Stephens American Historical Review      *Historiography in Saudi Arabia* Jörg Matthias Determann, 2013-10-25 Saudi Arabia is generally and justifiably viewed as a country with the fewest democratic institutions and the weakest traditions of pluralism in the world It is therefore surprising to learn that at least in one corner of the Saudi world there is a plurality of voices Jörg Matthias Determann brings this element to light by analysing an important field of cultural activity in Saudi Arabia historical writing By exploring the emergence of a plurality of historical narratives in the absence of formal political pluralism Determann seeks to paint a more nuanced picture of Saudi Arabia than has previously been drawn Since the 1920s local tribal Shi'i and dynastic histories have contributed to a growing plurality of narratives diverging from and contesting the histories which focus on the royal family Instead they have emphasized the communities' historical independence from the House of Saud or asserting the communities' importance in Saudi national history In addition to this during the 1970s distinct social and economic histories began to be developed new narratives which have described important historical events evolving from wider social and economic factors rather than resulting from the actions of individual rulers or communities Paradoxically this happened because of the expansion of the Saudi state including state provision of mass education A variety of previously illiterate and relatively poor sections of Saudi society including former Bedouin were thus empowered to produce histories which while conformist for the most part also provided a vehicle for dissenting voices Furthermore Determann argues that this proliferation of alternative histories is also due to globalizing processes such as the spread of the internet It is through this phenomenon that narrative plurality has been facilitated by putting Saudi historians in contact with different ideologies methodologies and source material from abroad In challenging the widely held perception of Saudi Arabia as an irredeemably closed and monolithic society *Historiography in Saudi Arabia* provides a deeper understanding of modern Arab historiography the Saudi state and education and scholarship in the Middle East      *The Craft of Research, Third Edition* Wayne C. Booth, Gregory G. Colomb, Joseph M. Williams, 2009-05-15 With more than 400 000 copies now in print *The Craft of Research* is the unrivaled resource for researchers at every level from first year undergraduates to research reporters at corporations and government offices Seasoned researchers and educators Gregory G. **The Routledge Handbook of Events** Stephen J. Page, Joanne Connell, 2020-04-22 The Routledge Handbook of Events explores and critically evaluates the debates and controversies associated with the rapidly expanding domain of Event Studies. It brings together leading specialists from a range of disciplinary backgrounds to provide a state of the art review on the evolution of the subject. The first edition was a landmark study which examined how event research had evolved and developed from a range of different social science subject areas and disciplines. The Handbook was the first critique of the extent to which the subject had developed into a major area of social science inquiry. This second edition has been fully updated to reflect crucial developments in the field and includes brand new sections on ever important aspects of Event Studies such as anthropology, hospitality, seasonality, knowledge management, accessibility, diversity and human rights as well as new studies on the eventful city and the benefits of events in older life. The book is divided into four inter related sections. Section 1 introduces and evaluates the concept of events. Section 2 critically reviews the relationship between events and other disciplines such as the contribution of economics, psychology and geography to the critical discourse of Event Studies. Section 3 focuses on the business, operational and strategic management of events while the final section crucially focuses on critical events as a new paradigm within the burgeoning literature on Events. It offers the reader a comprehensive and critical synthesis of this field conveying the latest thinking associated with events research, edited by two of the leading scholars in the field. The text will provide an invaluable resource for all those with an interest in Events Studies, encouraging dialogue that will span across disciplinary boundaries and other areas of study. It is an essential guide for anyone interested in events research.

**Modernity, Metatheory, and the Temporal-Spatial Divide** Michael Krimm, 2015-03-27 This book is about how modernity affects our perceptions of time and space. Its main argument is that geographical space is used to control temporal progress by channeling it to benefit particular political, economic and social interests or by halting it altogether. By incorporating the ancient Greek myth of the Titanomachy as a conceptual metaphor to explore the elemental ideas of time and space, the author argues that hegemonic interests have developed spatial hierarchy into a comprehensive system of technocratic monoculture which interrupts temporal development in order to maintain exclusive power and authority. This spatial stasis is reinforced through the control of historical narratives and geographical settings. While increasingly comprehensive, the author argues that this state of affairs can best be challenged by focusing on the development of unmappable places which presently exist within the socio spatial matrix of the modern world.

*The Marxist catastrophe: The decline and fall of Marxism in the social sciences and academia* Sujay Rao Mandavilli, 2025-08-20 Communism has generally been seen to be in long and gradual retreat all over the world since the 1980's Unease against communism and its general principles has been known since at least 1968 when the Prague Spring unraveled itself This was a period of liberalization in Eastern Europe but was brutally suppressed by the former Soviet Union and its communist leaders who feared its ripple and cascading effects in the rest of the communist world The Soviet Union itself crumbled less than a quarter of a century later this collapse was precipitated by Mikhail Gorbachev's reforms namely Glasnost or openness and Perestroika or structural reform Gorbachev needs no introduction to most people he was born in 1931 and died in 2022 Gorbachev's began his political career in the Communist Party of the former Soviet Union where gradually he rose through the ranks to assume leadership positions becoming General Secretary in 1985 Gorbachev gradually moved away from orthodox Stalinism Leninism to embrace more democratic ideals He therefore sought to modernize the USSR by saving its stagnant economy which was even being overtaken by newly emerging Asian powers and counter nationalist sentiments in other Soviet Republics The Soviet Union was subsequently formally dissolved on the 26th of December 1991 by a declaration known as 142 N All the Soviet republics declared their independence effectively putting an end to the USSR which vanished into the annals of history Many communist nations of Eastern Europe were dissolved even prior to this with the Berlin wall falling in November 1989 and Nicolae Ceausescu's regime in Romania being toppled a month later

Egalitarian Sublime Williams James Williams, 2019-09-11 We call sublime those things and experiences supposed to be the very best But what if the best actually leads to inequality and exploitation Williams critiques the sublime over its long history and in recent returns to sublime nature and technologies Deploying a new critical method that draws on process philosophy he shows how the sublime has always led to inequality This holds true even where it underpins ideas of cosmopolitan enlightenment and even when refined

by Burke Kant Nietzsche Schopenhauer and Zizek Against the unjust legacies of the traditional sublime James Williams defends a new anarchist sublime multiple self destructive and temporary opposed to any idea of highest value to be shared by all but always imposed on the powerless      **The Columbian Covenant: Race and the Writing of American History** James Carson, 2014-12-18 This provocative analysis of American historiography argues that when scholars use modern racial language to articulate past histories of race and society they collapse different historical signs of skin color into a transhistorical and essentialist notion of race that implicates their work in the very racial categories they seek to transcend
