**Village Infernos and Witches' Advocates** Lu Ann Homza, 2022-01-15 This book revises what we thought we knew about one of the most famous witch hunts in European history Between 1608 and 1614 thousands of witchcraft accusations were leveled against men women and children in the northern Spanish kingdom of Navarre The Inquisition intervened quickly but incompetently and the denunciations continued to accelerate As the phenomenon spread children began to play a crucial role Not only were they reportedly victims of the witches harmful magic but hundreds of them also insisted that witches were taking them to the Devil s gatherings against their will Presenting important archival discoveries Lu Ann Homza restores the perspectives of illiterate Basque speaking individuals to the history of this shocking event and demonstrates what could happen when the Spanish Inquisition tried to take charge of a liminal space Because the Spanish Inquisition was the body putting those accused of witchcraft on trial modern scholars have depended upon Inquisition

sources for their research Homza's groundbreaking book combines new readings of the Inquisitional evidence with fresh archival finds from non Inquisitional sources including local secular and religious courts and from notarial and census records Expanding our understanding of this witch hunt as well as the history of children community norms and legal expertise in early modern Europe Village Infernos and Witches Advocates is required reading for students and scholars of the Spanish Inquisition and the history of witchcraft in early modern Europe

[El reconocimiento de la humanidad. España, Portugal y América Latina en la génesis de la modernidad](#) Fernando Álvarez-Uría, 2014-11-24

La tesis sostenida en El reconocimiento de la humanidad es que el moderno orden secular se sustent en Occidente en la categoría de género humano una categoría de pensamiento extraña al mundo protestante de los elegidos Tras el descubrimiento del Nuevo Mundo esta categoría se expandió tanto en España como en América Latina impulsada por la llamada Escuela de Salamanca Cómo explicar que esa primera modernidad del sur que fue decisiva en el proceso de formación de un pensamiento racional y científico haya sido mayoritariamente marginada ignorada o infravalorada por los historiadores Cómo explicar que los países hispanos en donde presuntamente se produjo ese primer avance de secularización y de democratización se hayan incorporado tarde al mundo moderno hasta el punto de que la Iglesia Católica sigue aún en la actualidad marcando fuertemente la agenda de los gobiernos En el libro se abordan estas y otras cuestiones y se argumenta que la formación de la idea de humanidad entraña una relación con las navegaciones y descubrimientos abrieron el camino a la constitución de un nuevo espacio mental a un nuevo sistema de pensamiento que se articula con específicas condiciones sociales y políticas La historia intelectualnicamente resulta inteligible a la luz de la historia social El reconocimiento de la humanidad abrió la caja de Pandora del problema de la legitimidad del poder Si todos los seres humanos compartimos una naturaleza común por qué unos mandan y otros obedecen por qué unos son ricos y otros pobres de donde dimana la propiedad la sociedad y el Estado Las bases para un nuevo pensamiento político al margen del orden teocrático propio de la cristiandad estaban puestas Frente a las ideas recibidas se avanza en esta obra una nueva línea explicativa de la génesis de la modernidad que centrada especialmente en el siglo XVI atraviesa España Portugal y América Latina
