Lascension Du Haut Mal David:

Epileptic David B.,2002 The most acclaimed European graphic novel of the last ten years finally available in English is author David B s story of his brother s battle with epilepsy which turns into a penetrating and sometimes lacerating self examination on the author s part as he delves into his own complex emotions and his family s troubled history as well as his own youthful fantasy life Winner of the French national cartooning award Alph Art this spare but elegant portrayal is particularly pointed in its description of the family s journey from one attempted cure to another B w throughout **Life, Re-Scaled** Liliane Campos,Pierre-Louis Patoine,2022-10-11 This edited volume explores new engagements with the life sciences in contemporary fiction poetry comics and performance The gathered case studies investigate how recent creative work reframes the human within microscopic or macroscopic scales from cellular biology to systems ecology and engages with the ethical philosophical and political issues raised by the twenty first century s shifting views of life The collection thus examines literature and performance as spaces that shape our contemporary biological imagination Comprised of thirteen chapters by an international group of academics Life Re Scaled The Biological Imagination in Twenty First Century Literature and Performance engages with four main areas of biological study Invisible scales cells microbes and mycelium Neuro medical imaging and diagnosis Pandemic imaginaries and Ecological scales The authors examine these concepts in emerging forms such as plant theatre climate change art ecofiction and pandemic fiction including the work of Jeff Vandermeer Jon McGregor Jeff Lemire and Extinction Rebellion s Red Rebel Brigade performances This valuable resource moves beyond the biological paradigms that were central to the nineteenth and twentieth centuries to outline the specificity of a contemporary imagination Life Re Scaled is crucial reading for academics scholars and authors alike as it proposes an unprecedented overview of the relationship between literature performance and the life sciences in the twenty first century

Comics as a Nexus of Cultures Mark Berninger,,Jochen Ecke,Gideon Haberkorn,2010-03-10 These essays from various critical disciplines examine how comic books and graphic narratives move between various media while merging youth and adult cultures and popular and high art The articles feature international perspectives on comics and graphic novels published in the U S Canada Great Britain Portugal Germany Turkey India and Japan Topics range from film adaptation to journalism in comics to the current manga boom The Expanding Art of Comics Thierry Groensteen,2017-10-05 In The Expanding Art of Comics Ten Modern Masterpieces prominent scholar Thierry Groensteen offers a distinct perspective on important evolutions in comics since the 1960s through close readings of ten seminal works He covers over half a century of comics production sampling a single work from the sixties Ballad of the Salt Sea by Hugo Pratt seventies The Airtight Garage of Jerry Cornelius by Moebius eighties Watchmen by Alan Moore and Dave Gibbons and nineties Epileptic by David B Then this remarkable critic scholar and author of The System of Comics and Comics and Narration delves into recent masterpieces such as Building Stories by Chris Ware Each of these books created an opening achieved a breakthrough offered a new

narrative model or took up an emerging tendency and perfected it Groensteen recaptures the impact with which these works each in its own way broke with what had gone before He regards comics as an expanding art not only because groundbreaking works such as these are increasing in number but also because it is an art that has only gradually become aware of its considerable potential and is unceasingly opening up new expressive terrain *The Elusive Brain* Jason Daniel Tougaw, 2018-01-01 A highly original account of how literature and neuroscience interact to explain the relationship between the mind body and brain *The Routledge Companion to Comics* Frank Bramlett, Roy Cook, Aaron Meskin, 2016-08-05 This cutting edge handbook brings together an international roster of scholars to examine many facets of comics and graphic novels Contributor essays provide authoritative up to date overview of the major topics and questions within comic studies offering readers a truly global approach to understanding the field Essays examine the history of the temporal geographical and formal development of comics including topics like art comics manga comix and the comics code issues such as authorship ethics adaptation and translating comics connections between comics and other artistic media drawing caricature film as well as the linkages between comics and other academic fields like linguistics and philosophy new perspectives on comics genres from funny animal comics to war comics to romance comics and beyond The Routledge Companion to Comics expertly organizes representative work from a range of disciplines including media and cultural studies literature philosophy and linguistics More than an introduction to the study of comics this book will serve as a crucial reference for anyone interested in pursuing research in the area guiding students scholars and comics fans alike **The Cambridge Companion to the Graphic Novel** Stephen E. Tabachnick, 2017-07-03 This Companion examines the evolution of comic books into graphic novels and the development of this art form globally **Literary Cultures and Twenty-First-Century Childhoods** Nathalie op de Beeck, 2020-08-05 In the early decades of the twenty first century we are grappling with the legacies of past centuries and their cascading effects upon children and all people We realize anew how imperialism globalization industrialization and revolution continue to reshape our world and that of new generations At a volatile moment this collection asks how twenty first century literature and related media represent and shape the contemporary child childhood and youth Because literary representations construct ideal childhoods as well as model the rights privileges and respect afforded to actual young people this collection surveys examples from popular culture and from scholarly practice Chapters investigate the human rights of children in literature and international policy the potential subjective agency and power of the child the role models proposed for young people the diverse identities children embody and encounter and the environmental well being of future human and nonhuman generations As a snapshot of our developing historical moment this collection identifies emergent trends considers theories and critiques of childhood and literature and observes how new technologies and paradigms are destabilizing past conventions of storytelling and lived experience **Reading Lessons in Seeing** Michael A. Chaney, 2017-02-17 Literary scholar Michael A Chaney examines graphic novels to illustrate that in form

and function they inform readers on how they ought to be read His arguments result in an innovative analysis of the various knowledges that comics produce and the methods artists and writers employ to convey them Theoretically eclectic this study attends to the lessons taught by both the form and content of today's most celebrated graphic novels Chaney analyzes the embedded lessons in comics and graphic novels through the form's central tropes the iconic child storyteller and the inherent childishness of comics in American culture the use of mirrors and masks as ciphers of the unconscious embedded puzzles and games in otherwise story driven comic narratives and the form's self reflexive propensity for showing its work Comics reveal the labor that goes into producing them embedding lessons on how to read the work as a whole Throughout Chaney draws from a range of theoretical insights from psychoanalysis and semiotics to theories of reception and production from film studies art history and media studies Some of the major texts examined include Marjane Satrapi's *Persepolis* Chris Ware's *Jimmy Corrigan The Smartest Kid on Earth* Joe Sacco's *Palestine* David B's *Epileptic* Kyle Baker's *Nat Turner* and many more As Chaney's examples show graphic novels teach us even as they create meaning in their infinite relay between words and pictures
