The background of the book cover is a photograph of a dilapidated interior space. The walls are covered in horizontal wooden planks with peeling blue and green paint. A series of white door frames are nested together, creating a tunnel effect that leads to a solid green door at the far end. The floor is dark and appears to be made of wood or stone.

History Lessons A Memoir Of Madness Memory And The Brain:

History Lessons Clifton Crais, 2014-04-03 Indeed it is memory both elusive and essential that forms the center of Crais's beautifully rendered memoir *History Lessons*. In an effort to restore his own Crais brings the tools of his formal training as a historian to bear on himself and his family. He interviews his sisters and his mother revisits childhood homes and pores over documentary evidence plane tickets postmarks court and medical records crumbling photo albums. Probing family lore pushing past silences and exhuming long buried family secrets he arrives ultimately at the deepest reaches of the brain. Crais examines the science of memory and forgetting from the ways in which experience shapes the developing brain to the mechanisms that cause the chronic childhood amnesia the most common and least understood form of amnesia from which he suffers. Part memoir part narrative science and part historical detective story *History Lessons* is a provocative exquisitely crafted investigation into what it means to be human.

Imagining Histories of Colonial Latin America Karen Melvin, Sylvia Sellers-García, 2017-12 *Imagining Histories of Colonial Latin America* teaches imaginative and distinctive approaches to the practice of history through a series of essays on colonial Latin America. It demonstrates ways of making sense of the past through approaches that aggregate more than they dissect and suggest more than they conclude. Sidestepping more conventional approaches that divide content by subject source or historiographical turn the editors seek to take readers beyond these divisions and deep into the process of historical interpretation. The essays in this volume focus on what questions to ask what sources can reveal what stories historians can tell and how a single source can be interpreted in many ways.

Jesus Darkly Rafael Rodriguez, 2018-12-04 New Testament students have not always been well served by study of the historical Jesus which tends to segregate Jesus from his significance vis vis Israel's scriptures and God's agenda as this is developed among the New Testament writers in the living context of a faith community's memory. The witness of scripture does in fact help us remember Jesus well. From beginning to end the Bible tells the story of God putting God's family back together. Its plot develops in multiple sometimes competing ways. It exhibits the full range of human emotions and perhaps surprisingly it claims that these are also God's emotions. But on every page we hear the call of a God whose family has chosen an early inheritance instead of an intimate relationship. That God pictured as a parent often a father beckons God's children inviting them to return and to sit at the table clothed by mercy and affirmed as God's very family.

The Art of Life in South Africa Daniel Magaziner, 2016-11-09 From 1952 to 1981 South Africa's apartheid government ran an art school for the training of African art teachers at Indaleni in what is today KwaZulu Natal. *The Art of Life in South Africa* is the story of the students teachers art and politics that circulated through a small school housed in a remote former mission station. It is the story of a community that made its way through the travails of white supremacist South Africa and demonstrates how the art students and teachers made together became the art of their lives. Daniel Magaziner radically reframes apartheid era South African history. Against the dominant narrative of apartheid oppression and black resistance as well as recent scholarship

that explores violence criminality and the hopeless entanglements of the apartheid state this book focuses instead on a small group s efforts to fashion more fulfilling lives for its members and their community through the ironic medium of the apartheid era school There is no book like this in South African historiography Lushly illustrated and poetically written it gives us fully formed lives that offer remarkable insights into the now clich d experience of black life under segregation and apartheid

Musicophilia Oliver Sacks,2008-09-23 Revised and Expanded With the same trademark compassion and erudition he brought to *The Man Who Mistook His Wife for a Hat* Oliver Sacks explores the place music occupies in the brain and how it affects the human condition In *Musicophilia* he shows us a variety of what he calls musical misalignments Among them a man struck by lightning who suddenly desires to become a pianist at the age of forty two an entire group of children with Williams syndrome who are hypermusical from birth people with amusia to whom a symphony sounds like the clattering of pots and pans and a man whose memory spans only seven seconds for everything but music Illuminating inspiring and utterly unforgettable *Musicophilia* is Oliver Sacks latest masterpiece
