*Municipal Fiscal Stress, Bankruptcies, and Other Financial Emergencies* Tatyana Guzman, Natalia Ermasova, 2022-11-30. It is difficult to find someone who has not heard about the Puerto Rico Detroit Michigan or Orange County California bankruptcies. While guides for responsibly managing government finances exist, problems often originate not because of poor financial reporting or financial deficiencies but because issues external to financial wellbeing arise such as economic demographic political legal or even environmental factors. Exacerbating the problem, there is not much advice in the existing literature on how to act when municipalities face financial struggles. Filling this important gap, this book explores fiscal health and fiscal hardships, municipal defaults and bankruptcies and many other aspects to help guide local governments during fiscal distress. Fiscal hardships negatively affect the quality and availability of public goods and services and consequently the wellbeing of residents and businesses living and working in distressed municipalities. Turned off streetlights, unmaintained public parks, potholes, inconsistent garbage pickup, longer response time from emergency services and multiple other issues that residents of the struggling municipalities deal with lead to higher crime rates, lower quality of K-12 education, dangerous road conditions, lower housing values, outmigration of wealthier population and numerous other problems. The COVID-19 pandemic put additional unprecedented pressure on municipal finances nationwide. In this book, authors Tatyana Guzman and Natalia Ermasova evaluate distressed cities and municipalities and provide practical recommendations on improving their financial conditions. What are conditions and signs to look for to not find yourself in similar situations? What can be done if your municipality is already experiencing fiscal hardships? What are the consequences of fiscal misfortunes? How does one exit a fiscal emergency? This book answers these and other questions and serves as a guide to fiscal health and prosperity for U.S. municipal governments, students and researchers in public finance and general public management fields.

**Vulnerable Communities** James J. Connolly, Dagny G. Faulk, Emily J. Wornell, 2022-02-15. *Vulnerable Communities* examines the struggles of smaller cities in the United States, those with populations between 20,000 and 200,000. Like many larger metropolitan centers, these places are confronting change within a globalized economic and cultural order. Many of them have lost their identities as industrial or commercial centers and face a complex and distinctive mix of economic, social and civic challenges. Small cities have not only fewer resources but different strengths and weaknesses, all of which differentiate their experiences from those of larger communities. *Vulnerable Communities* draws

together scholars from a broad range of disciplines to consider the present condition and future prospects of smaller American cities Contributors offer a mix of ground level analyses and examinations of broader developments that have impacted economically weakened communities and provide concrete ideas for local leaders engaged in redevelopment work The essays remind policy makers and academics alike that it is necessary to consider cultural tensions and place specific conflicts that can derail even the most well crafted redevelopment strategies prescribed for these communities
