Unsettling Empathy Björn Krondorfer,2020-08-11 This book is an in depth reflection and analysis on why and how unsettling empathy is a crucial component in reconciliatory processes Located at the intersection of memory studies reconciliation studies and trauma studies the book is at its core transdisciplinary presenting a fresh perspective on how to conceive of concepts and practices when working with groups in conflict The book Unsettling Empathy has come into being during a period of increasing cultural pessimism where we witness the spread of populism and the rise of illiberal democracies that hark back to nationalist and ethnocentric narratives of the past Because of this changed landscape this book makes an important contribution to seeking fresh pathways toward an ethical practice of living together in light of past agonies and current conflicts Within the specific context of working with groups in conflict this book urges for an ethical posture of unsettling empathy Empathy which plays a vital role in these processes is a complex and complicated phenomenon that is not without its critics who occasionally alert us to its dark side The term empathy needs a qualifier to distinguish it from related phenomena such as pity compassion sympathy benign paternalism idealized identification or voyeuristic appropriation The word unsettling is just this crucial ingredient without which I would hesitate to bring empathy into our conversation

Technologies of Intuition Mentoring Artists for Women's Art,DisplayCult (Group of

artists),2006 The term intuition while commonly used by artists has been somewhat marginalized within art theory and criticism Whether sensed as a gut feeling or a flash of insight intuition is central to processes of coming to know in aesthetic practice and experience Many artists habitually rely on extra rational means of understanding either in the form of everyday instinct or uncanny cognition A delicate balance though exists between clairvoyance and fantasy foreknowledge and wishful thinking Technologies of Intuition demonstrates how artistic sensitivity requires disciplined and cultivated perception Set in continuity with the compelling history of the Spiritualist Movement and emancipatory feminism this anthology elucidates intuitive agency as a psychic somatic and social technology in the fine arts and popular culture **Art of Living, Art of Dying** Carlo Leget,2017-03-21 Talking about dying and death can be difficult for those facing the end of life This book presents a model and offers examples for discussing existential questions with patients receiving end of life care Updating the Ars Moriendi tradition this book offers a non judgemental approach for supporting people through the spiritual aspects of dying The Analysis of Performance Art Anthony Howell,A. Howell,2013-11-05 This finely illustrated book offers a simple yet comprehensive grammar of a new discipline Performance Art first became popular in the fifties when artists began creating happenings Since then the artist as a performer has challenged many of the accepted rules of the theatre and radically altered our notion of what constitutes visual art This is the first publication to outline the essential characteristics of the field and to put forward a method for teaching the subject as a discipline distinct from dance drama painting or sculpture Taking the theory of primary and secondary colours as his model Anthony Howell posits three primaries of action and shows how these may be mixed to obtain a secondary range of actions Based on a taught course the system is designed for practical use in the studio and is also entertaining to explore Examples are cited from leading performance groups and practitioners such as Bobbie Baker Orlan Stelarc Annie Sprinkle Robert Wilson Goat Island and Station House Opera This volume however is not just an illustrated grammar of action it also shows how the syntax of that grammar has psychoanalytic repercussions This enables the performer to relate the system to lived experience ensuring a realisation that meaning is being dealt with through these actions and that the system set forth is more than a dry structuring of the characteristics of movement Freud s notion of transference and Lacan s understanding of repetition are compared to a performer s usage of the same terms Thus the book provides a psychoanalytic critique of performance at the same time as it outlines an efficient method for creating live work on both fine art and theatre courses *Theatre in Theory 1900-2000* David Krasner,2007-11-28 Theatre in Theory is the most complete anthology documenting 20th century dramatic and performance theory to date offering a rich variety of perspectives from the century s most prominent playwrights directors scholars and philosophers Includes major theoretical and critical manifestos hypotheses and theories from the field Wide ranging and broadly constructed this text has both interdisciplinary and global appeal Includes a thematic index section introductions and supporting commentary Helps students teachers and practitioners to think critically about the nature of theatre *The Grove Book of Art Writing* Martin

The Third Hand Charles Green, 2001 The lone artist is a worn cliché of art history but one that still defines how we think about the production of art Since the 1960s however a number of artists have challenged this image by embarking on long term collaborations that dramatically altered the terms of artistic identity In *The Third Hand* Charles Green offers a sustained critical examination of collaboration in international contemporary art tracing its origins from the evolution of conceptual art in the 1960s into such stylistic labels as Earth Art Systems Art Body Art and Performance Art During this critical period artists around the world began testing the limits of what art could be how it might be produced and who the artist is Collaboration emerged as a prime way to reframe these questions Green looks at three distinct types of collaboration the highly bureaucratic identities created by Joseph Kosuth Ian Burn Mel Ramsden and other members of Art the close knit relationships based on marriage or lifetime partnership as practiced by the Boyle Family Anne and Patrick Poirier Helen Mayer Harrison and Newton Harrison and couples like Christo and Jeanne Claude Gilbert George or Marina Abramovic and Ulay who developed third identities effacing the individual artists almost entirely These collaborations Green contends resulted in new and at times extreme authorial models that continue to inform current thinking about artistic identity and to illuminate the origins of postmodern art suggesting in the process a new genealogy for art in the twenty first century
