Hansel And Gretel And The Space Witch:

Hansel and Gretel and the Space Witch Laurence Anholt, 2014-11-06 Hansel and Gretel's evil stepmother sends them into space and into the clutches of the even more evil Space Witch Seriously Silly: Scary Fairy Tales: Hansel and Gretel and the Space Witch Laurence Anholt, 2016-07-05 Hansel and Gretel's evil stepmother sends them into space and into the clutches of the even more evil Space Witch **A Space of Anxiety** Anne Fuchs, 1999 A Space of Anxiety engages with a body of German Jewish literature that from the beginning of the century onwards explores notions of identity and kinship in the context of migration exile and persecution The study offers an engaging analysis of how Freud Kafka Roth Drach and Hilsenrath employ to varying degrees the travel paradigm to question those borders and boundaries that define the space between the self and the other A Space of Anxiety argues that from Freud to Hilsenrath German Jewish literature emerges from an ambivalent space of enunciation which challenges the great narrative of an historical identity authenticated by an originary past Inspired by postcolonial and psychoanalytic theories the author shows that modern German Jewish writers inhabit a Third Space which poses an alternative to an understanding of culture as a homogeneous tradition based on national unity By endeavouring to explore this third space in examples of modern German Jewish literature the volume also aims to contribute to recent efforts to rewriting literary history In retracing the inherent ambivalence in how German Jewish literature situates itself in cultural discourse this study focuses on how this literature subverts received notions of identity and racial boundaries The study is of interest to students of German literature German Jewish literature and Cultural Studies

Snow Fright and the Seven Skeletons Laurence Anholt, 2014-11-06 Snow Fright loves being scared and she's in for the fright of her life when she gets locked in the terrifying ROLLER GHOSTER *Reading Children's Fairytales* Mette Lindahl-Wise, Harry Oulton, Vicky Macleroy, Emily Corbett, 2025-11-17 Fairytales form a cornerstone of children's and YA literature studies and the tale of Hansel and Gretel has been translated adapted and retold across the years *Reading Children's Fairytales Inside the Gingerbread House* brings together leading and emerging researchers and practitioners to showcase how interdisciplinary approaches enable diverse responses to texts This edited collection opens up possibilities for cross pollination between critical multimodal and creative approaches It celebrates multiple forms of knowledge and meaning making within and beyond academic discourse and engages young people in the conversation The authors explore a wide range of retellings of Hansel and Gretel from children's picturebooks graphic novels poetry and young adult fiction to sculpture and Hip Hop to offer a comprehensive investigation of the tale The volume also benefits from the voices of acclaimed creative writers who create and reflect on retellings that cross cultural and international boundaries In engaging with such a range of popular retellings the chapters bring a renewed attention to the need to disrupt hierarchical and canonical perspectives on children's and YA literature Cinderella at the Vampire Ball Laurence Anholt, 2014-10-02 Cinderella's not scared of ANYTHING not even the ghastliest ghostliest creepiest spookiest party of all time Tom Thumb,

David Rudkin: Sacred Disobedience David Ian Rabey, David I. Rabey, 2013-10-11 Dr Rabey's profound critical study of David Rudkin's drama constitutes an in depth evaluation of this unique dramatist reassessed in the light of his bisexuality and Anglo Irish origins This key study includes insights from noted performers of Rudkin's work including Ian Hogg Peter McEnery Ian McDiarmid Gerard Murphy and Charlotte Cornwell It is a fully authorized study with exclusive reference to archival material which includes some frank and urgent interview contributions from the dramatist himself who is usually deemed reclusive It is enhanced by Dr Rabey's own experience of Wales Ireland and the English Black Country for his exposition of Rudkin's mythic sense of Celtic and Mercian history

Once Upon a Time in Facilities Management Patricia McCarroll, John Hassard, 2024-09-23 What would the world of work look like if interpreted through the lens of the fairytale To answer this question *Once Upon a Time in Facilities Management* explores storied spaces and metaphorical archetypes in the study of business management and organization At its core the authors offer a diagnostic approach for the study of work organization that links management theory storytelling and the business imaginary An important empirical focus is also included that explores a business service rarely studied in the management literature Facilities Management FM a secondary service of non core and increasingly outsourced organizational functions An in depth appreciation of FM is provided that assesses the people practices and processes of the service in a study that also highlights the characteristic liminality of the sector's professional activities Emphasis is placed on illuminating the storytelling nature of the service using primarily the genre of fairytales to identify representational archetypes including queen shadow sage trickster adventurer and eternal child within FM's storied space In the process three central characters essentially modes of FM delivery are identified the professional consultant the external service provider and the in house function with these forming the structural basis of fairytales explaining the culture and symbolism of FM as a business service The authors conclude by extrapolating findings from the study to inform a discussion of the contributions of folkloric analysis to organization theory explicitly and our understanding of business and management practice more widely

Rosebery, Jesse Solomon, Beth Warren, 2004-12-13 This book re-examines the dichotomy between the everyday and the disciplinary in mathematics and science education and explores alternatives to this opposition from points of view grounded in the close examination of complex classroom events It makes the case that students' everyday experience and knowledge in their entire manifold forms matter crucially in learning sciences and mathematics The contributions of 13 research teams are organized around three themes 1 the experiences of students in encounters with everyday matters of a discipline 2 the concerns of curriculum designers including teachers as they design activities intended to focus on everyday matters of a discipline and 3 the actions of teachers as they create classroom encounters with everyday matters of a discipline As a whole the volume reflects the shift in the field of educational research in recent years away from formal structural models of learning toward emphasizing its situated nature and the sociocultural bases of teaching and learning At least two trends increasing awareness that formal theories can be useful guides but are always partial and provisional in how they disclose classroom experiences and the widespread availability of video and audio equipment that enables effortless recording of classroom interactions have reoriented the field by allowing researchers and teachers to look at learning starting with complex classroom events rather than formal theories of learning Such examinations are not meant to replace the work on general theoretical frameworks but to ground them in actual complex events This reorientation means that researchers and teachers can now encounter the complexity of learning and teaching as lived human meaning-making experiences Immersion in this complexity compels rethinking assumptions about the dichotomies that have traditionally organized the field's thinking about learning Further it has important implications for how

the relationship between theory and practice in understanding teaching and learning is viewed Everyday Matters in Science and Mathematics Studies of Complex Classroom Events is an important resource for researchers teacher educators and graduate students in mathematics and science education and a strong supplemental text for courses in these areas and also in cognition and instruction and instructional design
