Historia oral e historia política Pablo Pozzi, 2012 Historia oral e historia política Izquierda y lucha armada en América Latina 1960-1990 es un aporte al conocimiento y comprensión de los procesos de violencia política como un aspecto clave en el análisis de las dinámicas sociales y políticas que tensionan y caracterizan a una sociedad en procesos de cambio y en particular aquellos que tuvieron lugar en nuestro continente hacia la segunda mitad del siglo pasado Entonces tanto las distintas respuestas que las oligarquías latinoamericanas dieron al ascenso de los trabajadores y sus proyectos de transformación social como las nuevas estrategias políticas militares surgidas en la izquierda revolucionaria que buscaba cambios estructurales y la construcción del socialismo dieron paso a un nuevo y particular ciclo político de nuestra historia latinoamericana Los trabajos que aquí se reúnen pretenden dar cuenta de este período y de los diversos contextos y

whom they learn and how and what the outcomes are Their internal and external interactions are examined within their socio political contexts to illuminate how they adapt to challenges or fail to do so Unpacking the question of how do terrorists learn helps us to grasp not only changes of violent means of action but also of operational and strategic approaches and ultimately even transformations of the ends pursued The chapters demonstrate that terrorist learning is not principally different from that of other human organisations The contributors draw on conceptual frameworks of organizational learning but also broaden the scope beyond the organizational framework to acknowledge the variety of forms of informal and decentralized learning characteristic of much contemporary terrorism This book will be of much interest to students of terrorism studies violent extremism organisational studies and International Relations
