Last In The Universe:

Veritas Ælfred Whitacre, 1924 String Cosmology Johanna Erdmenger, 2009-07-14 This relatively new field applies equations from string theory to solve the questions of early cosmology since the standard picture of our universe emerging from a big bang leaves many fundamental issues unanswered String theory on the other hand postulates that fundamental ingredients of nature are not zero dimensional point particles but tiny one dimensional filaments This theory harmoniously unites quantum mechanics and general relativity the previously known laws of the small and the large which are otherwise incompatible The field of string cosmology has matured considerably over the past few years attracting many new adherents Due to the multidisciplinary nature of the topic it is difficult for practitioners to be conversant with all the many different aspects This book thus fills a huge gap by bringing together all the different strains of research into one single volume The resulting collection of selected articles presents the latest ongoing results from renowned experts currently working in the field From the contents Introduction to Cosmology and String Theory String Inflation Brane Inflation and Inflation from Moduli Cosmic Superstrings The CMB as a Possible Probe of String Theory String Gas Cosmology Gauge gravity Duality and String Cosmology Heterotic M theory and C A welcome addition to the literature for graduate students students in astronomy astronomers mathematicians and theoretical physicists **Theosophy** , 1924 *The Inter-Galactic Playground* Farah Mendlesohn, 2009-07-15 Science fiction is often considered the genre of ideas and imagination which would seem to make it ideal for juveniles and young adults however the ideas are often dispensed by adults This book considers the development of science fiction for children and teens between 1950 and 2010 exploring why it differs from science fiction aimed at adults In a broader sense this critical examination of 400 texts sheds light on changing attitudes toward children and teenagers toward science education and toward the authors expectations and sociological views of their audience The Chi-Phi Quarterly , 1877 **Current Population Survey** , 1984 Here Is Our God Kathleen Nielson, D.
