The Collected Works of George Rawlinson George Rawlinson, 2018-05-28 George Rawlinson 1812 1902 was a 19th century English scholar historian and Christian theologian He was appointed canon of Canterbury and after 1888 he was rector of All Hallows Lombard Street In 1873 he was appointed proctor in Convocation for the Chapter of Canterbury Contents Egypt Phoenicia Chaldea Assyria Media Babylon Persia Parthia Sasanian Empire The Kings of Israel and Judah The History of Herodotus Translated by George Rawlinson **Ancient Egypt** George Rawlinson, 2020-09-28 In shape Egypt is like a lily with a crooked stem A broad blossom terminates it at its upper end a button of a bud projects from the stalk a little below the blossom on the left hand side The broad blossom is the Delta extending from Aboosir to Tineh a direct distance of a hundred and eighty miles which the projection of the coast the graceful swell of the petals enlarges to two hundred and thirty The bud is the Fayoum a natural depression in the hills that shut in the Nile valley on the west which has been rendered cultivable for many thousands of years by the introduction into it of the Nile water through a canal known as the Bahr Yousouf The long stalk of the lily is the Nile valley itself which is a ravine scooped in the rocky soil for seven hundred miles from the First Cataract to the apex of the Delta sometimes not more than a mile broad never more than eight or ten miles No other country in the world is so strangely shaped so long compared to its width so straggling so hard to govern from a single centre At the first glance the country seems to divide itself into two strongly contrasted regions and this was the original impression which it made upon its inhabitants The natives from a very early time designated their land as

the two lands and represented it by a hieroglyph in which the form used to express land was doubled The kings were called chiefs of the Two Lands and wore two crowns as being kings of two countries The Hebrews caught up the idea and though they sometimes called Egypt Mizar in the singular number preferred commonly to designate it by the dual form Mizraim which means the two Mizarim These two Mizarim two Egypts or two lands were of course the blossom and the stalk the broad tract upon the Mediterranean known as Lower Egypt or the Delta and the long narrow valley that lies like a green snake to the south which bears the name of Upper Egypt or the Said Nothing is more striking than the contrast between these two regions Entering Egypt from the Mediterranean or from Asia by the caravan route the traveller sees stretching before him an apparently boundless plain wholly unbroken by natural elevations generally green with crops or with marshy plants and canopied by a cloudless sky which rests everywhere on a distant flat horizon An absolute monotony surrounds him No alternation of plain and highland meadow and forest no slopes of hills or hanging woods or dells or gorges or cascades or rushing streams or babbling rills meet his gaze on any side look which way he will all is sameness one vast smooth expanse of rich alluvial soil varying only in being cultivated or else allowed to lie waste Turning his back with something of weariness on the dull uniformity of this featureless plain the wayfarer proceeds southwards and enters at the distance of a hundred miles from the coast on an entirely new scene Instead of an illimitable prospect meeting him on every side he finds himself in a comparatively narrow vale up and down which the eye still commands an extensive view but where the prospect on either side is blocked at the distance of a few miles by rocky ranges of hills white or yellow or tawny sometimes drawing so near as to threaten an obstruction of the river course sometimes receding so far as to leave some miles of cultivable soil on either side of the stream The rocky ranges as he approaches them have a stern and forbidding aspect They rise for the most part abruptly in bare grandeur on their craggy sides grows neither moss nor heather no trees clothe their steep heights They seem intended like the mountains that enclosed the abode of Rasselas to keep in the inhabitants of the vale within their narrow limits and bar them out from any commerce or acquaintance with the regions beyond Such is the twofold division of the country which impresses the observer strongly at the first On a longer sojourn and a more intimate familiarity the twofold division gives place to one which is threefold The lower differs from the upper valley it is a sort of debatable region half plain half vale the cultivable surface spreads itself out more widely the enclosing hills recede into the distance above all to the middle tract belongs the open space of the Fayoum nearly fifty miles across in its greatest diameter and containing an area of four hundred square miles Hence with some of the occupants of Egypt a triple division has been preferred to a twofold one the Greeks interposing the Heptanomis between the Thebais and the Delta and the Arabs the Vostani between the Said and the Bahari or country of the sea

History of Ancient Egypt George Rawlinson, 1881 History of Ancient Egypt George Rawlinson, 2015-12-03 George Rawlinson 1812 1902 was a prolific author about classical history and History of Ancient Egypt is one of Rawlinson's most famous works From the Library and Lighthouse of Alexandria to the Great Pyramid at Giza

the Ancient Egyptians produced several wonders of the world revolutionized architecture and construction created some of the world's first systems of mathematics and medicine and established language and art that spread across the known world. With world famous leaders like King Tut and Cleopatra it's no wonder that today's world has so many Egyptologists. What makes the accomplishments of the Ancient Egyptians all the more remarkable is that Egypt was historically a place of great political turbulence. Its position made it both valuable and vulnerable to tribes across the Mediterranean and the Middle East and Ancient Egypt had no shortage of its own internecine warfare. Its most famous conquerors would come from Europe with Alexander the Great laying the groundwork for the Hellenic Ptolemy line and the Romans extinguishing that line after defeating Cleopatra and driving her to suicide.

Papers and Proceedings American Library Association,American Library Association. Annual Conference,1881

Cities of God David Gange,Michael Ledger-Lomas,2013-10-17 The history of archaeology is generally told as the making of a secular discipline In nineteenth century Britain however archaeology was enmeshed with questions of biblical authority and so with religious as well as

narrowly scholarly concerns In unearthing the cities of the Eastern Mediterranean travellers archaeologists and their popularisers transformed thinking on the truth of Christianity and its place in modern cities This happened at a time when anxieties over the unprecedented rate of urbanisation in Britain coincided with critical challenges to biblical truth In this context cities from Jerusalem to Rome became contested models for the adaptation of Christianity to modern urban life Using sites from across the biblical world this book evokes the appeal of the ancient city to diverse groups of British Protestants in their arguments with one another and with their secular and Catholic rivals about the vitality of their faith in urban Britain
