Routledge International Handbook of Masculinity Studies Lucas Gottzén, Ulf Mellström, Tamara Shefer, 2019-11-20 The Routledge International Handbook of Masculinity Studies provides a contemporary critical and scholarly overview of theorizing and research on masculinities as well as emerging ideas and areas of study that are likely to shape research and understanding of gender and men in the future The forty eight chapters of the handbook take an interdisciplinary approach to a range of topics on men and masculinities related to identity sex sexuality culture aesthetics technology and pressing social issues The handbook s transnational lens acknowledges both the localities and global character of masculinity A clear message in the book is the need for intersectional theorizing in dialogue with feminist queer and sexuality studies in making sense of men and masculinities Written in a clear and direct style the handbook will appeal to students teachers and researchers in the social sciences and humanities as well as professionals practitioners and activists From Boys to Men Tamara Shefer, 2007 The current emphasis in research and education on women and girls is fraught with problems It has

raised a concern that boys and men should be included in research and intervention work on gender equality and transformation. As a result, academics with a background of many years of work in women's and gender studies undertook a research project focusing on the construction of masculinities among young men. *From Boys to Men* was born out of this project. This highly original work arises from the conference *From Boys to Men* held in January 2005. It represents the work of some of the best known theorists and researchers in masculinities and feminism in South Africa on the continent and internationally. The subjects covered are based on rich ethnographic studies mostly in South Africa but also elsewhere in Africa. Acknowledging that there are multiple versions of masculinity and that some are more valued than others, this book is concerned with documenting both hegemonic discourses on masculinity as well as resistances and challenges to dominant forms of being a boy or man in different contexts of space and time. *From Boys to Men* provides valuable material for those working with issues of gender identity and power and will sharpen understanding of males, inform community-based interventions and facilitate theory building. This impressive collection of research on men, boys and masculinities would have been impossible just a generation ago. It took the worldwide impact of the women's liberation movement and the many feminisms that have since developed to bring gender into focus and to bring men into focus as participants in a gender system. Raewyn Connell, Professor at the University of Sydney, author of *Masculinities* 1995. Given the extant paucity of research and literature on masculinities, this book will undoubtedly prove to be an invaluable resource for scholars in the field of gender studies. The editors of the volume should be commended for this timely, well-constructed and significant contribution to the literature on masculinities studies both in South Africa and internationally. Norman Duncan, Chair of Psychology, University of the Witwatersrand. Setting this collection apart from existing scholarship on masculinities in South Africa is its interrogation of the gendered rhetoric of boyhood and manhood in the context of HIV/AIDS. This is a multilayered and rich collection that suggests masculinities have the potential to be unmade and remade. The volume usefully opens up new avenues of analysis, telling us that masculinities are always in process, under negotiation, contradictory, for ever in crisis. Vasu Reddy, Gender and Development Unit, Human Sciences Research Council. *Handbook of Workplace Diversity* Alison M. Konrad, Pushkala Prasad (ed.), Judith Pringle, 2006-01-10. Showcases the scope of international perspectives that exist on workplace diversity and defines this field. This book is a useful resource for students and academics of human resource management, organisational behaviour, organisational psychology and organisation studies. **Handbook of Research on Transmedia Storytelling and Narrative Strategies** Yilmaz, Recep, Erdem, M. Masculinity in Contemporary New York Fiction Peter Ferry, 2014-08-21 Masculinity in Contemporary New York Fiction is an interdisciplinary study that presents masculinity as a key thematic concern in contemporary New York fiction This study argues that New York authors do not simply depict masculinity as a social and historical construction but seek to challenge the archetypal ideals of masculinity by writing counter hegemonic narratives Gendering canonical New York writers namely Paul Auster Bret Easton Ellis and Don DeLillo illustrates how explorations of masculinity are tied into the principal themes that have defined the American novel from its very beginning The themes that feature in this study include the role of the novel in American society the individual and urban society the journey from innocence to awareness of masculinity the archetypal image of the absent and or patriarchal father the impact of homosocial relations on the everyday performance of masculinity male sexuality and the male individual and globalization What connects these contemporary New York writers is their employment of the one of the great figures in the history of literature the fl neur These authors take the fl neur from the shadows of the Manhattan streets and elevate this figure to the role of self reflexive agent of male subjectivity through which they write counter hegemonic narratives of masculinity This book is an essential reference for those with an interest in

Dowd, 2010-09-20 Among the many important tools feminist legal theorists have given scholars is that of anti essentialism all women are not created equal and privilege varies greatly by circumstances particularly that of race and class Yet at the same time feminist legal theory tends to view

men through an essentialist lens in which men are created equal The study of masculinities inspired by feminist theory to explore the construction of manhood and masculinity questions the real circumstances of men not in order to deny men's privilege but to explore in particular how privilege is constructed and what price is paid for it In this groundbreaking work feminist legal theorist Nancy E Dowd exhorts readers to apply the anti essentialist model so dominant in feminist jurisprudence to the study of masculinities She demonstrates how men's treatment by the law and society in general varies by race economic position sexuality and other factors She applies these insights to both boys and men examining how masculinities analysis exposes both privilege and subordination She examines men's experience of fatherhood and sexual abuse and boys experience in the contexts of education and juvenile justice Ultimately Dowd calls for a more inclusive feminist theory which by acknowledging the study of masculinities can broaden our understanding of privilege and subordination
