Handbook of Transformative Cooperation Sandy Kristin Piderit, 2007 Transformative Cooperation TC presents new ways for individuals and organizations to partner to create a more sustainable future and take people to a higher stage of moral development This handbook invites readers to consider how businesses can partner with organizations in other sectors of society including governments and nonprofits to address global concerns and improve the lives of all It documents the need for and early examples of cooperative efforts that have transformed the relationships between corporations and the communities in which their employees live and work The editors begin by issuing a call for TC explaining the economic and social reasons for working across traditional organization national and international boundaries The book then goes on to explain the dynamics of transformative cooperation exploring the leadership characteristics that facilitate the transformation and its social benefits Throughout this handbook the editors present some of the best designs in transformative cooperation and conclude by explaining transformative cooperation as a generative possibility Overall the editors and contributors argue that TC is about the search for the best in people their organizations and the world around them The Mind of the Leader Rasmus Hougaard, Jacqueline Carter, 2018-03-13 Join the global movement that s making corporations more people centric to achieve great results The world is facing a global leadership crisis Seventy seven percent of leaders think they do a good job of engaging their people yet 88 percent of employees say their leaders don t engage enough There is also a high level of suffering in the workplace 35 percent of employees would forgo a pay raise to see their leaders fired This is an enormous waste of human talent despite the fact that 46 billion is spent each year on leadership development Based on extensive research including assessments of more than 35 000 leaders and interviews with 250 C level executives The Mind of the Leader concludes that organizations and leaders aren t meeting employees basic human needs of finding meaning purpose connection and genuine happiness in their work But more than a description of the problem The Mind of the Leader offers a radical yet practical solution To solve the leadership crisis organizations need to put people at the center of their strategy They need to develop managers and executives who lead with three core mental qualities mindfulness selflessness and compassion Using real world inspirational examples from Marriott Accenture McKinsey Company LinkedIn and many more The Mind of the Leader shows how this new kind of leadership turns conventional leadership thinking upside down It represents a radical redefinition of what it takes to be an effective leader and a practical hard nosed solution to every organization s engagement and execution problems **Technology, Society and Sustainability** Lech W. **Learn to lead yourself, your people and your organization for great results** ,2023-12-20 Putting people first has always been the basis of our success We believe that if we take care of our employees they will take care of our customers and the business will take care of itself Even after the 9 11 terrorist attacks in New York where we went from an occupancy rate of 75 to 5% overnight where our hotels were empty of guests but full of staff putting people first was the our priority Instead of suffering massive layoffs we implemented education programs maintained health benefits and did everything we could to get through the crisis with minimal negative impact on our people In a business like ours and I believe in any other sector we simply cannot be successful unless people are truly committed and happy in their work It is our commitment to create an environment where the unique contributions of our people are valued I believe the fact that Marriott is consistently considered an employer of choice is the result of these efforts Promoting a people first culture starts with leadership Leaders must model the way They must act interact and engage with the people they lead in a way that makes people feel seen heard and valued In The Mind of the Leader Rasmus Hougaard and Jacqueline Carter provide a clear path to creating people first organizations It requires leaders to be human first to be mindful selfless and compassionate and in doing so develop the qualities that enable engagement fulfillment and meaning which leads to greater business success If we as leaders are attentive we will know better what really matters to our people We are more present attentive and curious It s not always easy but I know the difference between being present with my people and when I m not I only have an impact when I am If we as leaders are selfless taking into account the bigger picture rather than our own selfish needs we will model cultures of growth and learning Bill Marriott our executive chairman even now in his eighties always has his ear open He is always seeking the perspective of others rather than blindly following his own beliefs and ideas If we as leaders are compassionate our people will know we are protected As this book clearly describes compassion is not soft and sentimental It is concrete and practical It s about doing the right thing like putting a doctor on staff during the Depression Again if we truly care about our employees they will truly care for our customers and the business will truly care for itself In many ways the principles in this book run counter to the number of businesses run It inspires me and provides insights to further evolve our

culture and put people first And I believe that all leaders and other organizations will benefit greatly from its messages

**L'Esprit du leader** Jacqueline Carter, Rasmus Hougard, Élodie Hunault, Martial Vidaud, Dominique Steiler, 2019-04-24. La plupart des dirigeants pensent qu'ils motivent efficacement leurs employés. Mais les études prouvent que les employés sont plus désengagés et moins inspirés que jamais. La solution ne réside pas dans une formation accrue au management ni dans des activités ludiques hors les murs, mais plutôt dans l'esprit même du leader. Rasmus Hougard et Jacqueline Carter ont mis en évidence trois qualités fondamentales pour les leaders d'aujourd'hui: la pleine conscience, l'altruisme et la compassion. En répondant d'abord ses propres besoins, puis ceux de ses employés, et enfin la culture de son organisation, chaque leader peut apprendre incarner ce qui fait un grand leadership dans l'environnement organisationnel.
