Language Attrition Key Topics In Sociolinguistics:

Language Attrition Monika S. Schmid, 2011 Language attrition describes the loss of or changes to grammatical and other features of a language as a result of declining use by speakers who have changed their linguistic environment and language habits In such a situation there may for example be simplification in the tense system or in certain properties of subordinate clauses some vocabulary items might fall into disuse and phonetic features may be restructured These changes can be affected by features of the speaker's environment but also by his or her attitudes and processes of identification This book provides a detailed and up to date introduction to the way in which language attrition can affect language as well as to the extra and sociolinguistic features involved It also familiarizes the reader with experimental approaches to attrition and data analysis techniques and provides hands on guidelines on how to apply them *Language Attrition* Monika S.

First Language Attrition Monika S. Schmid,Barbara Köpke,2013-05-22 This volume consists of a collection of papers that focus on structural grammatical aspects of the process of first language attrition It presents an overview of current research methodological issues and important questions regarding first language attrition In particular it addresses the two most prominent issues in current L1 attrition research Can attrition effects impact on features of core syntax or are they limited to interface phenomena and What is the role of age at onset pre post puberty in this regard By investigating attrition in a variety of settings from a case study of a Spanish speaking adoptee in the US to an empirical investigation of more than 50 long term attriters of Turkish in the Netherlands the investigations presented take a new perspective on these issues Originally published in Language Interaction and Acquisition Language Interaction et Acquisition 2 2 2011

Language Maintenance and Shift Anne Pauwels,2016-08-04 What motivates some linguistic minorities to maintain their language Why do others shift away from it rather quickly Are there specific conditions environmental or personal influencing these dynamics What can families and communities do to pass on their threatened language to the next generation These and related questions are investigated in detail in Language Maintenance and Shift In this fascinating book Anne Pauwels analyses the patterns of language use exhibited by individuals and groups living in multilingual societies and explores their efforts to maintain their heritage or minority language She explores the various methods used to analyse language maintenance from linguistic demography to linguistic biography and offers guidance on how to research the language patterns and practices of linguistic minorities around the world

Written Language In Intermission of Malaysia Learners of English (Penerbit USM) Rozaida

Abdul Rauf, In preparing this book the author's aim has been to create a current and introductory level text to acquaint readers with the core concepts that constitute the discipline of language attrition. Thus far no book of this kind has been published in the Malaysian context. In fact the issue of the English language for a book like this is also limited. This book was designed to be used in both undergraduate and graduate courses in linguistics and as referrals or general reading. Universiti Sains Malaysia. Penerbit Universiti Sains Malaysia. Diaspora Language Contact Jim Hlavac, Diana Stolac, 2021-10-25. This book is an innovative contribution to contact linguistics as it presents a rarely studied but sizeable diaspora language community in contact with five languages: English, German, Italian, Norwegian, and Spanish across four continents. Foregrounded by diachronic descriptions of heritage Croatian in long-standing minority communities, the book presents synchronically based studies of the speech of different generations of diaspora speakers. Croatian offers excellent scope as a base language to examine how lexical and morpho-structural innovations occur in a highly inflective Slavic language where external influence from Germanic and Romance languages appears evident. The possibility of internal factors is also addressed and interpretive models of language change are drawn on. With a foreword by Sarah Thomason, University of Michigan. *A Grammar of the Great Andamanese Language* Anvita Abbi, 2013-07-18. Winner of the 2015 Kenneth L. Hale Award. *A Grammar of the Great Andamanese Language* is the first ever detailed and exhaustive account of Great Andamanese, a moribund language spoken on the Andamanese Islands belonging to India in the Bay of Bengal. This important documentation covers all major areas of the grammar of Great Andamanese and gives us a first detailed look at this unique language which is on the verge of extinction. Of particular interest here is the discussion of the body division class markers which play an important role throughout much of the grammar and which are documented in this volume for the first time. The volume will be of interest for general linguists from the fields of linguistic typology and areal linguistics as well as those interested in South Asian languages in general. *Romanian in Migration Contexts* Aurelia Merlan, 2024-06-17. As a result of migration, more than 25% of Romanian L1 speakers live outside of Romania and Moldova, mostly in other European countries but also in America and Australia. In the meantime, many second-generation speakers have become part of this group. The situation has resulted in various different constellations of language contact, both within the group of Romance languages and amongst typologically different and unrelated languages. Despite the fact that these contact scenarios present a wide range of research perspectives, there have been hardly any studies on Romanian as a language of migrants up until now. The volume *Romanian in the Context of Migration* brings together contributions on the Romanian language in Europe and in North America in the context of current migration linguistics. It includes studies on Romanian in Canada, France, Germany, Italy, Portugal, Slovenia, and Spain, and on the Romanian of those who return to Romania and Moldova. About 25% of the speakers with Romanian as L1 live today as a result of migration within Romania and the Republic of Moldova, mostly in other European countries but also in America and Australia. In the meantime, many second-generation speakers have become part of this group.
