**Handbook of Response to Intervention and Multi-Tiered Systems of Support** Paige C. Pullen, Michael J. Kennedy, 2018-10-04 Of the many issues facing special education and general education today it is difficult to imagine one more important or timely than response to intervention RTI Almost overnight RTI has become standard practice across the nation Unfortunately RTI remains ill defined falls far short of its evidence based practice goal is almost invariably misused and often results in more harm than good Nevertheless as a conceptual framework RTI has great potential for ensuring that students with disabilities receive appropriate evidence based instruction The mission of this handbook is to present a comprehensive and integrated discussion of response to intervention RTI and its relation to multi tiered systems of support MTSS in both special education and general education Although the two terms are currently used interchangeably distinct differences exist between them Therefore chapters are dedicated to distinguishing the two concepts

RTI and MTSS and describing each one's unique role in both general and special education. In addition, the authors recommend a third term, Multi-Tiered Instruction, to differentiate the practices related to the purpose of the specific intervention.

Part II is a collection of detailed portraits of 14 countries, regions, or language communities and focuses on early literacy provision, practice, and policy from across the world. Part III outlines key interventions and research-endorsed practices designed to support home-school connections and children's reading and writing skills, as well as vocabulary, phonological awareness, and narrative abilities, with examples drawn from various home, school, and community environments.
