**Handbook of Process Theology** Donna Bowman, Jay McDaniel, 2006-01-01 Handbook of Process Theology addresses both the depth and scope of process theological thought. It brings together distinguished contributors from several generations of process theological history to reflect on a multitude of outlooks and concerns all grounded in the foundational emphases of the process approach: the discernment of an immanent and active divine presence in the evolution of the world and its inhabitants and the call to creative engagement with the possibilities for progress and beauty where we now live. The essays cover important topics in Christian theology and philosophy of religion as well as interreligious dialogue, pastoral care, spirituality, the diversity of human experience and cultural forms such as economics, politics and the arts. Through the Handbook of Process Theology, readers will gain an appreciation of the richness and scope of the process approach to spiritual living. Contributors include Ronald J. Allen, Donna Bowman, Kathlyn A. Breazeale, Paul Custodio, Bube John B. Cobb Jr., Monica A. Coleman, John Culp, Bruce G. Epperly, David Ray Griffin, Lucinda A. Huffaker, Carol Johnston, Jeffrey D. Long, Sandra B. Lubarsky, Jay McDaniel, Mary Elizabeth Mullino, Moore Leslie A. Muray, Thomas Jay Oord, Russell Pregeant, David E. Roy, and Clark Williamson.

**Process Theology: A Guide for the Perplexed** Bruce G. Epperly, 2011-03-24 This is an introductory guide to Process Theology for undergraduates. As part of Continuum's Guide for the Perplexed series, this text provides an accessible introduction to process theology aimed at nurturing the theological imagination of undergraduates, pastors, and interested laypersons. It describes the major themes of process theology and relates them to the everyday lives and spiritual commitments of people today. In addition to addressing traditional theological issues, Epperly addresses cutting edge issues in theology and ethics such as pluralism and postmodernism, matters of life and death, science, technology, and genetics, and emerging forms of Christianity. This text is designed for seminary and university classes as well as congregational study. It will help readers to overcome the obstacles created by the technical language often employed by process theologians. Continuum's Guides for the Perplexed are clear, concise, and accessible introductions to thinkers, writers, and subjects that students and readers can find especially challenging or indeed downright bewildering. Concentrating specifically on what it is that makes the subject difficult to grasp, these books explain and explore key themes and ideas, guiding the reader towards a thorough understanding of demanding material.

**Process Theology** John B. Cobb, David Ray Griffin, 1976-01-01 This book offers an interpretation of the basic concepts of process philosophy and outlines a process theology based on it that will be especially useful for students of theology, teachers, ministers, and those interested in theological trends.

**You Never Step into the Same Pulpit Twice** Ronald J. Allen, 2022-06-23 This volume develops an approach to preaching that brings together two important forces One is process theology and the other is a homiletic of conversation based on mutual critical correlation In this approach the preacher does not unilaterally announce the Word of God but is the leader of an exciting conversation involving the biblical text process theology the congregation and voices from the larger world The preacher seeks to help the congregation identify God's invitations towards inclusive well being and to imagine how to respond in ways that are consistent with those invitations that promote inclusive well being The book begins with a crisp and clear summary of the worldview of process theology highlighting its distinctive views on how God operates in the world through invitation and on the interrelationship of all things The work then outlines an approach to biblical exegesis informed by process perspectives and sketches a method for bringing the biblical voice into dialogue with voices from tradition contemporary theology and the congregation and preacher The volume suggests shaping the sermon to honor process theology and conversation The volume concludes by noticing how perspectives from process and conversation help the preacher embody the sermon in engaging ways

Dangerous Edges of Graham Greene Dermot Gilvary, Darren J. N. Middleton, 2011-09-15 Postmodern Fiction and the Break-Up of Britain Hywel Dix, 2011-11-03. This study explores how British identity has been explored and renegotiated by contemporary writers. It starts by examining the new emphasis on space and place that has emerged in recent cultural analysis and shows how this spatial emphasis informs different literary texts. Having first analysed a series of novels that draw an implicit parallel between the end of the British Empire and the break up of the unitary British state, the study explores how contemporary writing in Northern Ireland, Scotland, and Wales contributes to a sense of nationhood in those places and so contributes to the break up of Britain symbolically. Dix argues that the break up of Britain is not limited to political devolution in Northern Ireland, Scotland, and Wales. It is also an imaginary process that can be found occurring on a number of other conceptual coordinates. Feminism, class, regional identities, and ethnic communities are all terrains on which different writers carry out a fictional questioning of received notions of Britishness and so contribute in different ways to the break up of Britain. *Religions in the Making* John B. Cobb Jr., 2012-11-06. Whitehead had a place for God in his comprehensive cosmological vision and his theism has long attracted interest from some Christian theologians. But Whitehead's ideas have much wider use. Some Buddhists have found help in articulating their nontheistic vision and relating it to the current world of thought and action. In this book, religious writers in seven different traditions articulate how they can benefit from Whitehead's work. So this volume demonstrates that various features of his thought can contribute to many communities. According to his followers, Whitehead shows that the deepest convictions and commitments of the major religious communities can be complementary rather than in conflict. Readers of this book will see how that plays out in some detail. A Whiteheadian Hindu can recognize the truth in a Whiteheadian Judaism and both can appreciate the insights of Chinese Whiteheadians committed to their classical thinking. Perhaps a new day in interreligious understanding has come.

**Creating Women's Theology** Monica A. Coleman, Nancy R. Howell, Helene Tallon Russell, 2011-09-22. *Creating Women's Theology* engages women's questions. Can women from different religious traditions engage one theological approach? Can one philosophical approach support feminist religious thought? What kind of belief follows women's criticism of traditional Christianity? *Creating Women's Theology* offers a portrait of how some women have found room for faith and feminism. For

the last twenty five years women religion scholars have synthesized process philosophy with their feminist sensibilities and faith commitments to highlight the value of experience the importance of freedom and the interdependence of humanity God and all creation Cutting across cultural and religious traditions process relational feminist thought represents a theology that women have created This volume offers an introduction to process and feminist theologies before presenting selections from canonical works in the field with study questions This volume includes voices from Christianity Judaism goddess religion the Black church and indigenous religions Creating Women s Theology invites new generations of undergraduate seminary and university graduate students to the methods and insights of process relational feminist theology The God Biographers Larry Witham,2010-07-01 The God Biographers presents a sweeping narrative of the Western image of God since antiquity following the theme of how the old biography of God has been challenged by a new biography in the twenty first century The new biography has made its case in free will theism process thought evolutionary doctrines relational theology and open theism a story of people ideas and events that is brought up to the present in this engaging narrative Readers will meet the God biographers in the old and new camps On the one side are Job Augustine Boethius Anselm Aquinas and Calvin On the other side is a group that includes the early Unitarian and Wesleyan thinkers the process thinkers Alfred North Whitehead Pierre Teilhard de Chardin and Charles Hartshorne and finally a new breed of evangelical philosophers This story looks closely at the cultural and scientific context of each age and how these shaped the images of God In the twenty first century that image is being shaped by new human experiences and the findings of science Today the debate between the old biographers and the new is playing out in the forums of modern theology courtrooms and social movements Larry Witham tells that panoramic story in an engaging narrative for specialists and general readers alike *Global Dictionary of Theology* William A. Dyrness,Veli-Matti Kärkkäinen,2009-10-25 Theological dictionaries are foundational to any theological library But until now there has been no Global Dictionary of Theology a theological dictionary that presumes the contribution of the Western tradition but moves beyond it to embrace and explore a full range of global expressions of theology The Global Dictionary of Theology is inspired by the shift of the center of Christianity from the West to the Global South But it also reflects the increase in two way traffic between these two sectors as well as the global awareness that has permeated popular culture to an unprecedented degree The editorial perspective of the Global Dictionary of Theology is an ecumenical evangelicalism that is receptive to discovering new facets of truth through listening and conversation on a global scale Thus a distinctive feature of the Global Dictionary of Theology is its conversational approach Contributors have been called on to write in the spirit of engaging in a larger theological conversation in which alternative views are expected and invited William A Dyrness Veli Matti Kärkkäinen Juan F Martinez and Simon Chan edit approximately 250 articles written by over 100 contributors representing the global spectrum of theological perspectives Pastors theological teachers theological students and lay Christian leaders will all find the Global Dictionary of Theology to be a resource that unfolds new dimensions and

reveals new panoramas of theological perspective and inquiry Here is a new launching point for doing theology in today s global context
