Landscape Architecture History Fiction:

A Landscape of Architecture, History and Fiction Jonathan Hill, 2015-12-22 Architecture can be analogous to a history a fiction and a landscape We expect a history or a novel to be written in words but they can also be cast in concrete or seeded in soil The catalyst to this tradition was the simultaneous and interdependent emergence in the eighteenth century of new art forms the picturesque landscape the analytical history and the English novel Each of them instigated a creative and questioning response to empiricism s detailed investigation of subjective experience and the natural world and together they stimulated a design practice and lyrical environmentalism that profoundly influenced subsequent centuries Associating the changing natural world with journeys in self understanding and the design process with a visual and spatial autobiography this book describes journeys between London and the North Sea in successive centuries analysing an enduring and evolving tradition from the picturesque and romanticism to modernism Creative architects have often looked to the past to understand the present and imagine the future Twenty first century architects need to appreciate the shock of the old as well as the shock of the new

Moraitis, 2024-08-22 Tales of terror mythoi of the macabre phobic fantasies and numinous narratives have played an integral role in collective cultural expression since antiquity It was however in 19th century Europe that weird fiction reached its first apogee as a cultural and political antithesis to the adverse conditions of modern life It expressed Western society s collective disappointment with the Enlightenment s unrealized promises for a better world capturing the agony of urban populations in suffocating industrial cities the suffering caused by centuries of ongoing military confrontation and the hopelessness of the common citizen in the wake of rapid and complex technological and political change This volume presents a rational demystification of irrational cultural expressions with the dual intention of being used as both an academic reference and a
