Latin American Special Economic Zones And Their Impacts On Regional Security:

Latin American Special Economic Zones and Their Impacts on Regional Security Richard R. Reyes, 2011 Latin America is often considered the United States strategic backyard. However, with the advent of globalization and technology, this backyard is no longer strictly American. As the region becomes more accessible and readily influenced by external actors and the United States security concerns focus elsewhere, a growing opportunity is present in the Western Hemisphere for organized criminal networks and terror financing to take hold. Although globalization provides Latin American nations with ties to the world economy, it comes at a price for regional security. One of the most vulnerable products of a globalized Latin America is the Special Economic Zones in the region. Special Economic Zones (SEZs) throughout Latin America represent the delicate seesaw game that globalization and security play. Although SEZs attract foreign direct investment, fuel jobs, and grow linkages in local economies, they are also extremely vulnerable to crime and corruption. The entrenched permissive environment for criminal activity and links to transnational terrorism is a serious issue for regional and global security. This paper will examine the vulnerabilities of SEZs in Latin America through a comparative case study approach of the Colon Free Zone and the Triple State Border Area (Zona Franca de Ciudad del Este).

The Complex Environments of Special Economic Zones Alessia Berni, 2025-02-26 This book presents a comprehensive framework for understanding Special Economic Zones (SEZs) as a powerful tool for regional development, stimulating investment, creating employment opportunities, and supporting economic growth through tax incentives and other benefits. It explores the relationships between academic institutions, industry policymakers, and institutional actors and highlights how collaborations between public and private sectors drive economic growth. The book further provides insights into how these zones foster innovation, attract foreign investment, and promote regional advancement through an in-depth analysis of SEZ types such as export processing zones, free trade zones, and high tech parks. Drawing on global case studies, the book identifies key governance structures and labor policies that enhance SEZ performance. It also examines how strategic interventions can address labor market challenges, especially in developing countries. The book will appeal to scholars, policymakers, and stakeholders seeking to understand the role of SEZs in economic and employment growth worldwide.

Contemporary South Africa and the Political Economy of Regional Development Methembe Mdlalose, Isaac Khambule, Nene Ernest Khalema, 2025-02-21 South Africa's struggle in balancing its domestic needs while playing a dynamic developmental role in the African region and global context exposes a complex web of relations shaped by its geostrategic location on the continent and the world and the staggering legacies of colonialism and apartheid. As such, understanding the complexities of the global economy and of South Africa's place in it is of great importance. This book builds upon an existing body of literature which has demonstrated that while the post-apartheid South African state has recast its nation-building goals with advances having been made notably in the area of a stellar post-apartheid constitution, policy directives, and democratic political integration, economic integration, and policy implementation.

presents a projection of captured interests where big business concerns are entrenched in the post apartheid state's apparent neo liberal turn. The main focus of the book is to contextualise issues relating to three main trends in global discourses on development which are significant for South Africa and indeed for the study of the political economy of regional development in the country from the prism of South Africa as a global capitalist state. These trends include the impact of globalisation, regionalisation and the marginalisation of South Africa and indeed the African continent in the global economy, thus unpacking the possible role that South Africa might play in regional development. This volume will be a valuable resource to academics, researchers and students in the fields of regional studies, economics and political theory as well as policymakers, planners and local economic development practitioners.

Transnational Crime and Black Spots

Stuart S. Brown, Margaret G. Hermann, 2019-10-29. The strength of this book is that it does not look at a single case or even a few disparate examples of drug, weapon and human trafficking but looks at many patterns intra regionally, cross nationally and internationally. It is an innovative addition to the literature on the nature of the safe havens or black spots currently being used for illicit activity. This book will make a clear impact on the scholarship of transnational crime and the geopolitics of the illicit global economy. Jeremy Morris, Aarhus University, Denmark. Transnational criminal, insurgent and terrorist organizations seek places that they can govern and operate from with minimum interference from law enforcement. This book examines 80 such safe havens which function outside effective state based government control and are sustained by illicit economic activities. Brown and Hermann call these geographic locations black spots because like black holes in astronomy that defy the laws of Newtonian physics, they defy the world as defined by the Westphalian state system. The authors map flows of insecurity such as trafficking in drugs, weapons and people, providing an unusually clear view of the hubs and networks that form as a result. As transnational crime is increasing on the internet, Brown and Hermann also explore if there are places in cyberspace which can be considered black spots. They conclude by elaborating the challenges that black spots pose for law enforcement and both national and international governance.

Power Dynamics and Regional Security in Latin America Marcial A.G. Suarez, Rafael Duarte Villa, Brigitte Weiffen, 2017-07-25. This volume explores the repercussions of a changing world order on regional security in Latin America. It examines how global and regional power shifts impact on the evolution of regional institutions as well as on state policies adopted in response to regional security challenges such as border conflicts, political instability, migration, drug trafficking, organized crime and terrorism. Contributions to this volume analyze the topic from three angles: power dynamics and its effects on regional security governance; the contribution of regional institutions to the management of security challenges; and the impact of power dynamics on states shifting security priorities. Written by specialists from Brazil, Argentina, Colombia, Mexico, the United States and Europe, the chapters weave theory and case studies to provide a rich description of the impact of power and politics on regional security in Latin America. This book is an invaluable resource for students, scholars and practitioners interested in Latin American politics, regional

cooperation and war and conflict studies as well as international security and international relations in general

Environmental Security in Latin America Gavin O'Toole, 2017-05-18 This book examines security in Latin America through an environmental lens at a time when this region faces a broad and growing spectrum of threats The book considers the backdrop against which security debates about Latin America have been conducted the extent to which scholarship has been dominated by traditional US strategic concerns and how in the changing context at the end of the Cold War some policymakers within Latin America itself at both national and regional levels began to reposition security It argues that traditional security scholarship focusing on military defence and strategic affairs in this region is hard to explain and out of date and offers reasons why a new focus on environmental threats within a broader human security perspective has much to offer this field Such a focus is justified by the scale of the challenges that environmental degradation is posing in Latin America and the very real impact of climate change there The book considers how the various theoretical possibilities of the term environmental security all have some potential application to this region where the natural environment is rapidly being securitized by military forces on behalf of their states Finally it proposes that a fruitful approach to Latin America might be one where human and environmental security have parity This book will be of interest to students of environmental security

Latin American security human geography and IR in general *Hemispheric Security And U.s. Policy In Latin America* Augusto Varas, 2019-04-11 This book analyzes the evolution of inter American security relations in recent decades providing a variety of views on these topics from the United States and Latin America It includes an analysis of regional security interactions around Central America the Caribbean and South America **Regional Overview of Food Security and Nutrition in Latin America and the Caribbean 2020**

Food and Agriculture Organization of the United Nations ,World Food Programme ,United Nations International Children's Fund ,International Fund for Agricultural Development ,Pan American Health Organization , 2021-05-19 The goals of the 2030 Agenda for Sustainable Development that are related to food security and nutrition will not be achieved as long as in some territories in Latin America and the Caribbean populations continue to live with malnutrition rates Economic opportunities in these areas are often limited public services are scant and exposure to severe climate events is high The public policies promoted in the region have had less impact in these historically lagging territories and there is a pressing need to produce a new agenda of public instruments that address the characteristics of the communities that inhabit them The full and sustainable development of the territories that are falling behind is not only an obligation in terms of the realization of the rights of their inhabitants it would also allow these territories to activate their social economic environmental and cultural potential to the benefit of all societies It is hoped that the 2020 Regional Overview will help to highlight the challenges experienced by the territories with the worst indicators in terms of food and nutrition and that it will serve to mobilize political commitment and public attention towards those areas that are most highly lagging The year 2020 will be remembered for many decades as the year of the COVID 19 pandemic The

indicators of the 2030 Agenda that are used in this publication do not yet show the different impacts of COVID 19 However there are references to the possible implications of the pandemic for the future **Latin America and the Caribbean Regional Overview of Food Security and Nutrition 2024** Food and Agriculture Organization of the United Nations,IFAD;PAHO;UNICEF;WFP;2025-01-27 Latin America and the Caribbean have seen a decline in hunger and food insecurity for two years driven by social protection programs and post COVID recovery However disparities persist especially among women rural populations and vulnerable groups The region is unlikely to meet most nutrition targets and healthy diets remain expensive Climate variability is increasing in the region affecting food security across availability access utilization and stability This climate impact reduces agricultural productivity disrupts food supply chains and raises food prices Vulnerable populations are most affected with changing diets further exacerbating the situation Climate change is worsening food security and the causes of malnutrition *U.S. Army War College Key Strategic Issues List* ,2006

Cybersecurity Governance in Latin America Carlos Solar,2023-01-01 Cybersecurity Governance in Latin America discusses how the massification of the Internet has exposed emerging democracies high tech vulnerabilities to cyber attacks and questions why states have decided to introduce policies and legislation facilitating the militarization of cyberspace Carlos Solar offers a comparative analysis using the cases of Argentina Brazil Chile Colombia Mexico and Venezuela to help navigate the changing security landscape and the growing risks found in the digital domain His analysis includes a review of civilian and military preparedness emphasizing the ongoing alliances with the world s superpowers to finally debate what are the side effects for peace and development in the Americas from the current cybersecurity rivalry between the United States and China Providing a much needed account of state technology affairs in the global south Cybersecurity Governance in Latin America challenges scholars and policymakers to rethink the protection of cyberspace to avoid unnecessarily sacrificing rights and freedoms in the name of national security *International Economic Law and the Challenges of the Free Zones* Julien Chaisse,Jiaxiang Hu,2019-05-02 Special economic zones SEZs have become a permanent feature of the world trade scene This book the first to provide a critical and comprehensive analysis of SEZs covering a wide spectrum of countries and regions shows how SEZs albeit established at the domestic level by different countries raise multiple legal issues under international economic law This first rate book is the product of the Asia FDI Forum IV held in Hong Kong in 2018 Thoroughly exploring the development of the SEZ phenomenon and its players the contributing authors all leading economic law experts review the issues raised by SEZs in the context of international trade law international investment law and investment arbitration They identify the extent to which SEZs have been coherent in their design and policymaking in particular with regard to domestic law reforms They address such aspects both core themes and specific examples as the following investment protection in China s SEZs state owned enterprises regulation dispute settlement under what circumstances incentives available in SEZs count as export subsidies prohibited under World Trade Organization WTO rules

compliance with internal market rules in European Union EU free zones local populations as victims of land expropriation Brazil's Manaus Free Trade Zone India's experience with multiple SEZs the administrative approval system in the Shanghai Free Trade Zone economic corridors and transit routes as SEZs refugee cities SEZs for migrants how China's Supreme People's Court serves national strategy how foreign investors challenge free zone regimes impacts of the establishment of SEZs on tax revenues SEZs and labour migration and management models The chapters also include insights into the new emerging generation of international investment agreements WTO accession transparency and case law materials clarifying specific trade issues associated with SEZs and new rules to protect the environment and labour rights as well as analysis of crucially significant cases such as *Goetz v The Republic of Burundi* *Lee Jong Baek v Kyrgyzstan* and *Ampal American and Others v Egypt* With its critical and comprehensive analysis of the dynamic SEZ phenomenon across legal economic investment regulatory and policy matrices including a thorough analysis of the success factors and required policies for SEZs this book takes a giant step towards answering the question whether SEZs fundamentally contradict norms of international law or whether SEZs have to be considered as laboratories which facilitate the implementation of international economic policies Its careful examination of theory and practice and its approach to lessons learned from case studies will reward trade and investment officials policymakers diplomats economists lawyers think tanks business leaders and others interested in this ever more important area of law and economics

Asean 50: Regional Security Cooperation Through Selected Documents Daniel Wei Boon Chua, Eddie Meng Chong Lim, 2017-09-22 ASEAN 50 Regional Security Cooperation through Selected Documents curates key official documents that establish ASEAN as the foundation of Southeast Asia's peace and security Since 1967 ASEAN has played the crucial role of managing conflicts and maintaining stability in a region shaped by diverse political economic and socio cultural dynamics During the Cold War ASEAN's ability to keep major power rivalries and intra mural disputes in check provided the conditions for economic growth in the region Yet the extent of ASEAN's contributions to the security of Southeast Asia have not been systematically presented This compendium of official ASEAN declarations statements treaties conventions and workplans demonstrates the activism and innovation of ASEAN member countries in their management of regional security for the past five decades ASEAN 50 Regional Security Cooperation through Selected Documents provides answers to how ASEAN remains a cohesive organisation through periods of regional conflict how ASEAN unity thrives despite seemingly insurmountable differences among the ten members and how ASEAN centrality is resilient against pressure arising from great power influences in Southeast Asia
