Sportbike Performance Handbook Kevin Cameron, To appoint yourself project leader on your own bike is exciting, says Cycle World columnist and performance guru Kevin Cameron, but then you need a plan that you can actually carry through. For a decade Cameron's bestselling Sportbike Performance Handbook has been helping readers and riders make those plans and put them into motion, building better, faster, more powerful bikes. This new edition does everything the first did and more, bringing bikers up to date on the dramatic changes that have swept sportbike technology in the past ten years. Cameron goes deep inside the world of performance, offering usable insights into how systems work as well as how modifications and aftermarket trickery translate into more power and better handling on the street or at the track. Component by component, he describes the secrets of speed in minute detail, all with added color photographs and new diagrams. This edition covers changes to fuel management, suspension, tire technology, brake systems and more. It is the essential tool for anyone looking to coax maximum performance from a sportbike.

Robotic Exploration of the Solar System Paolo Ulivi, David M. Harland, 2012-08-14. Paolo Ulivi and David Harland provide in Robotic Exploration of the Solar System a detailed history of unmanned missions of exploration of our Solar System. The subject is treated from an engineering and scientific standpoint. Technical descriptions of the spacecraft of their mission designs and of instrumentations are provided. Scientific results are discussed in considerable depth, together with details of mission management. The project will deliver four volumes totaling over 2 000 pages that will provide comprehensive coverage of the topic with thousands of references to the professional literature that should make it the first port of call for people seeking information on the topic. The books will cover missions from the 1950s until the present day and some of the latest missions and their results will appear in a popular science book for the first time.
