[Fundamentals of Ornamentals Horticulture and Landscape Gardening](#) Ajai Kumar Tiwari, 2012-01-01 Ornamental Horticulture is a branch of Horticulture which deals with commercial growing of flowers, ornamental plants, and beautification of surroundings. This subject assumes great importance in improving the total environment and checks visual pollution by way of beautification. The flowers have been eulogised by poets and artists for generations not merely for their ornamental properties but for their versatile curative properties. The study of ornamental horticulture comprises of two parts, i.e. the knowledge of growing of plants like annuals, shrubs, climber trees, bulbous succulents, and cactus, shade-loving plants, lawn, etc. and their use in beautification programmes. The information on above aspect is scattered in different books and a great difficulty was being felt by students, landscapers, and scientists. In this context, a need of simple book on introduction, cultivation, and management of ornamental plants is highly demanded by students of Horticulture and florists of India. This book describes in details collection, identification, propagation, cultivation, nutritional, weed management, plant and flowers senescence management, etc. of annuals, herbs, shrubs, climbers, and ornamental trees. Since beautification involves the principles of art and gardening styles, therefore, bio-aesthetic planning basics of landscaping and flowers arrangement have also been discussed in details. Special care has been taken to present the subject matter in a simple and lucid style. Book further includes recent available information. The
