Infinity, Faith, and Time John Spencer Hill,1997-11-26 In Part 1 Hill examines the effect of the idea of spatial infinity on seventeenth century literature arguing that the metaphysical cosmology of Nicholas of Cusa provided Renaissance writers such as Pascal

Traherne and Milton with a way to construe the vastness of space as the symbol of human spiritual potential Focusing on time in Part 2 Hill reveals that faced with the inexorability of time Christian humanists turned to St Augustine to develop a philosophy that interpreted temporal passage as the necessary condition of experience without making it the essence or ultimate measure of human purpose Hill's analysis centres on Shakespeare whose experiments with the shapes of time comprise a gallery of heuristic time centred fictions that attempt to explain the consequences of human existence in time Infinity Faith and Time reveals that the sixteenth and seventeenth centuries were a period during which individuals were able with more success than in later times to make room for new ideas without rejecting old beliefs [Accessing the Classics](#) La Vergne Rosow, 2005-12-30 Help readers improve reading skills while stimulating their appreciation and increasing their understanding of great literature Using a scaffolding approach this guide leads readers from simple and engaging reads to more challenging texts and simultaneously cultivates their interest and skills An invaluable resource for middle and high school ABE and ESL educators as well as for readers advisors All readers even those still learning to speak English can enjoy the delights and benefits of great literature with the help of this motivational and practical book guide Rosow takes you on a journey through the history of Western literature beginning with ancient myths and moving to medieval tales and classics of the Renaissance Romantic Movement and Modernism Along the way she shows you how to give readers easy access to some of the best literature of all time Scores of collections focus on such ancient and enduring stories as Gilgamesh Beowulf the tales of Chaucer historical masterpieces of William Shakespeare Jane Austen Edgar Allan Poe Charles Dickens and stellar names of more recent times such as Virginia Woolf John Steinbeck Ernest Hemingway and J R R Tolkien Each carefully selected collection lists an assortment of titles ranging in reading level and arranged progressively from simple renditions such as picture book retellings through more advanced selections and readings where audio versions and simpler formatting support the reader and on to the most challenging reads Author profiles and narrative as well as detailed descriptions of each title provide further insights into the story lines and features of the books while building a scaffold of reading experience and knowledge to help readers better understand the texts For example the Mark Twain collection begins with a brief biographical sketch of the author followed by descriptions of two illustrated books about the author and two readers theatre skits based on his work A collection of Twain's short stories is recommended next and then several illustrated versions of his novels and an illustrated edition of Twain's memoir Life on the Mississippi which is supported by an audiotape version Each recommended title is rated as start here next read support here or challenging read and related reads and audio and video versions are listed when appropriate The author also notes author and student favorites titles with exceptional illustrations and other features of interest Focus is on authors and titles of the Western canon that are generally available in library collections Because some of the titles cited are older editions this is a valuable collection development tool in libraries as well as an essential resource for readers advisors Adult Basic Education and English as Second Language
