

MEDICINE THROUGH TIME

5(a) Study Source A. What can you learn from this source about medicine in the sixteenth century? Use the source and your knowledge to explain your answer.

Target: AO 1, 2 and 3

Level 1	Claims the source tell us nothing relevant Eg "You can not learn from this because the doctors are not doing anything!"	[1]
Level 2	Writes about the surface information in the source Eg "You can learn a lot from this source, it states on they had midwives to help deliver children and they also had doctors on hand in case they were needed."	[2]
Level 3	Makes valid inferences from the source about sixteenth century medicine Valid inferences include: role of women in medicine, the use of the stars by the doctors to work out the prospects for the child Eg "From this is useful for telling us about medicine in the sixteenth century. We can learn that women were used in medicine. This was an obvious choice because they were normally not allowed to be involved but they chose to that they preferred to use women for child birth. "You can see from this source that the doctors think it is more important to look at the stars than to help with the birth of the child. They are looking at the stars which they thought influenced the life of people. They are probably working out the what kind of future the child might have and if he is likely to be ill or live by his star sign."	[3-4]
Level 4	Makes two valid inferences from the source about sixteenth century medicine	[5]
