A History of Old Tioga Point and Early Athens, Pennsylvania (Classic Reprint) Louise Welles Murray, 2015-07-08
Excerpt from A History of Old Tioga Point and Early Athens Pennsylvania In every community there are those who scoff at any attempt to preserve local history For them are here recorded some wise words of great men many of which were collated by the late Dr John Hawley and used in his writings for the Cayuga County N Y Historical Society of which he was the first President Dr Hawley wrote Why do we want to know history Simply because all of us and every one ought to know how we have come to be what we are Daniel Webster wrote The Man who feels no sentiment of veneration for the memory of his forefathers who has no natural regard for his ancestors or his kindred is himself unworthy of kindred regard or remembrance Max Muller says What history has to teach us before all and everything is our own antecedents our own ancestry our own descent He does wisest and best for himself and for others who takes closest heed to the lessons of the past Love for the old is not inconsistent with the things of to day Whatever tends to unravel the true motives of men and their deeds clothes the past with living interest A faithful record of the pioneer generation should mirror forth its manners customs and principles and serve to increase our veneration for the men and women who won for us this fair heritage We can not know too much of the influences which have made and controlled the conditions of society as they have hindered or advanced its welfare Therefore we should collect and preserve the memorials of our local history while the incidents of its early settlement are yet fresh in memory or tradition Brodhead the historian said A decent reverence for the past must always be an ingredient of the highest patriotism The more that is known of the history of a locality the more the people will love it and stand up for it not only for what it is but for what their predecessors have done and suffered to make it what it is There are many ways of learning history we read it not only from written documents records traditions monuments and coins but also from ethnological and geological remains In all these one needs to be well versed to discover the thread of fiction from the warp of truth in the mingling of romance which certain writers choose to adopt for the day is past in which romance can be accepted as history Schiller well calls history The tribunal of the World Hesitatingly we send forth this work of our hand to be judged in the tribunal of our own world the Valley of the Susquehanna About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works The Faith of a Quaker (Classic Reprint) John William Graham, 2017-02-06 Excerpt from The Faith of a Quaker There arise also the insistent questions which beset all mystics and which in Quakerism demanded a corporate instead of an individual answer Was the

Athenian Democracy Robin Osborne,2023-07-06 A sourcebook on Athenian democracy with a range of translated primary texts to support ancient history students **Ancient Historiography on War and Empire** Timothy Howe,Sabine Müller,Richard Stoneman,2016-11-30 In the ancient Greek speaking world writing about the past meant balancing the reporting of facts with shaping and guiding the political interests and behaviours of the present Ancient Historiography on War and Empire shows the ways in which the literary genre of writing history developed to guide empires through their wars Taking key events from the Achaemenid Persian Athenian Macedonian and Roman empires the 17 essays collected here analyse the way events and the accounts of those events interact Subjects include how Greek historians assign nearly divine honours to the Persian King the role of the tomb cult of Cyrus the Founder in historical narratives of conquest and empire from Herodotus to the Alexander historians warfare and financial innovation in the age of Philip II and his son Alexander the Great the murders of Philip II his last and seventh wife Kleopatra and her guardian Attalos Alexander the Great s combat use of eagle symbolism and divination Plutarch s juxtaposition of character in the Alexander Caesar pairing as a commentary on political legitimacy and military prowess and Roman Imperial historians using historical examples of good and bad rule to make meaningful challenges to current Roman authority In some cases the balance shifts more towards the literary and in others more towards the historical but what all of the essays have in common is both a critical attention to the genre and context of history writing in the ancient world and its focus on war and empire **The Development of University**

Teaching Over Time Tom O'Donoghue,2024-06-03 Examining two centuries of university education this book charts the development of pedagogical approaches since the year 1800 and how they have transformed higher education While institutions for promoting advanced learning in various forms have existed in Asia Africa and the Arab world for centuries the beginning of the nineteenth century saw the emergence of the modern model of a university with which we are familiar today

This book argues that in the time since seven broad teaching approaches were developed across the world which continue to be used today the disputation the lecture the tutorial the research seminar workplace teaching teaching through material making and role play O Donoghue demonstrates how each has been reconfigured and developed over time in response to the changing nature of higher education as well as society more generally This expansive book will be of great interest to historians of education scholars of education more generally and teacher practitioners interested in the pedagogical models that shape modern academia

Greece in the Making 1200-479 BC Robin Osborne, 2009-03-16 Greece in the Making 1200 479 BC is an accessible and comprehensive account of Greek history from the end of the Bronze Age to the Classical Period The first edition of this book broke new ground by acknowledging that barring a small number of archaic poems and inscriptions the majority of our literary evidence for archaic Greece reported only what later writers wanted to tell and so was subject to systematic selection and distortion This book offers a narrative which acknowledges the later traditions as traditions but insists that we must primarily confront the contemporary evidence which is in large part archaeological and art historical and must make sense of it in its own terms In this second edition as well as updating the text to take account of recent scholarship and re ordering Robin Osborne has addressed more explicitly the weaknesses and unsustainable interpretations which the first edition chose merely to pass over He now spells out why this book features no rise of the polis and no colonization and why the treatment of Greek settlement abroad is necessarily spread over various chapters Students and teachers alike will particularly appreciate the enhanced discussion of economic history and the more systematic treatment of issues of gender and sexuality

Theophrastus and His World Paul Millett, 2020-08-30 This is the first extended study in English of Theophrastus Characters one of the briefest but also most influential works to survive from classical antiquity Since the seventeenth century the Characters has served as a model and an inspiration for authors as diverse as La Bruy re Thackeray George Eliot and Elias Canetti This study aims to locate Theophrastus and his Characters with respect to the political and philosophical worlds of Athens in the late fourth century focusing on later imitators in order to provide clues to reading the Theophrastan original Special attention is paid to the problems and possibilities of the Characters as testimony to the culture and society of contemporary Athens integrating the text into the extensive fragments and testimonies of Theophrastus other writings The implications for the historian of the elusive humour of the Characters dependent in large measure on the device of caricature are explored in detail What

emerges is a picture of the complex etiquette appropriate for upper class citizens in the home the streets and other public places in Athens where individuals were on display Through their resolutely shaming behaviour the Characters illuminate the honour for which citizens should by implication be striving A key theme of the study is Theophrastus ambivalent position in Athens a distinguished philosopher and head of the Lyceum yet still subject to the disabilities of his metic status **Archaic and Classical Greece** Michael H. Crawford, David Whitehead, 1983-01-13 The aim of this book is to collect in one comprehensive volume a representative selection of ancient sources in translation with commentary on the history institutions society and economy of the Greek world from c 750 to 338 BC that is the period best known and most important for the evolution of the polis a form of political community which combined the aspects of city and state in a physical and psychological unity unparalleled either before or since For us the inheritors of much that the Greeks created there is an inherent interest in the way in which they organised their society during these centuries Although this book assumes no knowledge of Greek the reader is introduced to a range of key Greek words and concepts which offer a direct insight into the mentality both collective and individual of the times The sources themselves all of which have been translated by the authors are supported by introductory commentary notes bibliographies chronological tables and maps All students and teachers of the history of ancient Greece or of classical civilisation generally will find this book an invaluable tool **Religious Studies and Rabbinitics** Elizabeth Alexander, Beth Berkowitz, 2017-09-08 Religious Studies and Rabbinitics have overlapping yet distinct interests subject matter and methods Religious Studies is committed to the study of religion writ large It develops theories and methods intended to apply across religious traditions Rabbinitics by contrast is dedicated to a defined set of texts produced by the rabbinic movement of late antiquity Religious Studies and Rabbinitics represents the first sustained effort to create a conversation between these two academic fields In one trajectory of argument the book shows what is gained when each field sees how the other engages the same questions When did the concept of religion arise How should a scholar's normative commitments interact with their scholarship The book argues that if scholars from Religious Studies and Rabbinitics do not realize they are addressing the same problems they will not benefit from each other's solutions A second line of argument brings research methods theoretical claims and data associated with one field into contact with those of the other When Religious Studies categories such as ritual or the sacred are applied to data from Rabbinitics and conversely when text reading strategies distinctive to Rabbinitics are employed for texts from other traditions both Religious Studies and Rabbinitics enlarge their scope The chapters range across such themes as ritual failure rabbinic conceptions of scripture ethics food time and everyday life problems of definition and normativity in the study of religion J Z Smith's writings and the preaching of the African American Christian evangelical social justice activist John Perkins With chapters written by world class theorists of Religious Studies and prominent text scholars of Rabbinitics the book provides a unique opportunity to expand the conceptual reach and scholarly audience of both Religious Studies and Jewish Studies *The Classical Weekly*, 1925 **Toward an**
