Jarkko Saarinen, C M. Hall, 2025-02-12 This Handbook provides a comprehensive overview of contemporary issues on governance in various tourism research policy and development contexts Expert contributors examine the relationship between governance sustainability resilience and justice in tourism including critical discussions on good governance for tourism in the future From an Ethic of Sufficiency to its Policy and Practice in Late Capitalism Manu V. Mathai, Sylvia Lorek, Wolfgang Sachs, 2023-12-13 That the notion of sufficiency is essential for a good life is an idea that enjoys support across many ethical philosophical religious and cultural persuasions This notion reasserted itself in the study of sustainability once modern society reluctantly took cognizance of the limited low entropy energy and matter available for human appropriation There is today therefore a general recognition of i e not necessarily wide agreement on the merits of or needs for notions of sufficiency as a species of environmentalism within secular communities In this context a critical question that invites our attention is how to effect sufficiency and in particular of dealing with the daunting challenge of injustice as well as questions of distribution within and between countries that it brings to attention Given sufficiency's original home as it were in tradition the modern world has tended to dismiss it or to plead to individual voluntary simplicity when faced with evidence asserting its necessity Sufficiency is also often written away as a spiritual problem The domain of ascetics and the religious How to habilitate sufficiency in a political economy for the secular modern facing its biggest existential challenge yet in the form of the environmental crisis Ski, 1985-01 **Economic Evaluation of Climate**

Change Impacts Karl W. Steininger, Martin König, Birgit Bednar-Friedl, Lukas Kranzl, Wolfgang Loibl, Franz Prettenhaler, 2015-02-26 This volume deals with the multifaceted and interdependent impacts of climate change on society from the perspective of a broad set of disciplines The main objective of the book is to assess public and private cost of climate change as far as quantifiable while taking into account the high degree of uncertainty It offers new insights for the economic assessment of a broad range of climate change impact chains at a national scale The framework presented in the book allows

consistent evaluation including mutual interdependencies and macroeconomic feedback This book develops a toolbox that can be used across the many areas of climate impact and applies it to one particular country Austria **The**
