**Monuments and Memory in Early Modern England** Peter Sherlock, 2016-12-05 Funeral monuments are fascinating and diverse cultural relics that continue to captivate visitors to English churches yet we still know relatively little about the messages they attempt to convey across the centuries This book is a study of the material culture of memory in sixteenth and seventeenth century England By interpreting the images and inscriptions on monuments to the dead it explores how early modern people wanted to be remembered their social vision cultural ideals religious beliefs and political values Arguing that early modern English monuments were not simply formulaic statements about death and memory Dr Sherlock instead reveals them to be deliberately crafted messages to future generations Through careful reading of monuments he shows that much can be learned about how men and women conceived of the world around them and shifting concepts of gender social order and the place of humans within the universe In post Reformation England the dead became superior to the living as monuments trumpeted their fame and their confidence in the resurrection This study aims to stimulate historians to attempt to reconstruct and engage with the world view of past generations through the unique and under utilised medium of funeral monuments In so doing it is hoped that more light may be shed on how memory was created controlled and contested in pre

modern society and encourage the on going debate about the ways in which understandings of the past shape the present and future

**Oedipus at Colonus and King Lear: Classical and Early Modern Intersections** Silvia Bigliuzzi, 2019-12-29 The story of King Lear seems to fill in the blank space separating the end of Oedipus Tyrannus and the beginning of Oedipus at Colonus In both Oedipus at Colonus and the latter part of King Lear we are presented with an old man who was once a King and following his expulsion from his kingdom on account of a crime or of an error is turned into a no thing This happens in the time of the division of the kingdom which is also the time of the genesis of intraspecific conflict and consequently of the end of the dynasty This collection of essays offers a range of perspectives on the many common concerns of these two plays from the relation between fathers and sons daughters to

madness and wisdom from sinning and suffering to being and non being in human and divine time It also offers an overarching critical frame that interrogates questions of source and reception probing into the possible exchangeability of perspectives in a game of mirrors that challenges ideas of origin      Catalogue of the Extensive and Valuable Library of the Late Thomas Maitland, Esquire, of Dundrennan... Hardie, 2012 The Oxford History of Classical Reception OHCREL is designed to offer a comprehensive investigation of the numerous and diverse ways in which literary texts of the classical world have stimulated responses and refashioning by English writers Covering the full range of English literature from the early Middle Ages to the present day OHCREL both synthesizes existing scholarship and presents cutting edge new research employing an international team of expert contributors for each of the five volumes OHCREL endeavours to interrogate rather than inertly reiterate conventional assumptions about literary periods the processes of canon formation and the relations between literary and non literary discourse It conceives of reception as a complex process of dialogic exchange and rather than offering large cultural generalizations it engages in close critical analysis of literary texts It explores in detail the ways in which English writers engagement with classical literature casts as much light on the classical originals as it does on the English writers own cultural context This fourth volume and second to appear in the series covers the years 1790 1880 and explores romantic and Victorian receptions of the classics Noting the changing fortunes of particular classical authors and the influence of developments in archaeology aesthetics and education it traces the interplay between classical and nineteenth century perceptions of gender class religion and the politics of republic and empire in chapters engaging with many of the major writers of this period      **The History of the Worthies of England, Vol. 1 of 3 (Classic Reprint)** Thomas Fuller, 2017-11-12 Excerpt from The History of the Worthies of England Vol 1 of 3 He was soon after ordained priest and presented to the rectory of Broad Windsor in Dorsetshire where he married and had one son but lost his wife about 1641 During his retirement at this rectory he began to complete several works he had planned at Cambridge but growing weary of a country parish and uneasy at the unsettled state of public affairs he removed to London and distinguished himself so much in the pulpits there that he was invited by the master and brotherhood of the Savoy to be their lecturer To which he had been presented by William Cecil earl of Exeter About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
