Roberts,2002-03-28 The Handbook of Domestic Violence Intervention Strategies will help professionals swiftly and compassionately meet the multiple needs of domestic violence clients Based on the successful Helping Battered Women OUP 1996 this completely revised and expanded volume includes 25 chapters written by experts in the field covering the latest research policies and treatment models The Handbook also addresses important policy reforms risk assessment protocols and program developments Its five sections include Public Policy Research and Social Action Criminal Justice and Legal System Responses Health Care Addictions and Mental Health Treatment Crisis Intervention Advocacy and Specialized Programs and Vulnerable At risk Groups and Multi Cultural Issues **Intimate Partner and Family Abuse** John Hamel, LCSW,2008-06-16 The collected case examples are noteworthy in their diversity of presenting issue treatment format and outcome As a whole they underline our continued need to conduct assessments with clients prior to initiating treatment to direct treatment toward identified client related problems in essence meeting clients where they are and to collect data that speaks to the effectiveness of our interventions in many settings and with many types of clients Jennifer Langhinrichsen Rohling PhD Professor of Psychology University of South Alabama Shows how to successfully conduct family interventions using case studies Includes male perpetrated female perpetrated and mutual violence scenarios Presents a variety of theoretical orientations Includes discussion questions after each case study This casebook showcases a wide variety of

couples and families whose domestic violence cases vary in their composition ethnic and socioeconomic status and mental health issues The case authors outline different therapeutic approaches for each case including cognitive behavioral family systems feminist problem solving and many others Each account includes a thorough description of the assessment procedure treatment goals and reasons for selecting a particular approach and an account of the course of treatment The book is primarily intended for mental health professionals and graduate students in the fields of family therapy counseling and family violence but will also be of value to anyone in the field of family violence and those concerned with domestic violence public policy prevention and intervention Translating Psychological Research Into Practice Lisa R.

Grossman, Steven Walfish, PhD, 2013-11-15 It is refreshing to see both a researcher's and a clinician's viewpoint The case examples in the clinician sections are great learning tools This is a wonderful reference for both new therapists and seasoned veterans Researchers also will learn how clinicians use theories in the real world Score 92 4 Stars Doody's Medical Reviews The format whereby the evidence for efficacy of psychological interventions for the problem in question is reviewed by an expert followed by a clinician presenting a case where these treatments were actually utilized and the real life problems one runs up against in the course of treatment is innovative enough But then to repeat this for 65 different problems in a manageable and succinct format represents a true integration of science and practice in a way that will move us forward David H Barlow PhD ABPP Center for Anxiety and Related Disorders Boston University It is only through the development of true partnerships between researchers and clinicians that mental health treatment can achieve an optimal level of success This highly accessible desk reference will assist clinicians in easily incorporating findings from current evidence based research into their day to day practice It bridges the gap between empirical research and the needs of practicing clinicians and clinicians in training The guide brings together respected researchers and clinicians to discuss approaches to treating over 60 problem areas for adults adolescents and children It provides concise easily digestible summaries of the most current evidence based research regarding interventions for many of the most common clinical disorders and mental health issues encountered in everyday clinical practice These summaries present research that has been translated by experienced clinicians into practical applications that can be easily incorporated in therapeutic practice Research coverage of each problem area includes Brief description Incidence prevalence data Summary findings of best practices for treatment Suggestions for research directions Key references for further consultation The corresponding clinical application includes Response to the research summary Case example that applies the evidence based research to clinical practice Identification of challenges and cultural considerations in applying these interventions Suggestions for future research Key references By presenting the perspectives of the mental health researcher and clinician side by side this reference facilitates an important dialogue that narrows the gap between research and practice and ultimately fosters better mental health outcomes for clients Key Features Covers over 60 of the most frequently encountered disorders and issues for both adult and pediatric

clients that mental health clinicians face today Brings together leading researchers and clinicians to discuss their approaches to treating a clinical problem area Summarizes the current research on treatments in each problem area Interprets research for clinicians offering practice wisdom that helps them become more effective evidence based practitioners
