On This Day in Connecticut History Gregg Mangan, 2015

Connecticut's character runs much deeper than breathtaking fall foliage and quaint coastal towns. One day at a time, author Gregg Mangan chronicles fascinating episodes in state history from the earliest European settlements to the modern era. After a lengthy debate, the state senate voted in favor of Yankee Doodle as the official state song on March 16, 1978. Bridgeport's General Electric Company completed work on the bazooka on June 14, 1942. On the morning of December 4, 1891, the only four-train collision in American history occurred at the railroad station in East Thompson. Each date on the calendar holds a nugget of knowledge in this celebration of Connecticut state history.

The Two-Wheeled World of George B. Thayer Kevin J. Hayes, 2015-11-01 Cyclotourism has recently risen to prominence with growing national media coverage and thousands of participants taking to America's roadways on two wheels and under their own pedal power But the concept is not new More than a century ago George B Thayer took his own first century or one hundred mile bicycle ride The Two Wheeled World of George B Thayer brings to life the experience of late nineteenth century cycling through the heartfelt story of this important cycling pioneer In 1886 just two years after his first century Thayer rode his high wheeler across the United States traveling from his home in Connecticut to California and back Thayer took an indirect route without any intent to set speed records but his trip was full of adventure nonetheless Thayer loved going downhill his legs over the handlebars risking life and limb atop the large wheel on often rough and muddy roads With aplomb and humor he dealt with the countless other hazards he encountered including dogs mule teams and wild hogs Even bad weather and poor sleeping conditions could not keep Thayer down After his epic tour across the United States Thayer had the urge to cycle abroad and eventually toured England Germany Belgium and Canada on his bike His later travels were in part aided by his hometown of Hartford Connecticut which was the epicenter of American bicycle manufacturing in the late 1890s In addition to telling Thayer's cycling story Kevin J Hayes brings to life the culture of cycling and its rise at the end of the nineteenth century when bikes became more affordable and the nation's riding craze took off
