical *Hair* and will offer critical analysis which focuses on giving voice to those who are historically considered to be on the margins of musical theatre history. Sarah Browne interrogates key scenes from the musical which will seek to identify the relationship between performance and the cultural moment. Whilst it is widely acknowledged that *Hair* is a product of the sixties counter culture, this study will place the analysis in its socio-historical context to specifically reveal American values towards race, gender, and adolescence. In arguing that *Hair* is a rebellion against the established normative values of both American society and the art form of the musical itself, this book will suggest ways in which *Hair* can be considered utopian, not only as a utopian text but in the practices and values it embodies and the emotions it generates in its audiences. This book will be of great interest to scholars and students of music, musical theatre, popular music, American studies, film studies, gender studies, or African American studies.
