They do this through engaging in selling their images through the use of sceneries like national parks museums historic monuments and flag institutions such as hotels and conference facilities. These sceneries and flag institutions act as symbols to profile and market these cities to the world for different socio economic purposes The present book exposes some findings derived from two major study objectives done in Tanzania One of the the objectives was to find out different place promotion strategies in Arusha and the other was to set out to find the impact of the place promotion strategies on tourism Reasons for place promotion and the targets of the strategies are also widely covered in the book In its specialized chapters the book reveals that there are three major elements of place promotion in use in the northern Tanzanian tourist city of Arusha These are national parks and game reserves located in Arusha like Arusha National Park Manyara National Park Serengeti National Park and Ngorongoro Conservation Area The city of Arusha also uses flag institutions in and around Arusha like The Arusha International Conference Centre AICC Arusha Natural Museum The Arusha Declaration Museum The Cultural Villages of El Kiding a and best Hotels to profile itself to the world Gratifyingly the book exposes that the main reasons for these strategies are to boost tourism in the city and that most of the targets of these strategies are international tourists. Through the good use of the strategies and the city revenues turnover the region itself has been enormously popular and the number of visits to the attractive sceneries and flag institutions has been growing steadily over the years **Unesco List of Documents and Publications** Unesco, 1981 Conflict, Cultural Heritage and Peace Colin Breen, 2023-06-30 Conflict Cultural Heritage and Peace offers a series of conceptual and applied frameworks to help understand the role cultural heritage plays within conflict and the potential it has to contribute to positive peacebuilding and sustainable development in post conflict societies Designed as a resource guide this general volume introduces the multiple roles cultural heritage plays through the conflict cycle from its onset subsequent escalation and through to resolution and recovery In its broadest sense it questions what role cultural heritage plays within conflict how cultural heritage is used in the construction and justification of conflict narratives how are these narratives framed and often manipulated to support particular perspectives and how we can develop better understandings of cultural heritage and work towards the better protection of cultural heritage resources during conflict It

moves beyond the protection paradigm and recognises that cultural heritage can contribute to building peace and reconciliation in post conflict environments The study offers a conceptual and operational framework to understand the roles cultural heritage plays within conflict cycles how it can be targeted during war and the potential cultural heritage has in positive peacebuilding across the conflict lifecycle Conflict Cultural Heritage and Peace offers an invaluable introduction to cultural heritage at all stages in conflict scenarios which will benefit students researchers and practitioners in the field of heritage environment peace and conflict studies The Bloomsbury Handbook of Music and Art Sarah Mahler Kraaz, Charlotte de Mille, 2023-10-05 This volume brings together prominent scholars artists composers and directors to present the latest interdisciplinary ideas and projects in the fields of art history musicology and multi media practice Organized around ways of perceiving experiencing and creating the book outlines the state of the field through cutting edge research case studies For example how does art music practice thinking communicate activist activities How do socio economic and environmental problems affect access to heritage How do contemporary practitioners interpret past works and what global concerns stimulate new works In each instance examples of cross or inter media works are not thought of in isolation but in a global historical context that shows our cultural existence to be complex conflicted and entwined For the first time cross disciplinary collaborations in ethnomusicology anthropology ecomusicology ecoart ecomuseology and digital humanities for art history musicology and practice are prioritized in one volume
