Haynes 1930s House Manual:

1930'S HOUSE MANUAL IAN. ROCK,2018 *Ideal homes, 1918-39* Deborah Sugg Ryan,2018-03-06 This book explores the aspirations and tastes of new suburban communities in interwar England for domestic architecture and design that was both modern and nostalgic in a period where homeownership became the norm It investigates the ways in which new suburban class and gender identities were forged through the architecture design and decoration of the home in choices such as ebony elephants placed on mantelpieces and modern Easiwork dressers in kitchens Ultimately it argues that a specifically suburban modernism emerged which looked backwards to the past whilst looking forward to the future Thus the inter war ideal home was both a retreat from the outside world and a site of change and experimentation The book also examines how the interwar home is lived in today It will appeal to academics and students in design social and cultural history as well as a wider readership curious about interwar homes *Ideal homes* Deborah Sugg Ryan,2020-04-01 *Ideal homes* investigates the tastes and aspirations of the suburban communities that emerged in Britain after the First World War It explores how new class and gender identities were forged through the architecture and decoration of the home This edition includes a chapter on researching the history of your own house [The Victorian House Manual \(2nd Edition\)](#) Ian Alistair Rock,Ian MacMillan,2015-05-15 Many of Britain s four million Victorian and Edwardian houses were shoddily built and often require essential repairs Problems such as rising damp timber decay bowed roofs and subsidence are well known but at what point do these common problems become major defects Forget makeovers this easy to use manual shows where to look for danger signs what s normal and what isn t and how to fix common defects Equipped with this book you can talk the same language as builders and property professionals and this new edition includes updated rules and regulations as well as guidance on the latest environmental issues [The Culture of Property](#) LeeAnn Lands,2011-08-15 This history of the idea of neighborhood in a major American city examines the transition of Atlanta Georgia from a place little concerned with residential segregation tasteful surroundings and property control to one marked by extreme concentrations of poverty and racial and class exclusion Using Atlanta as a lens to view the wider nation LeeAnn Lands shows how assumptions about race and class have coalesced with attitudes toward residential landscape aesthetics and home ownership to shape public policies that promote and protect white privilege Lands studies the diffusion of property ideologies on two separate but related levels within academic professional and bureaucratic circles and within circles comprising civic elites and rank and file residents By the 1920s following the establishment of park neighborhoods such as Druid Hills and Ansley Park white home owners approached housing and neighborhoods with a particular collection of desires and sensibilities architectural and landscape continuity a narrow range of housing values orderliness and separation from undesirable land uses and undesirable people By the 1950s these desires and sensibilities had been codified in federal state and local standards practices and laws Today Lands argues far more is at stake than issues of access to particular neighborhoods because housing location is tied to the

allocation of a broad range of resources including school funding infrastructure and law enforcement Long after racial segregation has been outlawed white privilege remains embedded in our culture of home ownership

The Interwar World Andrew Denning, Heidi J.S. Tworek, 2023-08-29 The Interwar World collects an international group of over 50 contributors to discuss analyze and interpret this crucial period in twentieth century history A comprehensive understanding of the interwar era has been limited by Euro American approaches and strict adherence to the temporal limits of the world wars The volume's contributors challenge the era's accepted temporal and geographic framings by privileging global processes and interactions Each contribution takes a global thematic approach integrating world regions into a shared narrative Three central questions frame the chapters First when was the interwar Viewed globally the years 1918 and 1939 are arbitrary limits and the volume explicitly engages with the artificiality of the

temporal framework while closely examining the specific dynamics of the 1920s and 1930s Second where was the interwar Contributors use global history methodologies and training in varied world regions to decenter Euro American frameworks engaging directly with the usefulness of the interwar as both an era and an analytical category Third how global was the interwar Authors trace accelerating connections in areas such as public health and mass culture counterbalanced by processes of economic protectionism exclusive nationalism and limits to migration By approaching the era thematically the volume disaggregates and interrogates the meaning of the global in this era As a comprehensive guide this volume offers overviews of key themes of the interwar period for undergraduates while offering up to date historiographical insights for postgraduates and scholars interested in this pivotal period in global history
